Dear Sirs:

I would like to ask you some questions about "flying saucers."

- 1 Are there such things as flying saucers?
- 2 If so where do they come from?
- 3 Are there any people piloting these saucers?
- 4 If so what do they look like?

"The Day I Think I Saw a Flying Saucer"

On the day of April 28, 1961 my friend [REDACTED] and I were playing in his house. We came outside because it was a hot day so we came out.

[REDACTED] glanced up in the sky, he said, "Look [REDACTED] a flying saucer."

Immediately I looked up, it was silver-like object in the sky. First it came out of nowhere and then just vanished into the sky. It could of been a plane, but I'm pretty sure it was a flying saucer.

Yours truly,

~~XXXXXXXXXXXX~~

P.S. "Please try to answer to the questions I sent with this letter, I want to prove to a girl and my friends that there are such things as flying saucers."

I would like to learn more about them and theories of them.

If it is possible would you send me a pamphlet about flying saucers.

1. Reference the attached letter from [REDACTED] requesting information on unidentified flying objects. This letter is forwarded to your office for whatever action you deem necessary.
2. To date there is no evidence to support the existence of vehicles under intelligent control from outer space. Remaining questions are considered not applicable as they assume the existence of "flying saucers."
3. Information concerning [REDACTED] sighting of 28 April 1961 is very vague. In view of the observer's own opinion, however, it is probable that an aircraft was sighted.
