Dear Sir,

On Nov. 26, 1961, at
11:00 clock P.M. I looked out
the window and saw an
object in the sky, white
with two bright lights
in front. I went to my
bedroom window and got
my telescope (40x6) and
watched the object. The
object changed color from
white to blue to red then
back to blue. It seemed
to be stationary in the
sky. Then it started to
move very slowly sideways
from the east to the north
east.

I have two witnesses
who say it with me.

I am a Chemical
Engineering student at
OVER

Queens College I mention
this to try to bring out
the point that this isn't
a prank letter.

Sincerely yours,
~~_____~~

(P.S. would you kindly
clarify this object and
write and tell me what
the object was.)
