| 10. BRIEF SUMMARY OF SIGHTING<br>1st sighting: Oval objt. reddish color NE 3 min after satellite going E. 2nd sighting: viewed about 1 hr later going W turning S and then E. Jet engine sound. |                                                                                                                                                                                                       |                     | 11. COMMENTS<br>There were no known satellite reentries at this time. Color and flight path suggests a slow moving meteor. Objt was reported to be moving to NE, and as the earth is turning in this direction objt would appear to be moving slower than it would have if it were moving to W. Second sighting of a/c.                                                                                                                                                                                                                                                                                      |

Dear Sirs:

On August 4, 1961, I went outside at 11:45 AM. At 2:15 AM, I spotted one of your satellites going over head. At 2:18 AM, I spotted a U.F.O. going N.E. The satellite was going E. The U.F.O. as I could make it out was oval shaped and a reddish color. I tracked it as far as I could with my eye and lost it going NORTH EAST. At 3:10 A.M. I spotted it again and it was coming West, then it turned South, and then East again. The first time it went over, it didn't have any sound to it. The second time when it turned East again it had a jet-engine sound to it. I cannot figure out what it was.

Do you know? If you do please answer this letter. Thank you. Sincerely yours,  
~~XXXXXXXXXX~~

UFO Sighting

Mr. [REDACTED]

Ashland, Kentucky

Dear Mr. [REDACTED]

Your letter to the Department of the Air Force, in which you report the sighting of a UFO, has been forwarded to the Foreign Technology Division. Your letter does not contain sufficient information for a valid conclusion; therefore, request you complete the attached form and return it in the attached self-addressed envelope.

Sincerely

*E. H. Wynn*  
EDWARD H. WYNN  
Colonel, USAF  
Deputy for Science  
and Components

# U.S. AIR FORCE TECHNICAL INFORMATION SHEET

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes, and will be regarded as confidential material. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that, if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

4 Day AUGUST Month 61 Year

2. Time of day: 2 Hour 18 Minutes

(Circle One): ☒ A.M. or P.M.

3. Time Zone:

(Circle One): ☒ a. Eastern  
b. Central  
c. Mountain  
d. Pacific  
e. Other \_\_\_\_\_

(Circle One): ☐ a. Daylight Saving  
☒ b. Standard

4. Where were you when you saw the object?

[REDACTED] Nearest Postal Address Ashland City or Town Kentucky State or Country  
Additional remarks: NONE

5. How long was object in sight?

       Hours        Minutes 15 Seconds

5.1 How was time in sight determined?

a. Certain  
b. Fairly certain

c. Not very sure  
☒ d. Just a guess

6. What was the condition of the sky?

DAY  
a. Bright  
b. Cloudy

NIGHT  
☒ a. Bright  
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you  
b. In back of you  
c. To your right

d. To your left  
e. Overhead  
f. Don't remember

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- ☒ c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- ☒ b. Dull moonlight
- c. No moonlight — pitch dark
- d. Don't remember

9. The object appeared:

(Circle One): ☒ a. As a light RED    b. Shiny    c. Dark    d. Don't remember

10. If it appeared as a light, was it brighter than the brightest stars?

NO

11. Did the object:

(Circle One for each question)

- |                                                 |                                      |                                     |            |
|-------------------------------------------------|--------------------------------------|-------------------------------------|------------|
| a. Appear to stand still at any time?           | Yes                                  | <input checked="" type="radio"/> No | Don't Know |
| b. Suddenly speed up and rush away at any time? | Yes                                  | <input checked="" type="radio"/> No | Don't Know |
| c. Break up into parts or explode?              | Yes                                  | <input checked="" type="radio"/> No | Don't Know |
| d. Give off smoke?                              | Yes                                  | <input checked="" type="radio"/> No | Don't Know |
| e. Change brightness?                           | Yes                                  | <input checked="" type="radio"/> No | Don't Know |
| f. Change shape?                                | Yes                                  | <input checked="" type="radio"/> No | Don't Know |
| g. Flash or flicker?                            | Yes                                  | <input checked="" type="radio"/> No | Don't Know |
| h. Disappear and reappear?                      | <input checked="" type="radio"/> Yes | No                                  | Don't Know |

12. Did the object move behind something at any time, particularly a cloud?

(Circle One):    Yes    ☒ No    Don't Know.    IF you answered YES, then tell what it moved behind: \_\_\_\_\_

13. Did the object move in front of something at any time, particularly a cloud?

(Circle One):    Yes    ☒ No    Don't Know.    IF you answered YES, then tell what in front of: \_\_\_\_\_

