On Saturday night - Sunday Morning approx 0010 hrs travelling North on M1. Approx 10 minutes before M62 turnoff. Sky was clear & starry when I suddenly saw a flashing light out the corner of my eye, I thought "What the bloody hell is that". I looked up and saw 14 flying objects. They followed me in groups of 4 & 5, then formed into a circle - like the petals of a flower with no centre.

Lasted approx 10 minutes and we started travelling at approx 90mph & I dropped my speed to 60 mph & so did they, then disappeared.

ENCL NO. 202/1

REPORT OF UFO SIGHTING

Date: Friday, 25 August 1995.

Time: 2200 - 2230 local.

Location: Latimer and Chesham, Buckinghamshire.

Reported by: Section 40 [redacted]

Section 40 said that she was travelling in a car being driven by her daughter, [redacted] with her two grandchildren. As they were approaching Latimer from Chorley Wood her daughter noticed some lights above the car. Section 40 thought that they may be reflections of spotlights from a disco and they stopped the car to see if they could hear the music. It was completely silent. Section 40 made out a disc in the sky with a number of vivid green lights around the sides and she was completely mystified. As they drove off along a country lane towards Chesham, about 5 or 6 miles away, they could see the object apparently following them. When the car slowed the object appeared to slow as well, but on one occasion it appeared to come alongside. At this point she estimates that it may have been about 100 metres away but she was not able to give an estimate of its size. They stopped the car to have a better look and two beams of light seemed to appear from beneath the object towards the ground. They drove off again and it was still visible as they entered the residential area of Chesham, although it subsequently disappeared.

Section 40 said she had been plucking up courage to tell someone about what she saw and that was why it had taken several weeks to do so. She seemed to be somewhat embarrassed and feared that she would be dismissed as a crackpot. I think she genuinely believes that she saw something inexplicable that night.

DETAILS OF OCCURRENCE

POSSIBLE UFO SIGHTING

On 19 Jul 95 at 2355 hrs, Section 40 was in his garden, with his dog. Whilst he was observing the sky he saw an orange light, similar in colour and intensity as a sodium light, in the shape of a disc. The disc was moving from south east to north west, then it appeared to turn sharply, almost 90 degrees, to the southwest. There was no engine noise heard and he observed the whole incident for about 30 seconds. The height was difficult to estimate in the night sky. Section 40 explained that he had not been drinking that evening and he was not a UFO "Buff". He appeared to be shaken by the incident. His address where the incident occurred is:

MINUTE SHEET

Subject

ALLEGED UFO SIGHTING 2250 HOURS ABOVE Section 40 HALIFAX, W YORKS.

Station: Calder Valley Division

To: Superintendent Section 40

Sir, I wish to report the following marginally named incident concerning the alleged sighting of an unidentified object above the informants' home address at 2250 hours on Saturday, 15 July 1995.

The concerned informants in this incident are as follows:

1. Section 40
2.
3.

All persons concerned were having a barbecue at the rear of their semi-detached dwelling when they describe a UFO type object seemed to just suddenly appear from nowhere approximately thirty feet away from the back door, hovering only a matter of feet above the adjacent bungalow that faces onto their garden area. It was established the viewing only lasted for five minutes in which time the object initially hovered, but then went on to make erratic jerky movements at the same height moving towards Sowerby Bridge.

** TOTAL PAGE.003 **

WEST YORKSHIRE POLICE

Both informants 1 and 2 state the object did not come from either left or right, but seemed to come down out of nowhere. The actual object is described in the following manner - shape, that of a Saturn like ball with an extended ring around its circumference. In addition, Section 40 Section 40 states it had what appeared to be red portholes and distinct four blue lights as per the below diagram. They both stated no noise or sound originated from the object, which seemed to light only the rear [illegible] area.

There is no indication of any obstructions or evidence it looked like any standard shaped aircraft.

It is clear all informants have been shocked by the experience and I formed the impression their account was genuine and consistent, although the content was somewhat bizarre.

