CONCLUSIONS ☐ Was Balloon ☐ Probably Balloon ☐ Possibly Balloon ☐ Was Aircraft ☐ Probably Aircraft ☐ Possibly Aircraft ☒ Was Astronomical VENUS ☐ Probably Astronomical ☐ Possibly Astronomical ☒ Other (RADAR (ECHO)) ☐ Insufficient Data for Evaluation ☐ Unknown
3. DATE-TIME GROUP Local 0250 GMT 200852	4. TYPE OF OBSERVATION ☒ Ground-Visual ☒ Ground-Radar ☐ Air-Visual ☒ Air-Intercept Radar	
5. PHOTOS ☐ Yes ☒ No	6. SOURCE Military	
7. LENGTH OF OBSERVATION 1 hr 30 min - 1 hr 40 min	8. NUMBER OF OBJECTS 1	9. COURSE NE-SE

10. BRIEF SUMMARY OF SIGHTING Round light, size of softball, rusty orange to bright white. Moved to downward position, then would gain altitude rapidly, then moved slowly fm NE to SE. Seemed to float.

of

11. COMMENTS Position of Venus coincides with that reported for objt. Venus at this time was just below horizon and rising. Its magnitude was -4.2. It is quite possible that strong inversion was throughout Tyndall area and this would have caused sighting to be even more spectacular and also could account for radar images. Description and motions are those which are associated with previous experiences of viewing planets or stars under conditions atmospheric refraction.

REPLY TO
ATTN OF: AFCIN-4X2

SUBJECT: Extract from Duty Officers' Report 22 May 61

TO: AFCIN-4E2 (Maj Friend)

The following, extracted from Capt Ven John's Report dated 20 May 61, is quoted for your information:

> 1020 hours, Major Gray, FOD/W-PAFB (61316), received a UFOB cite report by phone from Tyndall AFB. Since he could not locate Maj Friend, AFCIN-4E2, he asked what now to do (??). In view of the fact Tyndall AFB did not submit a formal report, I asked Maj Gray to send whatever information he had obtained at this time to Maj Friend, AFCIN-4E2.

Report on Unidentified Flying Object (UFO)

1. Description of the Object:

a. Shape - Round (Airman Henson), round (Airman Elmore), appeared round (Sgt Mallett), and lighted mass (Airman Kelly).

b. Size - softball (Airman Henson), softball (Airman Elmore), basketball (Sgt Mallett), and large light (Airman Kelly).

c. Color - Rusty orange or bright white (Airman Henson), orange to bright white (Airman Elmore), more brilliant than a star or meteor (Sgt Mallett) and white (Airman Kelly).

d. Number - one (all airmen agreed).

e. Formation - N/A (all airmen agreed).

f. Any discernible features or details - a floating light (Airman Henson), shape of a helicopter (Airman Elmore), moved to downward position, then would gain altitude rapidly, then moved slowly from northeast to southeast (Sgt Mallett).

g. Tail, trail or exhaust - moving in a horizontal westward pattern (Airman Kelly)

h. Sound - none (all airmen agreed)

i. Other pertinent or unusual features - The whole thing was unusual (Airman Henson), the whole thing was unusual (Airman Elmore), and very bright (Airman Kelly).

2. Description of Course of Object:

a. Airman Henson's report - On the morning of May 20, 1961 at approximately 0250 I saw this orange like light that came out of the woods. It first went up and then it backed down to tree top level and then went back up and stayed up at the same position for approximately ten minutes. Then it started moving toward me and then it would move back to the same position. It did this twice and then disappeared at 0430.

b. At approximately 0300 hours, 20 May 1961 I heard Airman Henson call in to Tyndall via radio from Post #13 that there was a flying object around his post. Upon arrival, I noticed an unidentified object floating

around in the air, moving back and forth, sideways and up and down. When I left the scene at approximately 0330 hours, the object was still floating around in the air. When I returned at 0500 hours, the object was no longer in sight.

c. Sgt. Mallett's report - I received a radio call from A/3C Henson, the guard at Post #13, Drone Launch site, located approximately 3 miles from Gate #2, Tyndall AFB. Airman Henson stated he could see an unusual light from his post. Airman Henson stated it was unusual to him because the light had moved several times. He further stated the light did not move in the normal course of an aircraft. I then proceeded to boundary of the base at the east range and parked my AP vehicle to observe the light. I remained at that area until 0500 hours, 20 May 1961.

d. Airman Kelly's report - Intercepted a call from Post #13 about a floating object. Car #3 said he would check. At about 0400 hours I noticed a bright shining object about 30^{o} from horizontal and it did not appear to be moving. On closer observation I noticed it was moving west slowly. I went to the Drone Launch site to exchange vehicles and continued to see it.

e. Angle or elevation and azimuth of object - Angle (30^{o} - 40^{o} - Airman Henson), angle (30^{o}- 40^{o} - Airman Elmore) Angle 70^{o} - 130^{o} - Sgt Mallett) and angle (60^{o}) and azimuth (30^{o}) - Airman Kelly. The object cited was 85^{o} 30' west longitude and 30^{o} north latitude.