14. Did the object appear: (Circle One): ☒ a. Solid    b. Transparent    c. Vapor    d. Don't Know

15. Did you observe the object through any of the following?

- |                 |     |                                     |               |             |                                     |
|-----------------|-----|-------------------------------------|---------------|-------------|-------------------------------------|
| a. Eyeglasses   | Yes | <input checked="" type="radio"/> No | e. Binoculars | Yes         | No                                  |
| b. Sun glasses  | Yes | <input checked="" type="radio"/> No | f. Telescope  | Yes         | <input checked="" type="radio"/> No |
| c. Windshield   | Yes | <input checked="" type="radio"/> No | g. Theodolite | Yes         | <input checked="" type="radio"/> No |
| d. Window glass | Yes | <input checked="" type="radio"/> No | h. Other      | <u>EYES</u> |                                     |

16. Tell in a few words the following things about the object.

- a. Sound NONE
- b. Color KIND OF A DULL RED

17. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any part of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

 NE.

18. The edges of the object were:

- (Circle One): ☒ a. Fuzzy or blurred  
☐ b. Like a bright star  
☐ c. Sharply outlined  
☐ d. Don't remember

e. Other \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

19. IF there was MORE THAN ONE object, then how many were there? \_\_\_\_\_  
 Draw a picture of how they were arranged, and put an arrow to show the direction that they were moving.

20. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

B-----A

21. How large did the object appear to you as compared to an object with which you are familiar?

22. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

all on it

23. Did the object disappear while you were watching it? If so, how?

NO

24. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

an egg

25. Where were you located when you saw the object?  
(Circle One):

- a. Inside a building
- b. In a car
- ☒ c. Outdoors
- d. In an airplane (type)
- e. At sea
- f. Other \_\_\_\_\_

26. Were you (Circle One)

- a. In the business section of a city?
- ☒ b. In the residential section of a city?
- c. In open countryside?
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other \_\_\_\_\_

27. What were you doing at the time you saw the object, and how did you happen to notice it?

*It was kind of a light night, and I was sitting in my car and I saw it. I saw it go over the house, and I saw it go over the house, and I saw it go over the house.*

28. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

28.1 What direction were you moving? (Circle One)

- a. North
- b. Northeast
- c. East
- d. Southeast
- e. South
- f. Southwest
- g. West
- h. Northwest

28.2 How fast were you moving? \_\_\_\_\_ miles per hour.

28.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

29. What direction were you looking when you first saw the object? (Circle One)

- a. North
- b. Northeast
- c. East
- d. Southeast
- ☒ e. South
- f. Southwest
- g. West
- h. Northwest
- i. Overhead

30. What direction were you looking when you last saw the object? (Circle One)

- a. North
- b. Northeast
- c. East
- ☒ d. Southeast
- e. South
- f. Southwest
- g. West
- h. Northwest
- i. Overhead

31. If you are familiar with bearing terms (angular direction), try to estimate the number of degrees the object was from true North (thru east) and also the number of degrees it was upward from the horizon (elevation).

31.1 When it first appeared:

- a. From true North \_\_\_\_\_ degrees.
- b. From horizon 45 degrees.

31.2 When it disappeared:

- a. From true North \_\_\_\_\_ degrees.
- b. From horizon 45 degrees.

32. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it.

33. In the following larger sketch place an "A" at the position the object was when you *first* saw it, and a "B" at its position when you *last* saw it. Refer to smaller sketch as an example of how to complete the larger sketch.

34. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One)

- ☒ a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One)

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

35. When and to whom did you report that you had seen the object?

4 8 61  
Day Month Year

MY DAD

36. Was anyone else with you at the time you saw the object?

(Circle One) Yes ☒ No

36.1 IF you answered YES, did they see the object too?

(Circle One) Yes No

36.2 Please list their names and addresses:

37. Was this the first time that you had seen an object or objects like this?

(Circle One) Yes ☒ No

37.1 IF you answered NO, then when, where, and under what circumstances did you see other ones?

---

---

---

---

38. In your opinion what do you think the object was and what might have caused it?

It could have been a flying saucer or a jet, but the jets make noise and I haven't any idea what might have caused it.

