				☒ Other Poss Echo I ☐ Insufficient Data for Evaluation ☐ Unknown	
10. BRIEF SUMMARY OF SIGHTING Objt white, like pinhead bright as 1st magnitude star. Observed in N at 60° elev. Disappeared over horizon in E.				11. COMMENTS Description and flight path are characteristic of satellite Echo I. Reported duration is slightly excessive, but considering the inability of a person to estimate time lapse accurately, duration was probably shorter than reported. As the Echo I passed N of witnesses position moving SE, this was probably objt observed.