f. Angle or elevation and azimuth of object upon disappearance: It disappeared at a 90^{o} angle (Airman Henson) I was not there when object disappeared (Airman Elmore), disappeared when gaining altitude (Sgt Mallett) and cannot say (Airman Kelly).

g. Description of flight path and maneuvers of object - It went up and down, back and forth (Airman Henson), up and down, back and forth (Airman Elmore), moved to downward position, then would gain altitude rapidly, then moved slowly from northeast to southeast (Sgt. Mallett), and did not notice (Airman Kelly.

h. How did the object disappear? - It disappeared at a 90^{o} angle, slow to southeast (Airman Henson), wasn't there when it disappeared (Airman Elmore), disappeared when gaining altitude, traveling from northeast to southeast. Gained altitude slowly and disappeared from view (Sgt Mallett), and faded out (Airman Kelly).

i. How long was the object visible? - One hour and forty minutes (Airman Henson), one hour and forty minutes (Airman Elmore), one hour and thirty-five minutes (Sgt Mallett), and one hour and thirty minutes (Airman Kelly)

3. Manner of Observation:

a. Ground-visual (all airmen)

b. Ground-Electronic, air electronic and aircraft - A/1C Robert L. Drenman's report (Aler t Dispatcher) - At 0345 hours Base Operations Dispatcher, A/2C Varljen called me. He said he had a problem on a U. F. O. B. RAPCON was painting a sighting that the Air Police at the ground launch site had called in.

(1) I notified Brush Off Control and they too were painting an object 8-12 miles west of PAM. The object was at first reported 2 miles west of the TACAN, then abruptly shifted to 8-12 miles west.

(2) I notified MOADS and they in turn scrambled a Hot Fighter to run on this object. Fighter was airborne in two minutes. Radar was still tracking this object. Pilot didn't see a thing, even though he was getting a sporadic paint on his radar.

(3) Object was at first traveling 2-4 miles an hour, then up to 45 miles an hour. A helicopter was scrambled due to the slowness of it. From all reports, they didn't see a thing.

(4) At approximately 0510C Radar lost contact. I called the Navy Mine Defense Laboratory to see if they had any people on their stages that they have two miles and ten miles out in the Bay. Stage #1 and 2 out. No sighting. Stage #2 ten miles out. No report as yet.

(5)contacted the Florida Highway Pat rol, Bay County Sheriff, Gulf County Sheriff, Panama City Police. No reports of any sighting at all. Also called Fannin Field - no aircraft or ground reports.

(6) Four Air Policemen saw it - RAPCON, Brush-Off painted it on Radar.

c. Additional information - GCI - FPS 20, Height Finder - FPS-6, Target Paint - 2000 - 10, 000 feet, RAPCON-CPH-18, Target Track occasionally on MTT and last seen 5000 feet - NNW - 25 miles.

4. Time and Date of Sighting:

a. 0250 hours, 20 May 1961

b. Light conditions - dark and clear (Airman Henson)

c. Weather and winds - Mild breeze and clear (Airman Henson), nice and warm with a mild breeze (Airman Elmore), fair and clear, no wind (Sgt Mallett), and warm and clear, very little wind (Airman Kelly)

d. Base Weather Report - Clear 10 miles visibility.

e. Additinnal remarks: On or about 0605 hours, 20 May 1961, I received a call from Captain Allan E. Aaronson that a UFO was sighted and to meet him at Base Headquarters by 0700 hours. We arrived at Base Headquarters and proceeded to the Alert Trailer. We talked to Airman 1/C Robert L. Drennan (Alert Dispatcher) about the UFO. On or about 0800 hours, Airman Roy C. Elmore and Garland L. Henson arrived. I interviewed them and made out their report. On or about 2200 hours I met with S/Sgt Cecil L. Mallett and A/3C Gray L. Kelly, for an interview. On or about 0830 hours, 20 May 1961, I put in a call to Air Technical Center, Wright-Patterson AFB, Ohio (Clearwater 3-7111, Ext. 69216 or 66378), Major Friend. No one was available so I gave the UFO information to the Officer of the Day for Major Friend and said that I would be waiting for further questions.

f. Location of Flying Object: (See attached sketch).

g. Very unusual information - If I recalled right, A/3C Garland L. Henson said his radio failed to operate while the object was around.

h. Witness - SSGT Cecil L. Mallett, A/3C Garland L. Henson, A/3C Roy C. Elmore, A/3C Gary L. Kelly (4756 AP Sq, Phone 22190).

i. The above report was prepared by MSGT Henry J. Lacour. For any further information contact Captain Allan E. Aaronson, dxtension 21271 or MSGT Henry J. Lacour, extension 22151, Tyndall AFB, Flori da.

RESUME:

Cooky 29 was scrambled in an attempt to intercept an unidentified flying object seen earlier in the night near the Drone Launch Site. One of the alert fighters had been scrambled on the object earlier; however, it was believed that a slower aircraft might have a better chance of identifying the object.

