Dear Sir

On Sept. 12th My wife & I saw an unusual light or object in the sky. A few minutes after seeing it, my wife looked at the clock 10:22 P.M. It was no figment of our imagination we saw it. I am enclosing a few notes I made at the time. My delay in writing was due to my vacationing. If some one would drop around, we would be glad to discuss it with you in detail.

Was on front porch when object came into view from the SW
Traveling at a terrific speed and NORTH had veered or dipped
at a 45° angle W-NW. To me it appeared the size of a
bomber (one pair) shot but with two trailers 1/3 its size ejecting
from rear it was this shape . Cold light eyes solid
reminded me of something metallic undergoing friction or
heat making it glow - it was not a fireball its shape was
too solid & dense. We never saw anything like it. That's
why when I heard a local radio station reporting someone
who saw the object write to us we did so before our return
from our vacation. For whatever the object is surely made
of metal impression on both my husband (not a imaginative
man who served as a Chief in the States in World War II)
and myself - I can still bump out about I saw at seeing the
bomber, tank, electric wires, buildings across the street

July 1914

Field notes

From my window porch I saw the object between the
 light and top heavy wire - my husband was in
 between the lower beam & light at 40.

experienced a crash as it dipped down. The only sound was the
explosion of another plane way up and to the south of us. My
wife and I both saw it clearly and we are very much
puzzled about all we know.

DATE

Oct 30, 1960.

My wife and I sat on the porch we had been looking at Echo. My wife sat about six feet from me to my south, a porch pillar was between us and we faced East in a clear night at close to 10:15 P.M. P.D.S.T. time. Suddenly we were both aware of a solid lighted object in the S.W. at about a 30 degree from the horizon. To me it appeared as a lighted canopy of a fast jet fighter plane streaking north, for the space of time it would take me to repeat Mississippi twice it had followed a straight horizontal line then it suddenly dipped down and disappeared as if a switch had been snapped off in a cork put. I jumped up from my chair as did my wife and stared into the N.W. expecting a crash and a fire. Nothing happened. During this period there had been no noise at all. Far away to the S.W. we could hear the drone of a plane. We waited to hear sirens then my wife went in and looked at the time (10:22 P.M.). The next day the papers reported fire balls (this was not one). They requested any one seeing unusual objects to report them to V.C.H.A. I did. The reason I was a bit tardy. I had just started a 2 weeks vacation.

From my wife's angle she saw it disappear behind the right telephone pole, I didn't
