COURSE<br>S                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |  |
| 10. BRIEF SUMMARY OF SIGHTING<br>During a period of 5 hrs there were 4 reported objects seen over the same general area. The objects consisted of flashes of light, greenish-white in color, with long trail of sparks. One witness reported an object that broke into 2 pieces. Objects were viewed from 2 to 20 sec, depending on witness. |  |                                                                                                                                                                                                       |  | 11. COMMENTS<br>Description and duration is typical of meteors. It is ATIC opinion that the cause for these sightings was a meteor shower.                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |  |

As Stated

REPORT OF INVESTIGATION OF UNIDENTIFIED FLYING OBJECT SIGHTING

Chanute Air Force Base, Illinois - 2 July 1960

AUTHORITY: AFR 200-2 dated 14 September 1959, unclassified message AFCIN-4e2-7-2096-E, 8 July 1960 from ATIC Wright Patterson Air Force Base, Ohio, and Special Order A-393 dated 12 July 1960, Hq Chanute Technical Training Center (ATC)

PROCEEDINGS OF THE INVESTIGATION: On 13 and 14 July 1960, Capt. G. W. Nathan A0755396, 3345th Air Base Group, Chanute Technical Training Center (ATC) appointed by Special Order A-393, Hq Chanute Technical Training Center, 12 July 1960, proceeded to investigate the sighting of a UFO on the morning of 2 July 1960. During the investigation, the following persons were contacted and interviewed in accordance with paragraph 15, AFR 200-2:

SMgt [REDACTED] Det. 3, 8th Weather Group, Chanute AFB, Ill.

Mrs. [REDACTED], Chanute AFB, Illinois

SSgt [REDACTED], Det. 3, 8th Weather Gp., Chanute AFB

A3C [REDACTED] Det. 3, 8th Weather Gp., Chanute AFB

SSgt [REDACTED] 1963rd AACS, Chanute AFB, Illinois

TSgt [REDACTED] 1963rd AACS, Chanute AFB, Illinois

Lt. [REDACTED] Dept. of Weather and Moondust Project Officer, Chanute AFB, Illinois

FINDINGS: After careful evaluation of the facts disclosed by persons contacted and on interview with the Moondust Project Officer, Lt. Miller of Chanute AFB, it was found that:

a. SMgt and Mrs. [REDACTED] observed the flash of greenish-white light in the NE quadrant of the sky at 0231Z, 2 July 1960 and a flash of light of the same intensity and color again 90 minutes later at 0400Z in the East quadrant of the sky and a third time about 180 minutes after the second sighting at 0730Z in the NW quadrant of the sky. All findings were at an elevation of 120° relative to the horizon.

b. TSgt [REDACTED] while attending a drive-in theatre two miles west of Chanute Air Force Base, observed an egg-shaped ball of light about the size of a pea held at arm's length grow to the size of a dime held at arm's length break into two pieces with the smaller piece trailing behind the larger piece by approximately one-half the diameter of the larger piece. The object appeared reddish-orange in color in the East quadrant of the sky at about 40° elevation at 0545Z 2 July 1960, traveling South and rapidly fading at an elevation of 20°. The object was visible to Sgt. [REDACTED] for approximately three to four seconds.

c. SSgt Anderson on duty at the remote Weather Observation Tower, reported

that, at 0731Z 2 July 1960, he had observed a flash of brilliant green light brighter than any light he had ever seen being emitted from an object about the size of an orange held at arm's length and lighting up one-half of the sky. The object appeared in the NW quadrant of the sky at an elevation of 70 to 80° traveling southward and slowly fading at an elevation of 45° leaving a trail of visible light fifteen to twenty times longer than the diameter of the object. The object was visible to Sgt. Anderson for five seconds. The trail of visible light lasted for fifteen to twenty seconds after the object disappeared. This sighting and basic information was confirmed by A3C Fletcher also on duty at the Weather Tower and SSgt Gerard on duty at the Control Tower, both located at Chanute Air Force Base.

d. The Moondust Project Officer had been alerted for possible re-entry of a Russian satellite late in June or early July. After reported findings at 0730Z and 0400Z, TSgt [REDACTED] at 0545Z, and Sgt. Anderson at 0730Z, and the fact that the Moondust Project Officer had been alerted for the possible re-entry of a Satellite, the re-entry of a Satellite seems likely. An inquiry of the Smithsonian Institute of pre-calculated orbital data of known satellites could confirm that the object sighted was a spent Russian satellite or a spent rocket case starting to re-enter the earth's atmosphere. No further sightings have been reported at Chanute Air Force Base since the morning of 2 July 1960.