39. Do you think you can estimate the speed of the object?

(Circle One)

☒ Yes

☐ No

IF you answered YES, then what speed would you estimate? about 100 mph

40. Do you think you can estimate how far away from you the object was?

(Circle One)

☒ Yes

☐ No

IF you answered YES, then how far away would you say it was? about 100 ft

41. Please give the following information about yourself:

NAME

First Name

Middle Name

**U.S. AIR FORCE TECHNICAL INFORMATION SHEET**  
(SUMMARY DATA)

In order that your information may be filed and coded as accurately as possible, please use the following space to write out a short description of the event that you observed. You may repeat information that you have already given in the questionnaire, and add any further comments, statements, or sketches that you believe are important. Try to present the details of the observation in the order in which they occurred. Additional pages of the same size paper may be attached if they are needed.

## U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

4 8 61  
Day Month Year

2. Time of day:

1 08  
Hours Minutes

(Circle One):

A.M. or

P.M.

3. Time Zone:

(Circle One):

- a. Eastern  
b. Central  
c. Mountain  
d. Pacific  
e. Other \_\_\_\_\_

(Circle One): a. Daylight Saving

b. Standard

4. Where were you when you saw the object?

[Redacted]  
Nearest Postal Address

Ashtland  
City or Town

14.  
State or County

5. How long was object in sight? (Total Duration)

5  
Hours Minutes Seconds

a. Certain

b. Fairly certain

- c. Not very sure  
d. Just a guess

5.1 How was time in sight determined?

By a WATCH

5.2 Was object in sight continuously?

Yes \_\_\_\_\_

No ✓

6. What was the condition of the sky?

DAY

- a. Bright  
b. Cloudy

NIGHT

- a. Bright  
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

- (Circle One): a. In front of you  
b. In back of you  
c. To your right

- d. To your left  
e. Overhead  
f. Don't remember

8. IF you saw the object at N

8.1 STARS (Circle One):

- a. None

c. Many  
d. Don't remember

9. What were the weather c

CLOUDS (Circle One):

- a. Clear sky  
b. Hazy  
c. Scattered clouds  
d. Thick or heavy clouds

10. The object appeared: (C

- a. Solid  
b. Transparent  
c. Vapor

11. If it appeared as a light,

- a. Brighter  
b. Dimmer

11.1 Compare brightness

Compared

12. The edges of the object

- (Circle One): a. Fuzzy  
b. Like  
c. Sharp  
d. Don't

13. Did the object:

- a. Appear to stand still  
b. Suddenly speed up  
c. Break up into parts  
d. Give off smoke?  
e. Change brightness?  
f. Change shape?  
g. Flash or flicker?  
h. Disappear and reappear

# AIR FORCE UFO FORM

Page 2

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight—pitch dark
- d. Don't remember

*But the moon was to the left of where I saw the object, therefore giving clear view of it.*

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- a. Solid
- b. Transparent
- c. Vapor
- d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
- b. Dimmer
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

*Compare a redish light ball with a white or a yellow one and about 7 times brighter than the white or yellow one.*

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
  - b. Like a bright star
  - c. Sharply outlined
  - d. Don't remember

*7 Times Brighter than the white or yellow one.*

13. Did the object:

(Circle One for each question)

- a. Appear to stand still at any time?
- b. Suddenly speed up and rush away at any time?
- c. Break up into parts or explode?
- d. Give off smoke?
- e. Change brightness?
- f. Change shape?
- g. Flash or flicker?
- h. Disappear and reappear?

14. Did the object disappear while you were watching it? If so, how?

It disappeared over the roof of our house and then reappeared coming in from the direction it had disappeared. (East)

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

☒ No

Don't know.

If you answered YES, then tell what

it moved behind:

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

Yes

☒ No

Don't know.

If you answered YES, then tell what

in front of:

17. Tell in a few words the following things about the object:

a. Sound

NONE

b. Color

Changed colors: first it was a rusty red, then orange, then as yellow, then again in the same manner.

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

90% of the object might have been covered by the match head

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can see

(Circle One)

If you answered YES, then

21. Do you think you can see

(Circle One)

If you answered YES, then

22. Where were you located

(Circle One):

a. Inside a building

b. In a car

☒ c. Outdoors

d. In an airplane (type)

e. At sea

f. Other

24. IF you were MOVING

24.1 What direction were you moving?

a. North

b. Northeast

24.2 How fast were you moving?

24.3 Did you stop at any time?

(Circle One)

25. Did you observe the object through

a. Eyeglasses

b. Sun glasses

c. Windshield

d. Window glass

26. In order that you can give a description of the object, please draw a picture of the object which, when placed in front of a plain background, will show the shape of the object.

A plain background  
Different background  
Horizontal

Page 4

20. Do you think you can estimate the speed of the object?

(Circle One) Yes No

IF you answered YES, then what speed would you estimate? ABOUT 47,000 M.P.H.