I have not received at this stage any similar occurrences or sightings and therefore submit this report for your attention.

Subject: UNIDENTIFIED FLYING OBJECT

Date: 23.06.95 Ref: INCIDENT 88 OF 23.06.95

To the duty inspector.

We report with reference to standing order section 36 paragraph 81.

About 0240 on Friday 23rd June 1995 we saw circular object with a domed top. This object appeared to be bright white, mesh patterned, all over with green and red around the circumference of the base. This object was spinning clockwise. It was definately a solid object. We personally observed this object for about five minutes.

At this time we were standing at the first floor rear window of [redacted] Laindon, Essex. [redacted] is part of a housing estate on the outskirts of Basildon.

Although this object was visible with the naked eye it could only clearly be identified through binoculars, standard pair of binoculars borrowed from informants were used.

The object was in a north easterly direction from the house but it was impossible to judge any distance. The object was moving in quick jerky movements both side to side and up and down. The object did remain stationary for short periods of time.

The weather was dry and the sky was clear with no clouds and few stars visible. There was a crescent moon which was not in our line of vision when observing the object. The sky was beggining to become lighter.

REPORT OF AN UNEXPLAINED AERIAL SIGHTING

1. The RCRO (Borders), rang to say that a [redacted] had called reporting a sighting to RAF Prestwick. He didn't have the details so I called her.

2. [redacted] of East Kilbride, told me that at 2100 hrs on Friday 23 Jun she thought she heard an aircraft noise above her house so she went outside to look. She saw a formation of lights in the sky above her house but they didnot look like aircraft lights, more like stars. The night was clear. She witnessed the sighting with her mother, who rang Glasgow airport, who weren't able to shed any light on what they may have been.

3. I explained our role and offered to call her if an explanation was forthcoming to account for the lights.

4. No evidence of a matter of defence concern.

REPORT OF AN UNEXPLAINED AERIAL SIGHTING

1. Received a call from Section 40 of Hull Section 40 He saw two large triangular shaped objects flying fast past his house on Wednesday 31 May at 0015 hrs. There was a bright light in the middle of them. After a few moments they seemed to separate and quick as a flash they were gone.

2. He telephoned Leeds ATCC who confirmed that there was no civil air traffic on their radars and they weren't expecting anything til 0400 hrs.

3. I explained our interest and role and said if any light was shed on his sighting then we would let him know. No evidence of defence concern yet.

REPORT OF AN UNEXPLAINED AERIAL SIGHTING

1. Section 40 [redacted] from Market Bosworth, Leicestershire, called to report a sighting witnessed at 0300 hrs this morning.

2. He described the object as large and "space ship" shaped. It was silent and hovered/circling over Market Bosworth for 15 minutes or so before completely disappearing. There were green lights at the base of the object. He said that 3 of his workmates (they were all on nightshift) saw it as well.

3. He stressed that he was not a "loony" and I explained our role, that of course he saw something but that it was a matter of interpretation. I took his number and said that if anything came to light which explained the sighting that I would call him.

REPORT OF AN UNEXPLAINED AERIAL SIGHTING

1. Section 40 [redacted] telephoned to discuss a sighting he witnessed in the early hours of Sunday morning (0102 hrs). He saw what looked like a shooting star, green in colour and its trail went from green to orange to yellow. He was near Northampton, on the A43 on the Towcester to Northampton road.

2. I explained our role. However, earlier in the day we had received 4 reported sightings from Leuchars, which appeared similar in description, between 0100 and 0115 hrs on Sunday morning. Leuchars made a note on the reports that they had checked with Edinburgh airport, and they had witnessed a possible meteor in the Glenrothes to Kirkcaldy area which could account for the sighting.

3. I told the above to Section 40 [redacted] and gave him the phone nos of the Royal Greenwich Observatory, and the British Fireball society, in case he wanted to contact them.

4. I took his phone no should any other explanation come to light Section 40 [redacted]

REPORT OF AN UNEXPLAINED AERIAL SIGHTING

1. Received two phonecalls of sightings which tied in with the Fireball over Kirkcaldy/Glenrothes on the early hours of Sunday morning 21 May (0100 hrs).