RECOMMENDATIONS: In that all possible leads indicate the possibility of re-entry of a satellite, it is recommended that no further action be taken at this station.

*George W. Nathan*

BASIC REPORTING DATA OF SMgt. IRA BURTON:

In accordance with paragraph 15 of AFR 200-2, the following is submitted:

a. Description of Object(s):

- (1) Flash of light lighting up a large area of the sky.
- (2) No object sighted
- (3) Greenish-white
- (4) One
- (5) None
- (6) None
- (7) None
- (8) None
- (9) Brightness

b. Description of course of object(s):

- (1) Flash of brilliant light with clear skies.
- (2) The angle of elevation was from  $0^{\circ}$  -  $20^{\circ}$  in the NE quadrant on the first sighting at 0230Z, the East quadrant at approximately 0400Z and the NW quadrant at approximately 0730Z.

- (3) Only observed as a flash of light
- (4) None
- (5) Instantaneously
- (6) Approximately 2 to 3 seconds

c. Manner of observation:

- (1) Ground - visual
- (2) None
- (3) Not applicable

d. Time and date of sighting(s):

- (1) 0230Z, 0400Z, and 0730Z, 2 July 1960
- (2) Night

*atub = 1*

e. Location of observer(s):

On Chanute Air Force Base, Rantoul, Illinois

f. Identifying information of observer:

(1) Not applicable

(2) SMgt [REDACTED] Det. 3, 8th Weather Group,  
Chanute Air Force Base, Illinois. Senior weather forecaster. Reliability: Very  
good.

g. Weather and Winds--Aloft Conditions at Time and Place of Sightings:

(1) Partly cloudy

(2) thru (7) See attachment #12

h. None

i. None

j. Information not readily available

k. See findings in Basic report

l. None

ATCH

BASIC REPORTING DATA OF MRC

In accordance with paragraph 15, AFR 200-2, the following is submitted:

a. Description of the object(s):

- (1) Flash of light lighting up a large area of the sky.
- (2) No object--only flash of light.
- (3) Exceptionally bright greenish-white light
- (4) One
- (5) None
- (6) Very bright
- (7) None
- (8) None
- (9) Brightness

b. Description of course of object(s):

- (1) Observed a flash of brilliant light with clear sky.
- (2) Seemed to light the whole sky
- (3) Flash
- (4) None
- (5) Instantaneously
- (6) Approximately 2 to 3 seconds

c. Manner of observation

- (1) Ground - visual
- (2) None
- (3) Not applicable

d. Time and Date of Sighting(s):

- (1) 0230Z, 0400Z and 0730, 2 July 1960
- (2) Night

BASIC REPORTING DATA OF TSGT [REDACTED]

In accordance with paragraph 15, AFR 200-2, the following is submitted:

a. Description of Object(s):

- (1) Egg shaped
- (2) Appeared as approximately the size of a pea held at arm's length and disappeared approximately the size of a dime held at arm's length.
- (3) Reddish orange
- (4) Appeared as one object and broke into two pieces with the smaller (approximately the size of a pea at arm's length) trailing by one-half the diameter of the larger piece.
- (5) None
- (6) It appeared to travel slower than a meteor
- (7) None
- (8) None
- (9) None

b. Description of Course of Object(s):

- (1) Light from the object
- (2) Approximately  $40^{\circ}$  elevation
- (3) Approximately  $20^{\circ}$
- (4) Straight line traveling from East to South
- (5) Rapid fading
- (6) Approximately three to four seconds

c. Manner of Observation:

- (1) Ground - visual
- (2) None
- (3) Not applicable

att-3

d. Time and Date of Sighting:

(1) 0545Z, 2 July 1960

(2) Night

e. Location of Observer:

Approximately one mile west of Chanute Air Force Base, Rantoul, Illinois

f. Identifying Information of Observer:

(1) Not applicable

(2) TSgt [REDACTED] age 30, 1963rd AACCS, Chanute Air Force Base, Illinois. GCA operator. Reliability - very good.

g. Weather and Winds Aloft Condition at the Time and Place of Sighting:

(1) Clear

BASIC REPORTING DATA OF SSGT ROBERT W. ANDERSON:

In accordance with paragraph 15, AFR 200-2, the following is submitted:

a. Description of the Object(s):

- (1) Flash of light shape of an orange
- (2) About the size of an orange held at arm's length
- (3) Exceptionally bright green
- (4) One
- (5) None
- (6) The object appeared to dim then get very bright, brighter than anything he has ever seen
- (7) Trail of sparks, about 20 times longer than the object
- (8) None
- (9) Brightness of the color

b. Description of Course of the Object:

- (1) Flash of light
- (2) Approximately 70 to 80° elevation
- (3) Approximately 45° elevation
- (4) Straight
- (5) Faded slowly traveling south. After the object faded, the trail was still visible for approximately 20 seconds. The color of the trail was reddish orange sparks.
- (6) Approximately 20 seconds

c. Manner of Observation:

- (1) Ground - visual
- (2) None
- (3) Not applicable

d. Time and Date of Sighting(s):

- (1) 0731Z, 2 July 1960
- (2) Night

*at 11:14*

e. Location of Observer:

In the Weather Observation tower located on the NE corner of Chanute Air Force Base, Rantoul, Illinois.

f. Identifying Information of the Observer:

(1) Not applicable

(2) SSgt Robert W. Anderson, AF16280391, age 33, Det. 3, 8th Weather Group, Chanute Air Force Base, Illinois. Senior weather observer. Reliability: Very good.

g. Weather and Winds - Aloft Conditions at the Time and Place of Sighting:

(1) Thin scattered cirrus in the SE and SW quadrant

(2) thru (7) See attachment #12

BASIC REPORTING DATA OF A3C Mary Fletcher:

In accordance with paragraph 15, AFR 200-2, the following is submitted:

a. Description of the Object(s):

- (1) Flash of light lit up the sky like a flash bulb.
- (2) No object. Large mass of light covering approximately one-half the sky.
- (3) Greenish white
- (4) One
- (5) None
- (6) Started dim. Brightened leaving a solid trail of greenish white (not as green as the flash) light. The trail didn't radiate light.
- (7) Solid trail six feet long. Observers could not distinguish an object.
- (8) None
- (9) None

b. Description of Course of the Object(s):

- (1) Sudden flash of light in a clear sky
- (2) Approximately 60° elevation
- (3) Approximately 40° elevation
- (4) Straight line moving south
- (5) The blob of light disappeared abruptly but the trail remained for approximately 25 seconds.
- (6) Approximately five seconds.

c. Manner of Observation:

- (1) Ground - visually
- (2) None
- (3) Not applicable

at 4:5

d. Time and Date of Sighting(s):

(1) 0731Z 2 July 1960

(2) Night

e. Location of Observer(s):

In the weather observation tower on the NE corner of Chanute Air Force Base, Rantoul, Illinois

f. Identifying Information on Observer

(1) Not applicable

(2) A3 [REDACTED], age 22, Det. 3, 8th Weather Grp., Chanute Air Force Base, Illinois. Junior weather observer. Reliability: Very good.

BASIC REPORTING DATA OF SSgt [REDACTED]

In accordance with paragraph 15, AFR 200-2, the following is submitted:

a. Description of the Object(s):

- (1) Round
- (2) The size of a dine held at arm's length
- (3) Brilliant green
- (4) One
- (5) None
- (6) Brightness
- (7) None
- (8) None
- (9) Brightness of color

b. Description of Course of the Object(s):

- (1) Sudden flash of light
- (2) Approximately 70 to 80° elevation
- (3) Approximately 40° elevation
- (4) Straight, traveling south
- (5) Instantaneously
- (6) Approximately 3 to 7 seconds

c. Manner of Observation

- (1) Ground - visual
- (2) None
- (3) Not applicable

d. Time and date of sighting(s):

- (1) 0731Z 2 July 1960
- (2) Night

Statement of Lt. Miller:

As "Moondust" Project Officer for Chanute Air Force Base I had been alerted to the expected re-entry of the Russian Rocket 1960 Epsilon II. The information furnished me by COMATC, Randolph Air Force Base, Texas, indicated the rocket was due to re-enter the earth's atmosphere during the period from late June through mid-July. I requested that the local AACS and Weather Detachment Commanders alert the control tower and weather observer personnel to be on the lookout for the re-turning rocket.