Cooky 29 was less than five miles from the base when PETSEL-07 reported that they were losing contact with the object. Cooky 29 returned to Tyndall at 0505.

at about 0300 hrs, May 20, 1961 S/Sgt Mallett
first observed the unusual light.
The color was a brittant orange,
almost red, & would have estimated
the size to be approx. 12 to 15 in. across
Do size of a small black ball on basket
ball. shape was round, only one in
sight. There was no sound from the object
that could be heard. Flight path,
object appeared to gain altitude, lose
altitude, move slightly to left, slightly
to right & original position. object
was visible approx. 2 hours. There was
no change from the object & would have
est. the altitude as 2500 ft, distance 50 mi.

S/Sgt. Mallett, Cecil L.

Reference → UFO sighting report

The pilot of the F-102 aircraft
reported the UFO location, the
following is a description of the flight
and pilot maneuvers.

Visual sightings or radar paints
were accomplished by the fighter after
the ground radar paints that were
caused by any number of known targets
under and through scattering were there
to 10,000 feet of altitude.

Consistency the visual and ground radar
paintings were not the same area, there
should be only one set of the visual sighting
to the area of the visual sighting

During the scramble mission there were
no ties of ground to aircraft control
in the area of aircraft search

1

The fighter was not scrambled to look the two visual sighting

Recommendations:

1. Coordination be effected therefore the fighter scramble authority to scramble aircraft immediately upon receipt of information.

2. Suggest some agency be responsible for coordination between visual and radar positions on UFOs. If necessary scramble two aircraft. One for the visual sighting area and one for the ground radar pick-up and track area.

3. Suggest that eye witnesses be investigated for their reliability.

ROBERT J. REISENWITZ

AFCIN

Report on Unidentified Flying Object (UFO)

Aerospace Technical Intelligence Center
Attn: AFCIN-4B2X
Wright-Patterson AFB, Ohio

1. In accordance with AFR 200-2, par 15 dated 11 September 1959 the following Flying Object Report is submitted:

a. Description of the Object:

(1) Shape - Elliptical

(2) Size - Grapefruit (Larger than the evening star).

(3) Color - Similar to star, but brighter.

(4) Number - 1

(5) Formation - N/A

(6) Discernible features: Object was traveling on a steady course and it was very bright.

(7) Tail or Trail - None observed.

(9) Unusual features: I have observed other satellites but this one was very stable. It did not bounce or wobble like the American and Russian satellites.

b. Description of Course of Object:

(1) What first called the attention of observer to the object: I usually study the solar system a few minutes every night. On or about 01452, 19 September 1960 I appeared to look up toward the West and I noticed the UFO coming from a Southwest direction. I observed it to make sure it wasn't an aircraft. I called my family and Captain Norman R. Sneden (Rated Pilot) to look at it. I also reported it to the Tyndall Base Station.

COORDINATION AND RECORD COPY

(2) Angle of elevation and altitude of object: The object appeared at an elevation of 20°.

(3) Angle and altitude of object: The object moved at right [illegible] an approximate angle of 10°.

(4) Description of flight path and maneuvers of object: The object traveled in general from Southeast toward Northeast. It was steady and it traveled on a straight course; As if guided.

(5) Manner in which object disappeared: The object disappeared instantly.

(6) Length of time object was visible: The object was visible about ten or twelve minutes.

c. Manner of Observation:

(1) Method used in observation: Ground-Visual

(2) Optical aids: N/A

(3) Aircraft used: N/A

d. Time and Date of Sighting:

(1) Zulu time-date group of sighting: 0045Z 19 September.

(2) Light conditions: Night.

e. Location of observer: 5 20N - 30 4W

f. Identifying Information on Observer:

(1) Civilian - N/A

(2) Military: Henry J. Lecour, MSgt, 4756 AB Gp. (Training Section)

g. Weather and Winds-Aloft Conditions at Time and Place of Sighting:

(1) Observers account of weather conditions: Time 0045Z - 3000 scattered-visibility ten miles-Temperatures 83 - D.P 75- Surface Winds-calm. Tyndall Air Force Base

(2) Report from weather station: Time 0600Z/19 September -

6,000 Feet	110°/10K	30,000 Feet	Not Observed
10,000 Feet	110°/ 5K	50,000 Feet	250°/10K

The above were sighted from 5 June thru 12 June by MSGT HENRY J LACOUR, Tyndall AFB, Fla.

I heard on or about 20 - 25 May 1962 a picture was taken of a UFO at CROSS CITY, Fla. It was forwarded to ADC. I wonder if it was the UFO seen 20 May or 22 May 1962. The picture was taken by a CIVILIAN. Capt. Aaronson called Cross City Pad Site 3645 7 Acq Sq and were one gived us the information.

