COURSE                                                                                                                                                                                                                                                                                                                                                                                                                                                               |  |
| 10. BRIEF SUMMARY OF SIGHTING<br>Object was 8 or 9 times larger than brightest star--much like Venus, perhaps larger. No perceptible motion or movement. It was bright white and red, tinge of gold, and an appearance of blue occasionally. First appeared 270° fm true N, 25° fm horizon. Disappeared 255-260° fm true N, 25° fm horizon. |  | 11. COMMENTS<br>Description and fact that object had no perceptible movement indicates that it was probably an astronomical body. The planet Venus, which is very bright at the time, was in the position reported for the object. Witnesses also saw a similar object the following evening, and it, too, was probably Venus. |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |

Department of Intelligence Training  
3750th Technical School, USAF (ATC)  
Sheppard Air Force Base, Texas

REPLY TO  
ATTN OF: TA-3

18 January 1961

SUBJECT: UFOs

TO: ATIC, Wright-Patterson AFB, Ohio

1. There have been sightings of UFOs in the vicinity of Sheppard AFB, Texas on 9, 10, 11, 14 and 15 January. Not all of these sightings were related.
2. The sighting of 9 January was made by Major Warren R. Aiken and Major Donald P. Taylor as they proceeded from the area of Altus AFB, Oklahoma to Sheppard AFB, Texas (see Atch #1). Majors Aiken and Taylor appear to be highly reliable sources. Major Aiken has had much experience in investigating UFOs, so his conclusion, that the object he observed was probably a meteorite or a piece of rocket or satellite entering the earth on an orbital path, appears to be sound. No other sightings of this object were reported.
3. Reference my message of 13 January TA1702A concerning 10 January sighting. Many ground sightings correlate highly in the description and the path of the object sighted by Mr. [REDACTED] and Mr. [REDACTED] in the aircraft (see Atch #2 and #3); but, since these reports were received by the offices of local news media, the preparing officer was able to obtain only two witnesses' names. The testimony obtained from [REDACTED], who is considered reliable, verifies unquestionably the description and path of the object sighted from the aircraft (see Atch #4). The cause and identity of this object remain undeterminable.
4. The 11 January sighting was reported by Mrs. [REDACTED] whose judgement and reliability seem questionable. It is significant that this sighting took place on the day that the local paper headlined the 10 January sighting. Mrs. [REDACTED] seemed overly insistent that she saw this strange object (see Atch #5) and she described it as "cigar shaped," the much-used description for UFOs. She left the sighting momentarily to get her husband to see the object, and when they observed the sky together neither one saw the object. Further, no other persons reported seeing this object, which seems unlikely if it hovered in the sky for 30 minutes only a few miles away. It is the preparing officer's conclusion that the object was an illusion, or that Mrs. [REDACTED] was seeking publicity.
5. Mr. [REDACTED], programmer and weatherman for KFDX-TV, Wichita Falls, reported that he saw an extremely bright object in the southwest as he drove from Hunter, Oklahoma to Frederick, Oklahoma (see

Atch #6). Mr. [REDACTED] judgement and reliability seem high. There were no other reported sightings of this object. The preparing officer is unable to estimate the cause or identity of this object.

6. On 15 January from approximately 0315Z to approximately 0330Z Mr. [REDACTED] and other employees of KFDX-TV sighted from the station, on the southwest end of Wichita Falls, an object at about 250° and 10° from the horizon. The object appeared the same as the one sighted 14 January (see Atch #6), except that it did not emit a red glow at intervals. The preparing officer is unable to determine the cause or identity of the object.

6 Atch

1. Statement from Major Aiken
2. Statement from Mr. [REDACTED]
3. Statement from Mr. [REDACTED]
4. Statement from Mr. [REDACTED]
5. Statement from Mrs [REDACTED]
6. Statement from Mr. [REDACTED]

1st Ind (AFCIN-4E2x)

9 FEB 1961

Aerospace Technical Intelligence Center, Wright-Patterson AFB, Ohio

TO: 3750th Technical School, USAF (ATC) (TA-3), Sheppard AFB, Texas

1. Reference is made to paragraphs five and six of basic letter regarding unidentified objects sighted by Mr. [REDACTED]
2. The time of one or both of these sightings appears to be in error due to the distance between Mr. [REDACTED] location when he made the first sighting, and his location when he made the second sighting. Request a check be made to determine the correct time of these sightings.

