

PROJECT 10073 RECORD CARD

1. DATE 31 Mar 61	2. LOCATION 3132N 12538W (Off Calif in Pacific)		12. CONCLUSIONS ☐ Was Balloon ☐ Probably Balloon ☐ Possibly Balloon ☐ Was Aircraft ☐ Probably Aircraft ☐ Possibly Aircraft ☐ Was Astronomical ☐ Probably Astronomical ☐ Possibly Astronomical ☒ Other <u>Satellite reentry</u> ☐ Insufficient Data for Evaluation ☐ Unknown
3. DATE-TIME GROUP Local <u>2038</u> GMT <u>010438Z</u>	4. TYPE OF OBSERVATION ☐ Ground-Visual ☐ Ground-Radar ☒ Air-Visual ☐ Air-Intercept Radar		
5. PHOTOS ☐ Yes ☒ No	6. SOURCE Military		
7. LENGTH OF OBSERVATION 6-15 sec	8. NUMBER OF OBJECTS 1	9. COURSE 170°	
10. BRIEF SUMMARY OF SIGHTING 1. Round, larger than half dollar, whitish green, slight after glow appeared to deteriorate in many pieces. 20° above horizon and 10° to right of nose of a/c when sighted; 8° fm horizon, 10° left of nose of a/c when disappeared. 10 sec. 2. round, dime, white to pinkish, resembled flare. Did not appear to move. 15 sec. 3. round, pea, white to green to red. 20° above horizon directly ahead, when sighted. 5° above horizon ahead when disappeared. 6 sec. Objt heading 170°.			11. COMMENTS Objt was sighted by aircrews of 3 a/c who were in general area, but were separated by several mi. Objt did not appear to be moving at an exceedingly high rate of speed, which was probably due to objt moving in almost same direction as a/c. Reentry of satellite 1961 Epsilon 2. Decayed between 30 Mar 61 and 2 Apr 61. Color and appearance of reentry along with 170° heading indicate reentry. Slowness of obje indicated probable reentry rather than fireball. Case listed as reentry of 1961 Epsilon 2.

No Case (Information Only)

16 March 1961
Weir, Australia

while on March 16, 1961
at Hume Weir, Australia Mr. [REDACTED] and his 15 year old son,
Lloyd saw a large 'trailer -like object' with 4 windows and a
red light, that landed near the edge of the water at 8:45 P.M.
that night. It moved sideways in a jerking manner, before it
disappeared into the air in the evening darkness.

Hillsboro, Ill. JOURNAL 20 MAR 61

Was Montgomery County Visited By Flying Saucer?

17 MARCH

A natural or man-made object hovered for about an hour Thursday night near Witt. It was spotted at about 8:30 p.m. traveling from east to west about 200 feet above the ground.

Bob Hilt, 23, of Witt, welder and mechanic at the Square Tool and Die company in Hillsboro, was the first to spot it as he was driving on Route 16. His story was varified by his father Russell and by John Hilt, his grandfather all of Witt.

Bob and his father used their car in an attempt to get a better look at it but as they moved the object moved, never permitting them to get too close. When they stopped, it stopped.

They agreed that the object had a definite though disufused shape. "To me, it looked like a dome with a ray (like you see when you shine a flashlight into the night) that led to a cloudy mass," Mr. Hilt said.

"I never believed in stories about flying saucers" he said, "but now I don't know."

The object appeared in the sky over the Hilt home as he was approaching in his car. Thinking it was a plane, he turned off his car engine but heard nothing.

He told his father and grandfather and they went outside to look at it with 8 power binoculars. They said it resembled a shooting star, then a ball of fire.

As they drove in their car, the object seemed to tag along. When they stopped, the object hovered in the sky, when they moved, it moved.

From a crossroads 3 miles north of Witt, they watched while the object appeared to be generating. It would turn from white to fiery red and then to white.

They returned to Witt to get Mrs. Hilt, but when they drove back to the crossroads the object was no longer visible.

