Dear Lisa

As my wife & I & Kids were watching
a movie at a drive in theater. We were facing
South at about a 45 degree angle we observed
a light the color of the stars. moving from
a westerly direction to a easterly direction.
About the size of echo - it moved on past a direct
Southward line to a eastward position and
I presume out of the same Rays as ~~showing~~
showing of the earth. Other words declined &
turned around & came back a little
higher in the sky. I first thought it was
echo as it was about its size many bigger.
& it appeared to wobble as it went
but when it turned & came back. I then
presumed it was a controlled space craft
of some sort. If it had been a jet that
high you could not have made out a
light. This was on Aug 4, 61 at about
11:30 day light saving time. I have always
thought we have some thing that our
gov. & its wishes the Right People
not to know about I hope then we are

being visited by some unknown beings
as I do not believe the Russians are ahead
of us.

Sincerely yours

(P3) My mother saw she said what appeared to
be a object about the size of a storm
Pipe and about 30 ft long traveling vertically
it came over where she was sitting & was
heading in a north westerly direction. School kids
came in and said something like spiders were
fall. This was in 56 or 57 I never did write
as it seemed like the air force & you was
always making excuses for what you saw
or trying to tell you you just imagined
you saw it. Just thought I would mention
it for what it might be worth.