At 0615Z I received the report from TSgt [REDACTED] concerning the object he saw at the drive-in movie. Just after transmitting this sighting report, at about 0800Z, Major Harrison, the Weather Detachment Commander, reported the sighting made by SSgt Anderson. I transmitted this sighting also. After comparing notes with Captain Nathan on this date (14 July), I see that I inadvertently reported the time of Sgt. Anderson's sighting as 1931Z rather than 0731Z.

From about 0831Z until 1031Z, Major Harrison, Sgt. Anderson, Airman Fletcher, Mrs. [REDACTED] and myself posted ourselves on the roof of the remote observing site in hopes of again sighting the object. We made no sighting. As the sighting by Sgt. [REDACTED] and Sgt. Anderson were some 95 minutes apart, I assumed that these sightings were of the orbiting rocket.

15 July 1960

SUBJECT: Meteorological Conditions at Chanute Air Force Base, Rantoul, Illinois  
(0730Z, 1 July 1960)

TO: Whomever This May Concern.

1. The following meteorological conditions were observed and/or are interpolated from maps and charts for Chanute Air Force Base, Rantoul, Illinois, at 0730Z, 1 July 1960:

a. Wind direction and speed at altitudes (feet) above sea-level as indicated:

| <u>Altitude</u> | <u>Direction</u> | <u>Speed</u> |
|-----------------|------------------|--------------|
| 6,000           | 280              | 10           |
| 10000           | 320              | 30           |
| 16000           | 300              | 35           |
| 20000           | 300              | 35           |
| 30000           | 290              | 55           |
| 50000           | 290              | 20           |
| 60000           | 100              | 10           |

b. Ceiling: None

c. Visibility:  $2\frac{1}{2}$  nautical miles (ground fog and smoke)

d. Cloud cover: 0.3 cirrus

e. Thunderstorms: None

f. Temperature gradient:

|                 |                    |
|-----------------|--------------------|
| 0 to 10000'     | 0.7°C/1000'        |
| 10000 to 20000' | 2.3°C/1000'        |
| 20000 to 30000' | 2.3°C/1000'        |
| 30000 to 40000' | 2.1°C/1000'        |
| 40000 to 50000' | 1.0°C/1000' (TROP) |

2. According to our records, there were no meteorological balloons in the vicinity of Chanute Air Force Base at the time indicated.

3. The above furnished in compliance with paragraph 15, AFR 200-2.

s/t CHARLES H. HARRISON, Major, USAF  
Commander

5. The verbal orders of the Comdr on 1 Jul 60, are confirmed, exigencies of the service having been such as to preclude the issuance of competent written orders in advance; The following named Veterinary Inspectors assigned to the Base Veterinary Office are authorized to use their privately owned vehicles for official business in the locality of Chanute AFB, Ill, during the period of 1 Jul 60 through 30 Sep 60. This authorization does not include or apply to usual daily travel between local residence and place of duty assignment. It has been determined that use of privately owned vehicle is more advantageous and economical to the AF. Authority: PL 766, 83rd Congress, 1 Sep 54. 5713400 164-3005 P478 S525900 021212 039090, BFO Nr A-45. Copies of paid vouchers will be furnished the appropriate accounting officer. (Personnel assigned USAF Hosp Chanute this stn.)

CHANUTE AFB ILL, REPORTED NEGATIVE SIGHTING. MR [REDACTED]  
FAA TOWER OPERATOR, UNIV OF ILL AIRPORT, CHAMPAIGN, ILL  
REPORTED NEGATIVE UNUSUAL SIGHTINGS. MR [REDACTED]  
OF THE OBSERVATORY, UNIV OF ILL, REPORTED NO ONE ON DUTY AT  
THE TIME OF AMN STELLES OBSERVATION. MAJ DAVISON, COMDR 791  
AC&W HANNA CITY, ILL REPORTS NO UNUSUAL RADAR BLIPS AND  
NEGATIVE GROUND CONTROL INTERCEPTS BY AIR DEFENSE SECTOR AT THAT  
TIME. IT IS THE REPORTING OFFICERS OPINION THAT THE SIGHTING BY  
AMN STELLE FITS THE DESCRIPTION OF MR. [REDACTED] OF THE UNIV OF ILL  
AS THAT OF A METEOR ENTERING THE UPPER ATMOSPHERE.