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

IF you answered YES, then how far away would you say it was? 3,900 miles at first sighting.

22. Where were you located when you saw the object?

(Circle One):

- a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane (type)
- e. At sea
- f. Other

23. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

- a. North
- b. Northeast
- c. East
- d. Southeast
- e. South
- f. Southwest
- g. West
- h. Northwest

24.2 How fast were you moving? \_\_\_\_\_ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

NONE

25. Did you observe the object through any of the following?

- |                 |     |    |               |     |    |
|-----------------|-----|----|---------------|-----|----|
| a. Eyeglasses   | Yes | No | e. Binoculars | Yes | No |
| b. Sun glasses  | Yes | No | f. Telescope  | Yes | No |
| c. Windshield   | Yes | No | g. Theodolite | Yes | No |
| d. Window glass | Yes | No | h. Other      |     |    |

NONE

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

A firm, egg shaped ball of fire that moves in different directions, then disappears over the N.E. horizon at great speeds.

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

The night I saw the U.F.O. I had just come out of the house about 50 minutes earlier. I have always been interested in science and astronomy. So I was looking at the stars when the object came up from the south heading north. It had a reddish-orange glow to it mixed with yellow.

Feb. 20, 1967

Dear Maj. Dumtanilla and all concerned with  
Project Blue Book:

My name is ~~\_\_\_\_\_~~. I have  
seen only one U.F.O. in my life but hope  
that I see more so I myself can study them  
and satisfy myself to an extent where I will  
be satisfied that they do ~~exist~~, and are not  
the so called ~~phenomena~~ "natural phenomena" that  
they have thus far been labeled as.

At the time I sighted the U.F.O.  
I was living in Ashland, Ky. and 14 or 15 years  
old. It was August 4, 1961, and I just happ-  
ened to be outside ~~for~~ because I could not sleep.  
I came outside about 12:15 or 12:30 A.M. and was  
looking at the stars. I had a watch and put  
the time down in a little book I called  
"Science Notes" because of what I saw. The time  
is exact right to the minute because at  
that time I was very interested in science  
and math. Why I don't know. But I always  
liked it and I still do very much. About  
1:05 to 1:08 A.M. E.S.T. there I sighted a reddish-orange  
glowing object at about  $18^{\circ}$  or  $20^{\circ}$ , or  $10^{\circ}$  to  $12^{\circ}$  above  
the horizon because of a range of hills just south  
of the house by 1 to  $1\frac{1}{2}$  miles. It rose rapidly  
by inclination and degrees very fast. At about  $85^{\circ}$   
to  $87^{\circ}$  it turned East and disappeared out of  
sight ~~at~~ because ~~the~~ roof of the house rose  
about 15 or 18 ft. above the ground. About 1:10 A.M.  
it reappeared coming from East to west at about  $75^{\circ}$   
to  $80^{\circ}$  angle. After coming to within the original  
spot it had left, it turned North-North East and  
disappeared at a great rate of speed. I would  
estimate its speed at possibly 5,800 to 6,000  
M.P.H., and about ~~300~~ miles away when I first  
sighted it, at a height of about 200 to 250 miles.

I have drawn you a small conception of what  
I saw. The speed and miles may not be correct,

so you can figure those out for yourself. If there are 15 miles in a degree, the the figures are approx. correct. If just looked up the miles in one degree, so the figures are not correct. The distance ~~from~~ from me was approximately 3,900 miles South; The height was approx. 1,800 miles; Speed approx. 47,000 M.P.H.

If you don't mind me telling you how to figure it out, it's this way. 1 Degree = over 60 miles  
DISTANCE:  $65^{\circ}$  South: by subtracting the  $20^{\circ}$  angle I spotted it at from the  $85^{\circ}$  or  $90^{\circ}$  at which it turned East.  $65^{\circ}$  total traveled from first sighting  
 $\frac{60 \text{ mile} = 1^{\circ}}{3,900 \text{ miles South.}}$

Height: Figure this by the picture enclosed by the height at its highest point in degrees multiplying it by 60 miles to one degree.  $30^{\circ}$  at highest point  
 $\frac{60}{1,800 \text{ miles height}}$

Speed: This refers to the distance traveled in 5 minutes or so. Five minutes =  $\frac{1}{12}$  of 1 hour  
Multiply 12 times 3,900 miles = About 47,000 M.P.H.

See if you don't get the same answers, if you will. Let me know your results as soon as you can, and please correct those figures if they are wrong. Thank you Very Much

My Address is:

MR. J. [REDACTED]

FR [REDACTED]

LOS ANGELES, CALIF.