MSGT HENRY J LACOUR

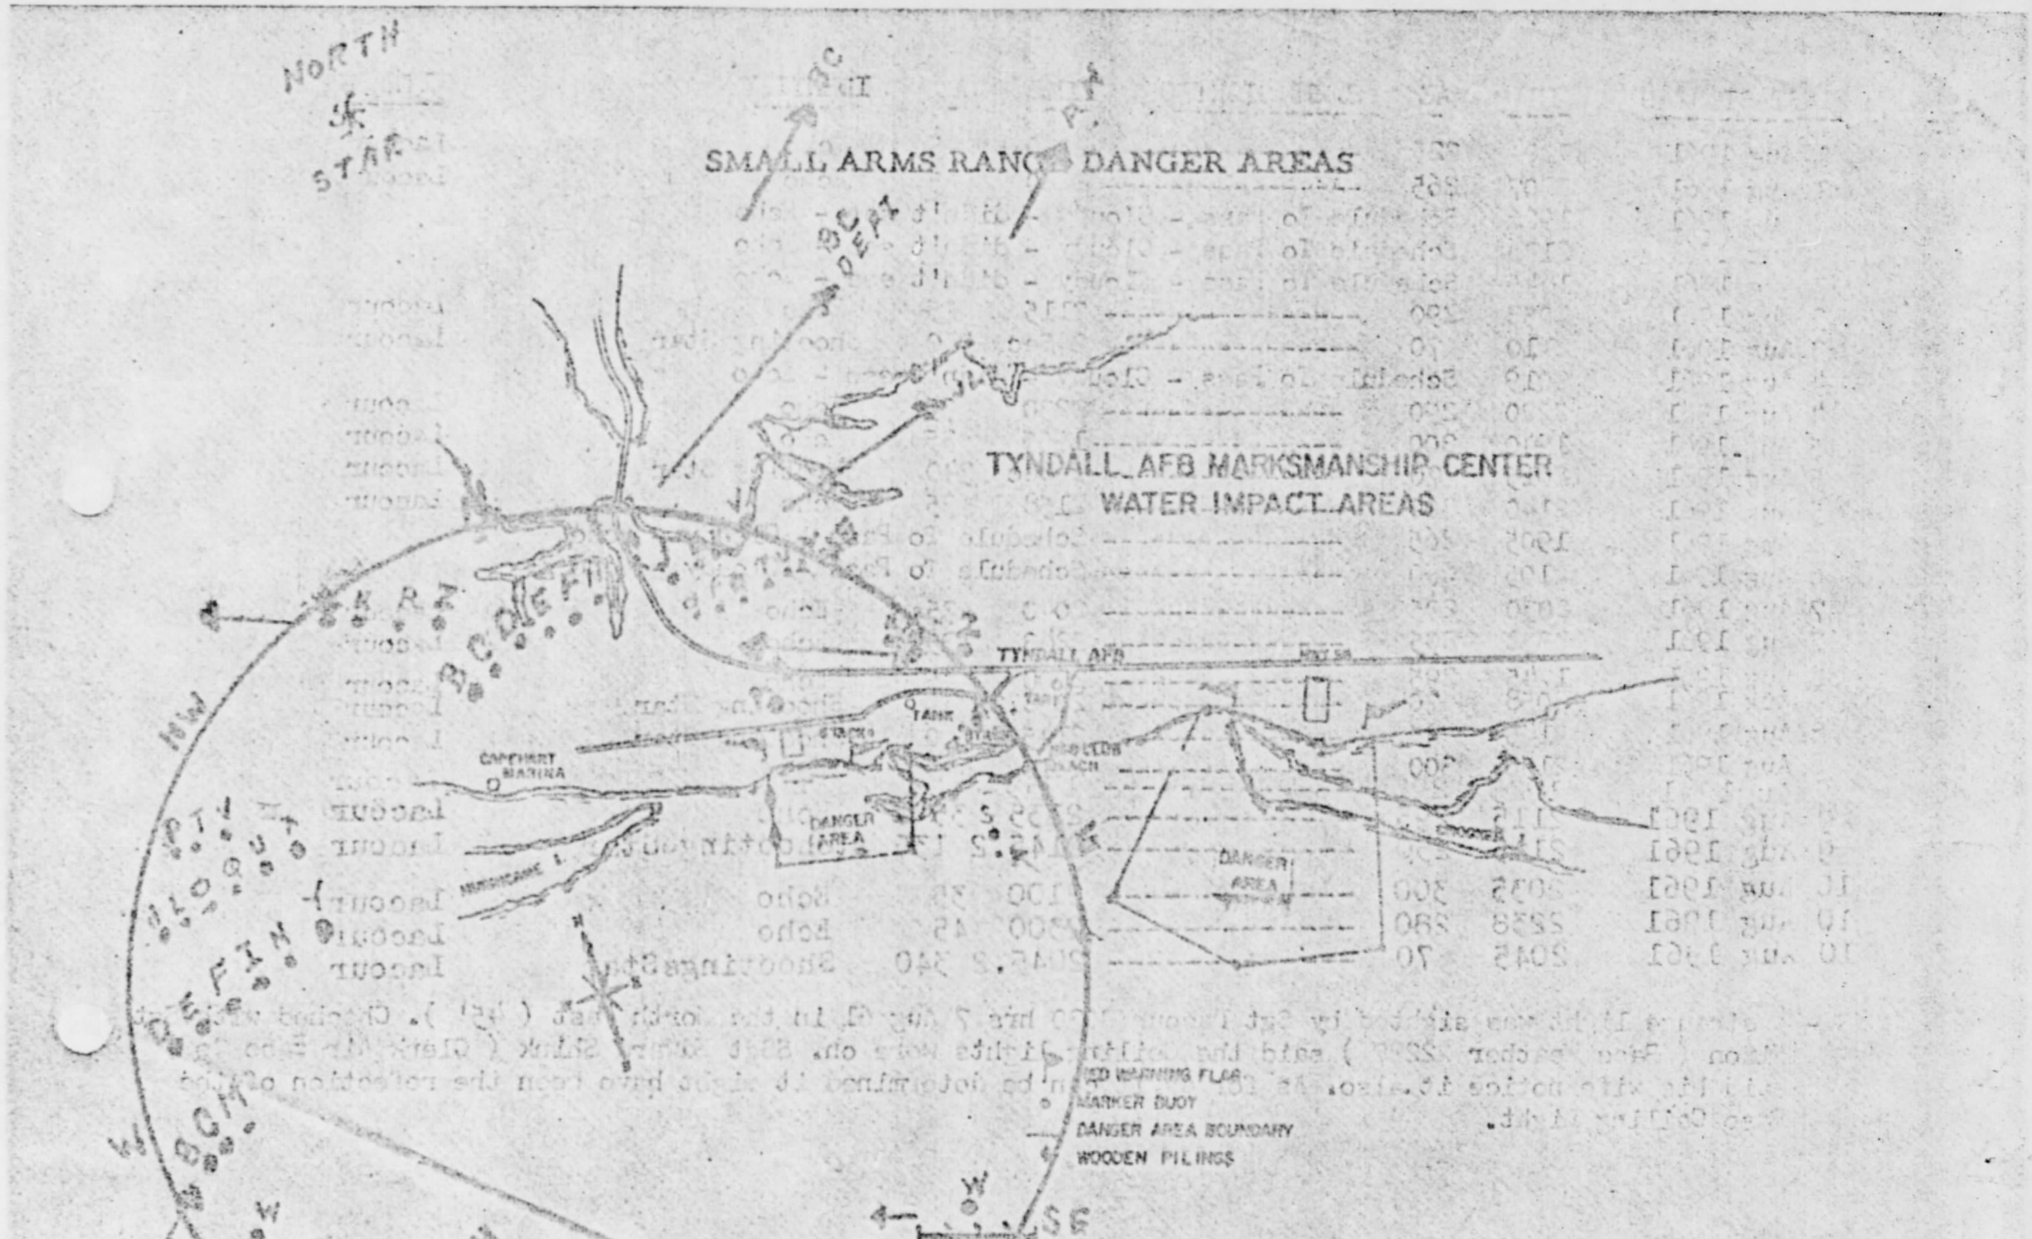
REMARKS - A strange light was sighted by Sgt Lacour 2030 hrs 7 Aug 61 in the North East (45°). Checked with Sgt Wilson (Base Weather 22227) said the Ceiling Lights were on. SSgt Edward Shink (Clerk Air Base Gp) said his wife notice it also. As far as it can be determined it might have been the reflection of the Base Ceiling Light.



