Dear Sir

You may have this information for what ever it may be worth to you

On Aug 16 at about 9:30 PM I saw two objects (or optical illusions) travel side by side at a high rate of speed over the land & sea. It was a clear night and there were no sounds of planes. They were traveling at a high rate of speed and resembled rockets, but made a slight turn as if to turn around and come back but then went back to a straight course. They were only dots in the sky. They were traveling from south to north
