Supplemental Report of Unidentified Flying Object

SUMMARY (Give summary which highlights the salient factors of narrative report. Begin narrative text on AF Form 112a unless report can be fully stated on AF Form 112. List inclosures, including number of copies)

Reference paragraph 17 of AFR 200-2 and item 6 of message referred to above, the following supplemental information is added:

On the evening of 21 Nov 60, the time of reported sighting, a new bowling alley was announcing its opening in Alexandria, Louisiana about four and a half miles from the sighting area. To ballyhoo the opening, the management had a powerful searchlight battery sweep the sky during the evening hours. Several persons have reported seeing the searchlight reflections on the same evening. The reporting officer now believes that these searchlight reflections account for the reported sighting. This evaluation is based on the fact that the searchlights were turned on approximately at the same time as the sightings, and several Air Force Personnel have reported seeing such lights on that evening and at first glance mistaken these lights for unidentifiable objects.