When Red Flags are displayed on the boundaries, that range is in operation and firing is in progress. Fishermen, boating enthusiasts and personnel on beaches are to remain clear of designated areas.

For further information, contact Tyndall Air Force Base, AT6-2111, extension 22151, Base Training.

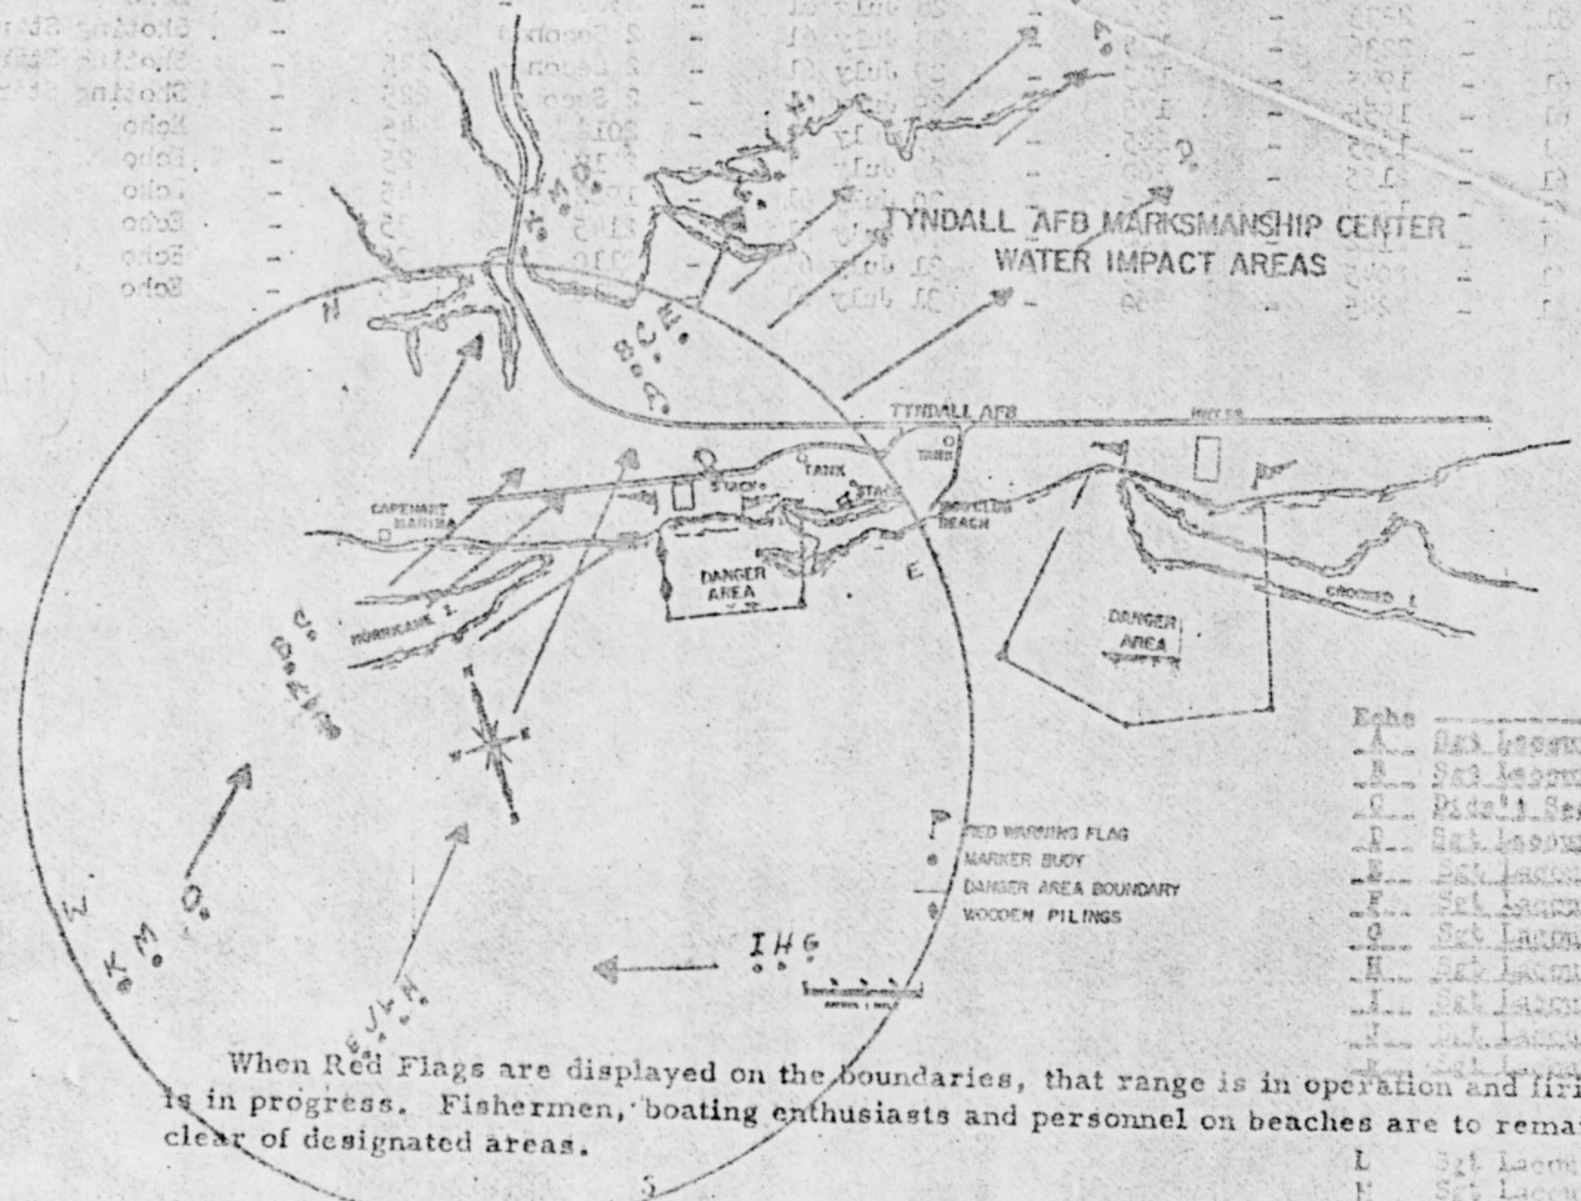
SMALL ARMS RANGE DANGER AREAS



When Red Flags are displayed on the boundaries, that range is in operation and firing is in progress. Fishermen, boating enthusiasts and personnel on beaches are to remain clear of designated areas.

