

PROJECT 10073 RECORD CARD

1. DATE 18 Dec 60		2. LOCATION Vicinity of Sterling, Alaska		12. CONCLUSIONS ☐ Was Balloon ☐ Probably Balloon ☐ Possibly Balloon ☐ Was Aircraft ☐ Probably Aircraft ☐ Possibly Aircraft ☐ Was Astronomical ☒ Probably Astronomical Arcturus ☐ Possibly Astronomical	
3. DATE-TIME GROUP Local 0310 GMT 18/1310Z		4. TYPE OF OBSERVATION ☒ Ground-Visual ☐ Ground-Radar ☐ Air-Visual ☐ Air-Intercept Radar			
5. PHOTOS ☐ Yes ☒ No		6. SOURCE Civilian			
7. LENGTH OF OBSERVATION 45 min		8. NUMBER OF OBJECTS one		9. COURSE varied	
10. BRIEF SUMMARY OF SIGHTING Star shaped, pulsating red, green and white, size of Mars. Appeared and disappeared 60° SE (135°T). Pulsating movement side to side, up and down and slow circle, returning to original position. Same movement 10-15 min later. Clouds obliterated object to SE.				11. COMMENTS Object was visible for 45 min, then it was obscured by clouds. The only movement noticed was an apparent up and down, side to side movement, which was probably due to the crisp cold atmosphere. The bright star Arcturus was in the vicinity reported for the object, and was probably the object observed.