They drove for several miles in hopes of seeing it again but were unsuccessful. When Bob told Creal V. Heath of the Square Tool and Die company about it, Mr. Heath said the government should be notified and a report was turned in to authorities.

to me since I was in charge

Unidentified Flying Object Spotted Also In East Hillsboro

Hillsboro, Ill. 23 MAR 61

A Hillsboro resident is credited with seeing an unidentified flying object a few hours after three Witt residents reported a strange occurrence near there last Thursday night.

Mrs. Rosie McLean who lives at Starr and East Seward street in Hillsboro told of seeing a strange object sweep between her home and the home of Mrs. Hattie Koenig who lives north of the McLean residence.

Mrs. McLean, who is about 90 said she is often up during the night and at about 2 a.m. she heard a noise that sounded like a sweep of rain. She went to the dor and saw a diffused object the color of the rainbow come over her home from the southeast, dip low, and vanish in just moments.

She was very excited and told Mrs. Koenig about it but the two women thought nothing of the incident until seeing Monday's Journal and the story about the Hilt sighting.

Mrs. Lena McBride of Hillsboro picked up copies of the story to forward to the Unidentified Flying Object (UFO) headquarters in Washington, D. C. Mrs. McBride has been cooperator in the nation-wide UFO program for several years.

No Case (Information Only)

18 March 1961
Los Angeles, California

17 Los Angeles, Calif., Ontario, Calif., Chino, Calif., San Bernardino, Calif., Santa Monica, Calif., 10:00 p.m. Flaming object, fluorescent green with long tail seen moving to the N.E. within 50 mile radius. Turned red before it disappeared. (E.A. Calif. Herald & Express, 3/16); Van Nuys, Calif., 10:15 p.m. Fluorescent green object with red tail seen moving to S.W. (No. Palmdale Valley Times, 3/16).

UPI A25

1961

LOS ANGELES, MARCH 18 (UPI)--A FLAMING OBJECT, BELIEVED TO BE A METEOR, FLASHED ACROSS THE SOUTHERN CALIFORNIA SKY LAST NIGHT, AUTHORITIES IN SEVERAL COMMUNITIES REPORTED.

THE OBJECT WAS SIGHTED IN ONTARIO, CHINO, SAN BERNARDINO, SANTA MONICA AND HERE. ALL THE CITIES INVOLVED WERE LOCATED WITHIN A 50-MILE RADIUS OF LOS ANGELES.

TWO CALIFORNIA HIGHWAY PATROLMEN SAW THE OBJECT SHORTLY BEFORE 10 P.M., PST, AND ONE THOUGHT IT DISAPPEARED NEAR ALHAMBRA WHILE THE OTHER BELIEVED IT DISAPPEARED NEAR POMONA.

KEN CARR, A CONTROLLER AT LOS ANGELES INTERNATIONAL AIRPORT, SAID HE SAW THE OBJECT FROM HIS TOWER.

"IT APPEARED TO BE FLUORESCENT GREEN WITH A LONG TAIL. IT BURNED BRIGHT RED JUST BEFORE IT DISAPPEARED," CARR SAID.

HE SAID THE OBJECT DISAPPEARED BEFORE IT REACHED THE HORIZON, NOT BEHIND THE HORIZON, INDICATING WITH THE BURNING REDNESS THAT IT PROBABLY WAS A METEOR.

CARR ADDED THE OBJECT ALSO WAS SIGHTED BY A MAN IN THE SANTA MONICA AIRPORT TOWER. JA256AES

MAJOR DONALD E. KEYHOE
USMC (RET.) DIRECTOR

Major William T. Coleman
Department of the Air Force
Office of Information
Pentagon,
Washington 25, D.C.

Dear Major Coleman:

Thank you for your letter of August 25 promising to advise us of the Air Force conclusion in the May 20 Tyndall AFB case.