For further information, contact Tyndall Air Force Base, AT6-2111, extension 22151, Base Training.

E

JULY-AUGUST, 1961

Strange Flying Object Over Base, Tyndall AFB Tells HQ

For 90 minutes, in the early hours of May 20, 1961, Tyndall Air Force Base was under observation by a strange, round object, glowing orange-white, which maneuvered over the Drone (pilotless aircraft) Launching Site.

During this time, the UFO was tracked by two AF radar stations. Its prolonged maneuvers were observed by members of the 4756th Air Police Squadron and the assistant to the base UFO officer. After attempted interceptions by a jet and a helicopter, the unidentified object climbed away from the base and disappeared.

To date, the AF has kept this UFO surveillance from the public, but NICAP now has in its possession a five-page AF report, complete with names, details and action taken, including a "mission report" by Capt. Paul F. Vandergriff, the helicopter pilot. A condensed account of the five-page report follows:

Time and date of sighting 0250 hours (2:50 a.m.) 20 May 1961. Base weather report -- clear, 10 miles visibility.

Report from Post #13, by Airman Garland L. Henson, Air Police: At about 0250, May 20, 1961, sighted orange colored light alternately descending to treetop level and climbing at high speeds. When the UFO was nearest Post No. 13, Henson's radio temporarily failed, apparently from electro-magnetic interference generated by the device. Radio contact was made with Tyndall Operations at about 0300.

The UFO report from Post 13 was relayed to M/Sgt. Henry J. Lacour, assistant to the Base UFO officer, Capt. Allan E. Aaronson. At 0300 Lacour went to Post 13 and observed the UFO alternately hovering and climbing about the base. At 0330, complying with AF Reg. 200-2 for immediate reporting of UFOs, M/Sgt. Lacour put in a call to Major Robert Friend, chief of Project Blue Book, ATIC (Aerospace Technical Intelligence Center), Wright-Patterson AFB, Ohio. Phone numbers listed in the report: Clearwater 8-7111, extension 59216 or 58378. When Lacour found Major Friend was unavailable, he gave the UFO report to the Officer of the Day.

Report of S/Sgt. Cecil L. Mallett, Air Police: Received radio call from Post 13, Drone Launch Site, three miles from Gate 2. Proceeded, parked my AF vehicle to observe the light.

Report of Airman Gary L. Kelly, Air Police: Intercepted Post 13 radio call about a "floating object." Car 3 said he would check. About 0400 I noticed a bright shining object . . . . moving west slowly. Went to Drone Launch Site, continued to watch it.

Similar report by Airman Roy C. Elmore, Air Police. Consensus by the four: Shape, round; color, rusty orange to white; no sound. UFO could move very slowly, then climb rapidly. Trail or exhaust reported by Airman Kelly.

Ground-electronic, air electronic and aircraft details:

Report by the Alert Dispatcher, A1/C Robert L. Drennan: "At 0345, Base Operations Dispatcher, A/2C Varljen, called me. He said he had a problem on a UFO. RAPCON (radar station) was painting a sighting that the Air Police had called in. ("Painting" means tracking on a radarscope.) I notified Brush Off Control (radar) and they too were painting an object 8-12 miles west of PAM. The object was at first reported 2 miles west of the TACAN, then abruptly shifted to 8-12 miles west. I notified MOADS and they scrambled a "hot fighter" to run on this object. Fighter airborne in two minutes; radar still tracking object . . . . ."

Though the jet's radar intermittently picked up the UFO, the pilot was unable to sight the object because of the jet's high speed. According to the Alert Dispatcher, Drennan, the UFO was first moving at 2-4 m.p.h. then up to 45. A helicopter, he stated, was scrambled "due to the slowness" of the UFO.

Following is a verbatim copy of the helicopter pilot's report:

MISSION REPORT

Mission Number, 61-31--Date, 20 May 1961--Time 0440C.
Origin of alert, Base Operations
Type Mission, Search. Grid Location N/A. A/C Number, N/A.
Crew Condition, N/A. Helicopter airborne 0445C. Sorties, 1. Total time, 0 hour 20 min.
Pilot, Vandergriff, P.F., Capt.
Helicopter Crew,
Co-pilot,
Engineer, Seph, B., A1C
Med. Tech.,
Other.

Resume. Cooky 29 (flight code number) was scrambled in an attempt to intercept an unidentified flying object seen earlier in the night near the Drone Launch Site. One of the alert fighters had been scrambled on the object earlier; however, it was believed that a slower aircraft might have a better chance of identifying the object. Cooky 29 was less than five miles from the base when BRUSH-OFF reported that they were losing contact with the object. Cooky 29 returned to Tyndall at 0505C.

Paul F. Vandergriff
Capt., USAF, Alert Pilot

Office Form 968(TAFB), Nov 53

According to the Tyndall AFB report, visual contact was lost after the jet landed and just before the helicopter took off, but radar (RAPCON-CP) continued to track the UFO until 0510C, at which time the object was 25 miles NNW, at 5,000 feet. The report also states that BRUSH-OFF, an AF Ground Control Intercept station, tracked the unknown device between 2,000 and 10,000 feet.