2. Section 40 of Fort William (didnot leave her details) saw the same sight as all those who reported sightings to Leuchars (5 witnesses). Section 40 of Rothbury Section 40 also saw exactly the same thing, although it was his perception that it was purply in colour.

3. I explained our role to both. All the timings of all the witnesses tie in with one another.

4. I spoke to the Royal Greenwich Observatory and when I had given Section 40 the list of descriptions he concluded that it had all the hallmarks of a fireball. The green colour in particular is the heat of the object hitting the earth's atmosphere and oxydising.

REPORT OF UNEXPLAINED AERIAL SIGHTING

1. Received a tel call from a Section 40 who saw a bright light in the sky in the evening of 15/5/95. The sighting took place over Tunbridge Wells.

2. Section 40 asked if there was any military a/c activity in the area of Tunbridge Wells at around 21:45. I checked this with the TBC (Tactical Booking Cell) and they advised that there was no activity in that area at that time.

3. I rang Section 40 to pass on the info and explained our role. I said the object he described sounded like a civy plane on a heading in line with him at the time . I also gave him the address of BUFORA and a tel number.

DATE: 19th May 1995

ENCL No. 109/1

SUBJECT: REPORT OF AN UNIDENTIFIED OBJECT

1. At 2355 hours on Thursday 4th May 1995 the following named persons visited Chasetown Police Station, both in an agitated and distressed state reporting an alleged encounter with a U.F.O.

1) Section 40
Chasetown.
Section 40

2) Section 40

2. They were extremely excited and initially requested me to go outside and view a U.F.O. which was still visible. Myself and Sgt. went to the front of the station. There was a red light visible in the far distance with white lights surrounding but these could quite easily have been a civil airline.

Section 40

3. We returned to the Police Station and both youths attempted to convey to me what had allegedly happened. They stated that whilst walking up the Rugeley Road, Burntwood from the direction of the Nags Head Public House to Swan Island at approximately 2255 hours, at a point near the Fulfin School, they both experienced an intense heat. Their skin turned a glowing red. They then stated they saw a darkish silver inverted saucer shaped object in a field which was glowing red beneath, (brief drawing provided at time by Section 40 Section 40 Appendix A). They stated the object was about four houses high in the sky and about forty foot away from them. They then, reluctantly, went on to state that a voice which came from a lemon like head(), which appeared beneath the machine, said, "We want you, come with us". Both appeared upset and shocked and as it was increasingly difficult to obtain detailed information from them they were told to go home and write an account of what they thought they had experienced for our information.

4. On 5th May 1995 the attached written accounts of the 'encounter' were delivered to Chasetown Police Station, Appendix B from Section 40 Appendix C from Section 40

5. On 6th May 1995 the two informants were taken to the area and the exact location of 'sighting' pin pointed to P.C. Section 40 Enquiries locally reveal no further witnesses but a nearby resident stated a local farmer was crop spraying in a field at the material time. The farmer, Section 40 has been spoken to and confirms

Cont'd Overleaf / Sheet No.

the crop sprayer being used but stated he did not see any persons in the field, speak to anyone or see anything unusual.

6. In addition to aforementioned appendices attached, please find information required in format as laid down by Force Standing Order, E.1.1. I ask that this report together with appendices be forwarded to, Department of Trade and Industry, National Air Traffic Control Services, 1, Victoria Street, London SW1H OET.

Subject: Reported UFO Sighting.

At 22.50 hrs 30 Apr 95. I received a call from PC Section 40 Section 40 of the South Yorkshire Police at the Divisional Control Room, Barnsley Section 40 who passed on to me the following report:

At 22.35 hrs a call was received from Section 40 of Section 40 Barnsley Section 40

At 22.02 hrs he was travelling on the A61 Harborough Hills Road towards Barnsley town centre when he became aware of what appeared to be 2 orangy 'headlights' approaching the town centre from the area of Stainfoot. As the 'headlights' passed him he became aware of 5 to 6 pulsating (in unison) lights (at least green and blue) arranged in a circular fashion. No noise was heard. The height of flight was possibly the same as that of a helicopter.