Considering the location of the June 4 sighting, I assumed the Air Force would have other reports on the sighting. One witness whom you may wish to contact was Mrs. [REDACTED], Blue Ridge Summit, Penna. She reported a cigar-shaped UFO accompanied by several smaller "satellite" objects, visible about ten minutes. At first all objects were motionless, then the smaller ones sped toward the large object and all of them were obscured by trees in the foreground. This was early afternoon, and the objects were visible in the NE sky.

We would also like to check on the conclusion for the March 29, 1961 sighting near Lemoore Naval Air Station, Hanford, California. According to press wire reports, several highway patrolman sighted a large bright light which rose upward and headed westward at high speed. A follow-up story quoted the AF as saying the object was a Thor missile fired from Vandenberg at 9:14 p.m. According to N.A.S.A. records the Discoverer XXII was not launched until the following day at 3:25 p.m. (EST.) Can you clarify this?

Sincerely yours,

[REDACTED]
Secretary of NICAP

RH/h

A privately-supported fact-finding body serving the national public interest

31 August 1961

Dear Mr. [REDACTED]

I have passed the information you forwarded in yours of August 28th to the Aerospace Technical Intelligence Center (Blue Ridge Summit sighting).

The March 29th sighting you refer to was probably a Thor Intermediate Range Ballistic Missile which was launched at 2114 Pacific Standard Time by a Royal Air Force team. A Discoverer was launched the following day. As you know the Thor is the booster for the Agena vehicle. The Discoverer is an Air Force program as well as the Thor IRBM, now deployed in England and manned by the RAF.

I hope this clarifies the situation.

Sincerely,

WILLIAM T. COLEMAN, JR.

16 March 1964

Information Office, Box 19
Attn: Lloyd C. Morrison
Squadron Leader RCAF
NORAD
Colorado Springs, Colorado

ref: urlet of the 11th

Dear Sir

Enclosed is a photo from our files of a seemingly material and perhaps highly charged "object" over Japan.

In reference to your "Command Post" NORAD photo in the enclosure referenced above we would wish to ask this question?

What provision to separate this type of "phenomena" from the encroachment of an "enemy" target can you make on your COC gear? Could you indicate any "procedure" directives which perhaps you implement which would preclude "false" warnings given from the COC to Washington, Ottawa and the Pentagon?

Thank you once again for your detailed reply.

Very truly yours,

[Redacted signature]

Please return enclosure after evaluation. . . . CBA #1 copy-right photo

6 May 1964

HELEN,

This file is sort of screwy to me. In the first place, I don't know what paragraph 8, AFR 200-2 has to do with what the man is asking. The man is asking about procedures used in the Command Post. He is not asking about the identity of an UFO. I'd send this letter right back to Major Freudenthal and let him answer it, although I'm sure the procedures he's asking about are classified, I'm just guessing.

By the way. Our file on this gentleman contains seven pieces of correspondence. The latest was in 1960. He owns a number of radio stations. This is the first time he's used this type of a letter-head. His other letter heads were not quite as impressive. I'm sending you a copy of his Space Digest which he published in 1958. Please return it when you are finished so we can keep it on file.

I would rather not answer this letter from the UFO stand point, because it might precipitate a rash of letters from this man's organization. From 1958 - 1960 Mr Allen carried a running feud with Major Tacker on the subject of gravitation.

HECTOR QUINTANILLA JR

Hq USAF, Dept of the Air Force, Washington 25, D.C. 8 May 64

TO: ADC, Ent AFB, Colo 80912

1. The attached letter is returned to your Headquarters without action. The Air Force has a large file of letters from this organization and has previously furnished them with all available UFO information. This Headquarters does not intend to respond to this inquiry.

2. This organization has as its purpose the exploitation of UFO reports. A digest is published which not only details flying object sightings but also prints science-fiction articles by or about persons purportedly voyaging to other planets in space ships. The organization is also very anti the USAF UFO program.

3. If NORAD desires to explain Command Post procedures, then an answer to Mr. Allen's letter should come from that Headquarters.