FOR THE COMMANDER:

*Philip G. Evans*

PHILIP G. EVANS

### U.S. AIR FORCE TECHNICAL INFORMATION SHEET

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes, and will be regarded as confidential material. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that, if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

14 Jan 61  
Day Month Year

2. Time of day:

8 30  
Hour Minutes  
(Circle One): A.M. or P.M.

3. Time Zone:

(Circle One): a. Eastern  
b. Central  
c. Mountain  
d. Pacific  
e. Other

(Circle One): a. Daylight Saving  
b. Standard

4. Where were you when you saw the object?

[REDACTED]

Nearest Postal Address

City or Town

State or Country

Additional remarks:

Traveling South on Highway 183  
to Wichita Falls, Texas

5. How long was object in sight?

0 40 -  
Hours Minutes Seconds

5.1 How was time in sight determined?

a. Certain  
b. Fairly certain

c. Not very sure  
d. Just a guess

6. What was the condition of the sky?

DAY

a. Bright  
b. Cloudy

NIGHT

a. Bright  
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you  
b. In back of you  
c. To your right

d. To your left  
e. Overhead  
f. Don't remember

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- ☒ c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- ☒ c. No moonlight — pitch dark
- d. Don't remember

9. The object appeared:

(Circle One): ☒ a. As a light    b. Shiny    c. Dark    d. Don't remember

10. If it appeared as a light, was it brighter than the brightest stars?

*Certainly 5X brighter — maybe 10X brighter*

11. Did the object:

(Circle One for each question)

- |                                                 |                                      |                                     |                                  |

| c. Break up into parts or explode?              | <input type="radio"/> Yes            | <input checked="" type="radio"/> No | <input type="radio"/> Don't Know |
| d. Give off smoke?                              | <input type="radio"/> Yes            | <input checked="" type="radio"/> No | <input type="radio"/> Don't Know |
| e. Change brightness?                           | <input checked="" type="radio"/> Yes | <input type="radio"/> No            | <input type="radio"/> Don't Know |
| f. Change shape?                                | <input checked="" type="radio"/> Yes | <input type="radio"/> No            | <input type="radio"/> Don't Know |
| g. Flash or flicker?                            | <input checked="" type="radio"/> Yes | <input type="radio"/> No            | <input type="radio"/> Don't Know |
| h. Disappear and reappear?                      | <input type="radio"/> Yes            | <input checked="" type="radio"/> No | <input type="radio"/> Don't Know |

12. Did the object move behind something at any time, particularly a cloud?

(Circle One):    Yes    ☒ No    Don't Know.    IF you answered YES, then tell what it moved behind: \_\_\_\_\_

13. Did the object move in front of something at any time, particularly a cloud?

(Circle One):    Yes    ☒ No    Don't Know.    IF you answered YES, then tell what in front of: \_\_\_\_\_

14. Did the object appear: (Circle One): ☒ a. Solid    b. Transparent    c. Vapor    d. Don't Know

15. Did you observe the object through any of the following?

- |                 |                                      |                                     |                |     |                                     |
|-----------------|--------------------------------------|-------------------------------------|----------------|-----|-------------------------------------|
| a. Eyeglasses   | Yes                                  | <input checked="" type="radio"/> No | e. Binoculars  | Yes | <input checked="" type="radio"/> No |
| b. Sun glasses  | Yes                                  | <input checked="" type="radio"/> No | f. Telescope   | Yes | <input checked="" type="radio"/> No |
| c. Windshield   | <input checked="" type="radio"/> Yes | <input checked="" type="radio"/> No | g. Theodolite  | Yes | <input checked="" type="radio"/> No |
| d. Window glass | <input checked="" type="radio"/> Yes | <input checked="" type="radio"/> No | h. Other _____ |     |                                     |

16. Tell in a few words the following things about the object.

a. Sound No

b. Color Bright white & red, tinge of gold, and  
an appearance of blue occasionally

17. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

☐ then fused into this →

(only white  
but certainly  
not as bright

18. The edges of the object were:

- (Circle One): a. Fuzzy or blurred  
☒ b. Like a bright star  
c. Sharply outlined  
d. Don't remember

e. Other Although it appeared  
rather fuzzy at times

19. IF there was MORE THAN ONE object, then how many were there? only one

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

20. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

*No perceptible motion or movement*

21. How large did the object appear to you as compared to an object with which you are familiar? *Eight or nine times larger than brightest star - much like Venus perhaps larger.*

22. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head? *Most of it, but probably could have still seen object beyond or around the match.*

*object in pencil - match is white*

23. Did the object disappear while you were watching it? If so, how? *yes - we stopped looking to someone & when we looked again - it disappeared*

24. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

*a round cut, many faceted diamond*

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                                                                       |                                               |                                          |                                           |                                          |              |              |                                               |              |  |  |  |             |

| <p>31. If you are familiar with bearing terms (angular direction), try to estimate the number of degrees the object was from true North (thru east) and also the number of degrees it was upward from the horizon (elevation).</p> <p>31.1 When it first appeared:</p> <p>a. From true North <u>270°</u> degrees.<br/> b. From horizon <u>23°</u> degrees.</p> <p>31.2 When it disappeared:</p> <p>a. From true North <u>255-60°</u> degrees.<br/> b. From horizon <u>72°</u> degrees.</p>                                                                                                                                                                         |                                                                                                                                                                                                                                                                                                                       |                                               |                                          |                                           |                                          |              |              |                                               |              |  |  |  |             |

32. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it.

33. In the following larger sketch place an "A" at the position the object was when you *first* saw it, and a "B" at its position when you *last* saw it. Refer to smaller sketch as an example of how to complete the larger sketch.

34. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One)

- ☒ a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One)

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

35. When and to whom did you report that you had seen the object?

15 JAN 61  
Day Month Year

36. Was anyone else with you at the time you saw the object?

(Circle One) ☒ Yes No

36.1 IF you answered YES, did they see the object too?

(Circle One) ☒ Yes No

36.2 Please list their names and addresses:

MRS. [REDACTED]  
WICHITA FALLS,  
TEXAS

37. Was this the first time that you had seen an object or objects like this?

(Circle One) ☒ Yes No

37.1 IF you answered NO, then when, where, and under what circumstances did you see other ones?

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

38. In your opinion what do you think the object was and what might have caused it?

I simply do not know

39. Do you think you can estimate the speed of the object?

(Circle One)

Yes

No

IF you answered YES, then what speed would you estimate?

40. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes

No

IF you answered YES, then how far away would you say it was? \_\_\_\_\_

41. Please give the following information about yourself:

NAME \_\_\_\_\_

Gas Name

First Name

Middle Name

ADDRESS

Street

Cjtv

Zone

State

TELEPHONE NUMBER

Age

62

Sex

Indicate any additional information about yourself, including any education, which might be pertinent.

I am program director of the 3 television (KFDR-TV) and also give a weather report 6 days a week. I have an B.S. degree and am quite familiar with weather, its conditions and effects.

U.S. AIR FORCE TECHNICAL INFORMATION SHEET  
(SUMMARY DATA)

In order that your information may be filed and coded as accurately as possible, please use the following space to write out a short description of the event that you observed. Repeat information that you have already given in the questionnaire, and add any further statements, or sketches that you believe are important. Try to present the details of the observation in the order in which they occurred. Additional pages of the same size paper may be used if they are needed.

1/10/61 (10 JAN 61)

My wife and I were driving from  
Oklahoma to Wichita Falls, Texas, returning  
Roosevelt, Oklahoma & Snyder, Okla.  
to Roosevelt my wife said "Isn't  
bright tonight" — "I guess that is true."  
Some 20 minutes later I had still  
at the object but my wife had  
for observing it almost continuously  
remembered — look at it now —  
it appeared to be fused —  
the moon behind the cloud except when

even only a fused, ~~artificial~~ artificial light  
with no evidence of its source. This  
fused light was much larger than

the object  we had originally  
seen, as I stopped the car to observe.

At more carefully the fused light slowly  
& consistently began to take shape again  
and appear as a bright object. This  
"focusing" of light took approximately  
10 seconds. We then observed this bright

flickering, twinkling "star-like" object  
together for some 20 ~~minutes~~ minutes more.

We stopped to ask a friend of ours on route  
~~about~~ ~~whether~~ ~~he~~ ~~had~~ ~~seen~~ ~~the~~ ~~object~~  
he hadn't. After talking to him we looked  
on again for the object and it wasn't there  
any longer. Despite a good vantage point  
and careful observation we did not see it

~~re-appear~~ re-appear.