1. Section 40 Somerset Section 40 (no telephone) called.

2. At 1300 hrs today just above Wellington/Black Down Hills saw an airliner going overhead, and just to one side of the aircraft was a shining object which was following the aircraft. It remained close to the aircraft for a minute, then it shot away to the right then came to a dead standstill. for another 30 seconds.

3. He said this may be a coincidence, but a few moments later some American F-15 aircraft shot across the sky as if in search of the craft. He was adamant that it was not another aircraft.

4. He wanted to report the incident, (a) because he felt he ought to and he wanted to know if anyone else had seen it, but (b) he wanted to do it straight away as it would diminish his credibility if he left it a few days and the incident was reported on the radio or in the Press, and he would then look like someone jumping on the bandwagon.

5. I explained our interest and said if an explanation was forthcoming I would let him know. Alternatively, I said that if anyone else reported the same incident I would let him know (obviously protecting the witness' confidentiality).

1. Section 40 Havafod West, Fishguard called. She saw a very bright light like a star hoovering for about half an hour in the sky. It was a long way away.

2. This one sounded to me very much like a headlight from a Jumbo which was miles and miles away coming toward her on a straight line, which gave the appearance that the light just didnot move.

3. I advised Section 40 of our line and took a telephone no to let her know if something came to light to explain the sighting.

4. Her friend's no and name is Section 40

F I L E R E P O R T

1. Section 40 took a call from a Section 40 At 0200 hrs on Sunday morning over Engield she saw a bright flashing light which was originally white then turned red towards the end.

2. There was no sound and the light was bulb shaped. Section 40 works for the MAFF. She appeared interested in pursuing this with BUFORA or Quest.

3. Section 40 gave Section 40 our line and I intend to write to her to officially inform her of our interest.

F I L E N O T E

1. On 17 Mar Section 40 [redacted] telephoned and spoke to Section 40 in my absence.

2. She lives in the SW17 area and on Tuesday 14 March at 0215 hrs she saw a "V" formation of lights in the sky which "jumped around a bit!" She volunteered that is an experienced sky watcher.

3. Section 40 explained our role and said if any information on what the sighting might have been comes to light we will let her know.

F I L E N O T E

1. Today, Section 40 [redacted] telephoned to say that on Wed 15 March at 2030 hrs he saw a yellow object, similar to the moon shoot across the sky and disintegrate. Section 40 Section 40 is a farmer who lives at Section 40 [redacted] Forest Bolard, East Lancaster.

2. I advised our role. But he seemed interested in whether it was an astrological or meteorological phenomena, so I suggested to him that he get in touch with the Royal Observatory at Greenwich, who may be able to shed some light on the sighting for him.

UFO REPORTED SIGHTINGS

I received two telephone calls this afternoon reporting two unexplained sightings:

1. Section 40 [redacted] Sighting Wed 8 Mar - 1915 hours he saw a light in the distance and a craft which he could only describe as yo-yo shaped. He was on the A711 between Dalbeattie and Dumfrees. The object has red and green lights.

2. Section 40 [redacted] Rotherham, S Yorkshire. He was on the M1 northbound, coming off at J36. He saw a craft hovering, it was bright electric blue in colour, but he ended up convincing himself that it was probably a balloon, once I explained that Section 40 has balloon with lights inside. He wanted to take the details of BUFORA and Quest so I gave him their numbers.

For both instances, having explained our role and interest, I advised that if any information came to light from other sources, I would let them know.

GOUDHURST, KENT - Section 40 [redacted] (Her Mum's)

1. Section 40 [redacted] has seen through her skylight for the last 3 nights (at about 0230 hrs) 2 bright pink lights with a pink surrounding glow. They do not move. Her husband thinks they may be a satellite.

