7. LENGTH OF OBSERVATION 8 minutes		8. NUMBER OF OBJECTS one		9. COURSE W-E	
10. BRIEF SUMMARY OF SIGHTING Round reddish white object size of a pin head at arm's length observed at 29 deg 55 min elev 140 deg relative azimuth. Looked like a planet. Disappeared on the horizon at 050 degrees. Object appeared to be in orbit. Both observers stated object resembled Echo I.		11. COMMENTS Object was at great altitude to give appearance of orbital flight. Check with Space Track determined that the object was not a Satellite. Also if the object were at the altitude of Echo it's speed would have been excessive. Information offered does not lead to a valid conclusion, therefore the case is listed as an unidentified. If additional information is received the analysis will be altered depending upon the nature of the additional information.