20. Do you think you can estimate the speed of the object?

(Circle One)

☒ Yes

☐ No

If you answered YES, then what speed would you estimate? approx. 600+ M.P.H.

21. Do you think you can estimate how far away from you the object was?

(Circle One)

☒ Yes

☐ No

If you answered YES, then how far away would you say it was? approx. 4 miles

22. Where were you located when you saw the object?

(Circle One):

a. Inside a building

b. In a car

☒ c. Outdoors

d. In an airplane (type)

e. At sea

f. Other \_\_\_\_\_

23. Were you (Circle One)

a. In the business section of a city?

☒ b. In the residential section of a city?

c. In open countryside?

d. Near an airfield?

e. Flying over a city?

f. Flying over open country?

g. Other \_\_\_\_\_

24. If you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North

c. East

e. South

g. West

b. Northeast

d. Southeast

f. Southwest

h. Northwest

24.2 How fast were you moving? \_\_\_\_\_ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

☐ Yes

☐ No

25. Did you observe the object through any of the following?

a. Eyeglasses

Yes

☒ No

e. Binoculars

Yes

☒ No

b. Sun glasses

Yes

☒ No

f. Telescope

Yes

☒ No

c. Windshield

Yes

☒ No

g. Theodolite

Yes

☒ No

d. Window glass

Yes

☒ No

h. Other \_\_\_\_\_

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

3 footballs with round centers.

# Official U.S. Air Force UFO form

14. Did the object disappear while you were watching it? If so, how?

*NO*

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

☒ No

Don't know.

If you answered YES, then tell what

it moved behind:

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

Yes

☒ No

Don't know.

If you answered YES, then tell what

in front of:

17. Tell in a few words the following things about the object:

a. Sound *None*

b. Color *Dull White*

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

*approx. 1/3*

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

## U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

*?* *?* *approx. 1961*  
Day Month Year

*approx.*  
2. Time of day:

*11* *?*  
Hours Minutes

(Circle One):

A.M.

or

*P.M.*

3. Time Zone:

(Circle One): a. Eastern  
b. Central  
c. Mountain  
*d. Pacific*  
e. Other

(Circle One): a. Daylight Saving  
*b. Standard*

4. Where were you when you saw the object?

*[Redacted]*  
Nearest Postal Address

*Sunnyvale, Calif.*  
City or Town

State or County

5. How long was object in sight? (Total Duration)

*—* *—* *15-20*  
Hours Minutes Seconds

*a. Certain*  
b. Fairly certain

c. Not very sure  
d. Just a guess

5.1 How was time in sight determined?

*approximated*

5.2 Was object in sight continuously?

yes *X* No

6. What was the condition of the sky?

DAY  
a. Bright  
b. Cloudy

*NIGHT*  
*a. Bright*  
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you  
b. In back of you  
c. To your right

d. To your left  
e. Overhead  
f. Don't remember

8. IF you saw the object

8.1 STARS (Circle One)

a. None  
b. A few  
*c. Many*  
d. Don't know

9. What were the clouds?

CLOUDS (Circle One)

*a. Clear sky*  
b. Hazy  
c. Scattered clouds  
d. Thick or heavy

10. The object appeared

a. Solid  
*b. Transparent*  
c. Vapor

11. If it appeared

a. Bright  
b. Dim

11.1 Compare

12. The edges of the object

(Circle One)

13. Did the object

a. Appear to  
b. Suddenly  
c. Break up  
d. Give off light  
e. Change shape  
f. Change color  
g. Flash or flicker  
h. Disappeared

## Page 2

8.1 STARS (Circle One):

- a. None  
b. A few  
c. Many  
d. Don't remember

### 8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight—pitch dark
- d. Don't remember

**CLOUDS (Circle One):**

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

a. Solid

- b. Transparent

- d. As a light  
e. Don't remember

a. Brighter  
b. Dimmer

- c. About the same  
d. Don't know

- 12. The edges of the object were:

(Circle One): a. Fuzzy or blurred

- b. Like a bright star  
c. Sharply outlined  
d. Don't remember

e. Other.

13. Did the object:

- a. Appear to stand still at any time?
- b. Suddenly speed up and rush away at any time?
- c. Break up into parts or explode?
- d. Give off smoke?
- e. Change brightness?
- f. Change shape?
- g. Flash or flicker?
- h. Disappear and reappear?