2. I explained our role, and took her tele no and said if anything came to light I would let her know.

DOWNOCK, NR INVERNESS - Section 40 [redacted]

1. Yesterday evening between 1930 and 2000 her daughter ran in from one of their fields and said she saw a round ball object with a green and red flashing light hovering about house high in front of her. The daughter is 11 years old and she later drew what she saw.

2. I explained our role, and offered my thoughts that it was likely to be a civil helicopter hovering over the field. That would fit in with the ball shape and the nav lights. Section 40 Section 40 said her daughter said there was no sound.

3. Again I took her number and if anything comes to light said I would call her.

REPORT OF UNEXPLAINED AERIAL PHENOMENA

Witness: Section 40 [redacted]
Tel:

St Albans Area

1340 hrs today whilst driving in her car with her young son they spied a cigar shaped object in the sky floating like ....(she had to stop herself from saying "like a balloon"). It had a bright light on the end and she was convinced it was not a balloon - she had seen the Section 40 [redacted] Section 40 [redacted] before and this was a lot higher in the sky.

I explained our interest, and said that if anything came to light I would let her know to solve her curiosity.

She had seen something before in the same area - but it turned out to be when she was doing her paperround when she was ten!!!

UFO SIGHTING REPORT - 082210 FEB 95

Section 40 of Section 40 . Telephoned a report on 131015 Feb 95, of a strange sighting and happening while walking alone, along an unlit country lane between Winsley and Bradford-on-Avon at 082210 Feb 95.

No sounds or engine noise.

Ladder like vertical beams from ground level to object.

5 windows with yellow glow lighting from oject on ground in a field.

Several very strange coloured lights (Red, Green, White, Yellow).

Movement slow to very rapid and object also hovered.

Section 40 stated that several other people, not related or together, saw strange lights on that particular night and on other nights in that area.

There are no overhead cables in the area/location.

Misty night but single , very bright, light in sky before series of other sightings occurred. No other lights/stars visible.

Section 40 reported an 'electrical force-field' like feeling when the lights approached him (sim to standing below overhead power cables).

Section 40 volunteered that he was a retired engineer and also a keen aircraft spotter. With such a background he suggested that what he saw was the testing of a high-technology secret nature or not of this planet! He was reporting the matter to us at Boscombe Down because of the nature of our activities, 'Ministry of Mysterious Happenings'! and because the Police were not interested in his sightings.

He would appreciate suggestion or comment on what he saw from any interested MOD department.

Dear [redacted]

With reference to our telephone conversation of this morning I am enclosing a statement of the U.F.O sighting that I had on 7th Feb '95 and do hope it will be of some assistance to the Defence and security of our Country.

It would be helpful to me if you would confirm receipt of my letter and Statement as you will appreciate that after an experience of this kind I just went to forget about it and get on with my Life.

Thank you for your valuable help in this matter and I look forward to hearing from you.

Sighting.
INCIDENT - U.F.O. ~~Siting.~~ Hovering like bright Star. In field, Landed and taking off from field North of B.3108 on borderline Winsley/Bradford-on-Avon on North side opposite parking lay-by. Tuesday 7th. February 1995 at approx 10.17pm.