The simultaneous visual and radar reports, including double confirmation by two AF radar stations, completely rule out any possibility of mirages or refractions of distant stars. The aircraft's hovering and high speeds also rule out balloons, normal aircraft or missiles.

This official AF report is one more item of solid proof that the true UFO story is being withheld from the public. The complete report will be given to Chairman Overton Brooks, Science and Astronautics Committee, the UFO Subcommittee, the Senate Preparedness Subcommittee, and individual Members of Congress who oppose the UFO censorship.

During the early hours of May 20,1961 for over 90 minutes, Tyndall Air Force Base was under observation by a strange, round object, glowing orange-white, which maneuvered over the Drone(pilotless aircraft) Launching Site. The UFO was tracked by two Air Force radar stations. When the UFO was near an observation post their radio temporarily failed, apparently from electro-magnetic interference generated by the device. After attempted interceptions by a jet and a helicopter, the UFO climbed away from the base and disappeared

ADIABATIC CHART

PROJECT 10073 RECORD CARD

1. DATE	2. LOCATION	12. CONCLUSIONS
22 May 61	Tyndall AFB, Florida	☐ Was Balloon ☐ Probably Balloon ☐ Possibly Balloon
3. DATE-TIME GROUP Local 1630 GMT 222230Z	4. TYPE OF OBSERVATION ☒ Ground-Visual ☐ Ground-Radar ☐ Air-Visual ☐ Air-Intercept Radar	☐ Was Aircraft ☐ Probably Aircraft ☐ Possibly Aircraft
5. PHOTOS ☐ Yes ☒ No	6. SOURCE Civilian	☐ Was Astronomical ☐ Probably Astronomical ☐ Possibly Astronomical
7. LENGTH OF OBSERVATION 15 min	8. NUMBER OF OBJECTS 1	9. COURSE Stationary
		☐ Other UNIDENTIFIED ☐ Insufficient Data for Evaluation ☒ Unknown

10. BRIEF SUMMARY OF SIGHTING Disc shaped, size of volley ball, silver colored. Stationary and revolving in place. Disappeared suddenly.

11. COMMENTS Fm descripiton by witnesses objt could possible be eigher a helicopter or a mirage; however, in view of fact that there is no substantiating evidence this case is classed as "Unidentified."

ATIC FORM 329 (REV 26 SEP 52)

ABDO

26 MAY 1961

Report on Unidentified Flying Object (UFO)

Aerospace Technical Intelligence Center (AFCIN) 4E2X
Wright-Patterson AFB, Ohio

In accordance with AFR 200-2, paragraph 15, dated 14 September 1959, the attached Flying Object Reports and sketches are submitted.

FOR THE COMMANDER:

GROVER N LIPE
Captain, USAF
Administrative Officer

2 Atch
a/s

Report on Unidentified Flying Object (UFO)

1. Description of the Object:

a. Shape - Disc.

b. Size - volley ball

c. Color - silver

d. Number - 1

e. Formation - N/A

f. Any discernible features or details - Stationary and revolving in place.

g. Tail, trail or exhaust - None.

h. Sound - None

i. Other pertinent or unusual features - Stationary in one place.

2. Description of course of object:

a. Mrs. [redacted] and [redacted]rt - On the afternoon of May 22, around 4:30 PM, my neighbor (Mrs. [redacted] and I (Mrs. [redacted]) were sitting out on the back patio and my attention (a reflection) was drawn to a strange object in the sky. It was something like I had never seen before, so I told my neighbor to look. She (Mrs[redacted]) and I watched it for about 15 minutes or so, and suddenly it wasn't there any more. As best we could tell it was a bright object on which the sun reflected. It seemed to sit still in one spot, but the object itself was revolving. From where we were at [redacted]sing) Tyndall AFB, Florida, it didn't seem to be far off. Neither did it look very large. It appeared to be toward the base from us.

b. Angle or elevation and azimuth of object - Angle 3.5^{o} and azimuth southeast.

c. Angle or elevation and azimuth of object upon disappearance - Angle 35^{o}.

d. Description of flight and maneuvers of object - Stationary and revolving in place.

e. How did the object disappear? All at once.

f. How long was the object visible? 15 minutes.

3. Manner of Observation: Ground - visual.

4. Time and Date of Sighting:

a. Time - 16:30; Date - 22 May 1961.

b. Light conditions - Daylight

c. Weather and wind - Ceiling 10,000, visibility 10 miles and wind south, southwest.

d. Location of flying object - (See attached sketch)

e. Witness - Mrs. [redacted] and Mrs. [redacted] Street ([redacted] Housing), Tyndall AFB, Florida. Phone [redacted]

5. Report prepared by MSGT Henry J. Lacour, Assistant UFO Flying Object Officer), Tyndall AFB, Florida, extension 22151 or 6105.
