Witness states that she was about to close a window on the north side of the house when a bright bluish-green glow ~~flashed~~ appeared in the NE. The light appeared to be moving toward the witness while it fell at an angle. Witness said it was just like a shooting star, but different than any she has seen.

after the object disappeared beyond the trees the witness walked out to where the object appeared to fall. The ground where it was thought that the object had fallen was freshly spaded. The only thing she found was something similar to burnt charcoal, and was turned over to the investigator.