On Tuesday 7th February 1995 I left my house at two minutes to tenpm and walked through the village towards Bradford-On-Avon on B 3108. ~~It was a~~ very dark night very damp slightly misty night. On leaving the ~~lit~~ Area of Winsley I spotted a bright light in the sky (like a star but much brighter) hovering over the St. Lawrence School at Bradford-on-Avon. It did not move for some minutes and I thought Ah! That looks like the light I have seen on two other occasions last November and December and was puzzled at the time by how it could hover without noise and suddenly shoot off like a shooting star disappearing altogether.
I suppose I watched this light for three or four minutes listening for the sound of an engine and there was none. I walked along the path towards B-O-A with a high wall to the left of me which gets lower as you get near the Lay-by. Suddenly I saw the light streak across to the left and the light went out there was no sound.
I continued to listen as I was walking along the high wall. As I reached the point where I could look over the wall I saw quite clearly a lit rounded cockpit with square windows at the back of the field exactly opposite where I was standing with my arms on top of the wall. Had there been anyone looking out of the windows I would have seen them it was so clear. There were four square windows and end a half a window at each end as they curved around. A yellow light inside the cockpit. No sound.
I leaned on the wall watching and immediately thought Oh! a flying saucer. After about a minute the light went out. I waited a few seconds listening saw nothing until Suddenly I was surrounded by very powerful flashing multi coloured light. This was within a few feet of me over the wall the light was so strong I could see no shape or for-m under the light. Almost on a level with the wall were three flashing globes a few feet away and the strange red lamp was mounted on around pillar some ten inches tall and six inches in diameter, slightly to the right was a flashing Green (Pea Green) light and in between and behind these lights was a purplish violet light also quickly flashing. These flashing lights seemed to be mounted on top of something and all were on about the same level as the wall and my forearms.
The sky was completely filled with coloured light encompassing all my vision and lighting up all the sky. Added to this were ladders of whitish light streaking out from the centre of the flashing lamps straight upand outwards to about 45 degrees into the sky. These ladders of light were narrow and lacy or cob-webbed looking I thought this was a little bit of mist shewing this effect.
I stood fascinated by this scene listened for sound but heard none but could feel a tremendous surge of energy emanating around me. No Noise no vibration just a sort of Charged atmosphere.
Then after what seemed split seconds two or three motor cars went by on the road behind me(and they had to have seen the sky all lit up on the North side of the road).over the Wall but would not have seen the lamps themselves the wall being too high. I said "Damn" I will not now hear any sound now above the cars sound.

Suddenly the lights went out a split second of complete darkness, and then a bright white light like a big star appeared high on my left side and immediately in a second disappeared as a white dot

in the sky. I was annoyed that the cars covered any sound that I might have heard from the object moving off. I just heard a low drone which could have come from the cars disappearing down the road. Complete darkness I turned around in the dark and said out loud " God ! Nobody will ever believe this.
I was not frightened, just fascinated it had all happened at such a speed. I immediately thought that whatever this was that their time span was very different to ours. I looked up and down the road and could see both the sodium lights of Winsley and the sodium lights of Bradford-On -Avon quite clearly and roughly equi-distant from the spot where I had been standing.
I turned towards Bradford-on-Avon and when in the lit Area looked at my watch which said twenty-seven minutes past ten. I concluded my late walk and reached home just past elevenpm.(I often walk this route after supper but not usually this late).

On Wednesday I felt if I was to mention all this nobody would believe me and left it to Thursday evening to tell a group of Winsley people whom I was meeting. They took the news quite seriously.
I did phone the local Police but at two stations nobody was available at the time so I gave up that course of action.
On Sunday afternoon 12th Feb. I walked to the spot where I had been the previous night which can be remembered by the height of the wall. I marked the wall with brown chalk and the kerb with crosses on the other side of the road in the lay-by. Sitting in a B.T. Telephone Van was an Engineer who told me that the previous week the telephone cable Had developed a fault. I asked him exactly where he had located the fault and he showed me the spot which happened to be in a line with my marked location. He said when I told him that something had landed opposite that there could be some connection, and that B.T were to replace the cable on Monday.

Sunday evening about 7 pm. I telephoned the Air Traffic Manager at Boscombe Down but was unable to speak to the duty Officer I telephoned again later and spoke to Section 40 who promised to report the sighting to his superior and contact me next day before 10.30am. No one rang so I telephoned The Air Traffic Manager at Boscombe Down Section 40 told him about the sighting and he Promised me that he would immediately write to the Ministry Of Defence Department dealing with U.F.O. sightings. He said they Might be in touch and I gave my telephone number.
Having Hercules low flying aircraft flying low level over winsley and also fighter aircraft by day and night I thought that what I had seen must be of the utmost importance to the various authorities from a safety point of view and that I should inform persons at the highest level as soon as possible.

I am prepared to give any help necessary to investigate this strange sighting and would ask if you would give me some reassurance that any action that you feel necessary will be taken. I do not wish the press to get involved the matter is too serious for that and I shall be more than happy to forget what has been a quite horrendous experience.

Signed,

17. Remarks. Section 40 was quite convinced that I was hiding something. He expressed GREAT concern that the piece of metal could be radioactive and from a satelliteand wished to be told that it was not. I assured him that I knew nothing about any satellite falling from the sky but he said that I had to say that with the Official Secrets Act!! Was not really prepared to believe that the pieceof metal was not dangerous. I told him that I would pass his account to you and I also gave him Section 40 tel no.

25th January 1995.

Dear [redacted]

[redacted] from Penicuik Scotland has asked me and [redacted] what we saw on the 7th December 1994 regarding a U.F.O.

At exactly 8.45pm until 9.10pm we saw a bright light in the sky. It was a clear night with stars out, This thing which we saw began to get larger and larger, there appeared to have four red square lights at the top left & right side of it [redacted] another two at the bottom left & right side. It was round shaped (large) by this time

These were to us small "crafts" which appeared to be going into the sides of the bright light.

When the last "craft" went into it, it suddenly gave a big flash & zoomed off.

As I had just come back from holiday my camera was nearby. I took ten photographs of this object.

I have been told by Johnny that there is absolutely no defects with my camera.

Also I got in touch with councillor [redacted] from Bonnybridge Stirlingshire and [redacted] will give you his surname, he comes from Tillibody in Clackmanonshire, has the ten photographs and the negatives.

Hope this information helps you

Yours sincerely,

[redacted]

P.S. The object went from the middle of the window, then from left to right and returned to middle of window before taking off.

REPORTED UFO SIGHTING

Station: PONTEFRACT DIVISION

DIVISIONAL OFFICER : PONTEFRACT

At 1956 hours on Wednesday 18 January 1995 a call was received at the Wakefield Area Control Room reporting seeing strange lights in the sky above Castleford. A command and control log was created, number 1728, and passed to the Pontefract Help Desk for action.

At 2030 hours the same day I telephoned the caller Section 40 [redacted] Castleford.

About 1900 hours on 18 January 1995 he and his wife Section 40 [redacted] were leaving his mother-in-law's house at Section 40 [redacted]

He looked up and saw two groups of lights in diamond shaped formations above the houses opposite. There were four or five lights within each group. He says the lights were bright but not dazzling, like tubes with diffusers over them.

He states they were travelling fairly slowly from east to west, they stopped and the lights seemed to move about within the diamond formation before moving off at speed.

The objects gave off a yellow light, appeared round or oval shaped, and there was no sound associated with them.

At the time of the sighting the night was clear with good visibility and the caller estimates his angle of vision to have been about 60° observed with the naked eye for five to ten seconds.

The witness is unable to estimate the size of the lights as he does not know how far away they were from him.

Dear Section 40 [redacted],

In reply to your letter of the 6th June this last year, I would just like to say, after apologising for the delay in writing, that you possibly know that I have made three reports over the last six years.

My most recent sighting was in the same area, approximately a half mile from my home. One of these reports concerned a fast moving object which appeared to be under some form of control. As I recall one of the objects moved on a roughly S. East course, the other two in the reverse direction.

As regards your airship suggestion for my last

sighting, I can only say it didn't look anything like the airships as operated by Section 40 which I have often seen overflying this town.

There was once a strange sounding 'aircraft' flying roughly the same course as the above, after nightfall, whose engine noise was reminiscent of a V1 flying bomb and which was at such a low level that the disturbance prompted me to go outside. I was just in time to see its navigation lights receding over the horizon.

These appeared to be showing the wrong configuration. I formed the impression that there was something most unusual about this plane, apart from its lights.

There are probably many sightings locally which have gone unreported locally judging from conversations I have had with people and as there have been several newspaper reports of similar sightings in the area, even going back to the 1950's, I am convinced there is something odd going on here. A re-examination of anything reported from this area could well lead to the evidence which has previously not been forthcoming.

Yours Sincerely,

Section 40
