5. PHOTOS ☐ Yes ☒ No		6. SOURCE Civilian			
7. LENGTH OF OBSERVATION 10 Min		8. NUMBER OF OBJECTS One		9. COURSE N	
10. BRIEF SUMMARY OF SIGHTING Observation of enlongated object like cloud appearing as solid, Appeared stationary broke into parts, gave off smoke, flickered, solid light, golden similar to red-gold sunset. Described as two foot long gleaming orange red banner with two balls dropping off end of it. Observation as sun was setting in SW moved toward the NW and at times pieces dropped off.				11. COMMENTS Observation of a cloudlike object that disapated was made toward setting sun. Color of cloud with sun shining on it. Witness' description of sighting fits with observation of a/c contrail and case listed as such.	

32. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it.

33. In the following larger sketch place an "A" at the position the object was when you *first* saw it, and a "B" at its position when you *last* saw it. Refer to smaller sketch as an example of how to complete the larger sketch.

34. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One)

☒ a. Clear sky

b. Hazy

☒ c. Scattered clouds

d. Thick or heavy clouds

WEATHER (Circle One)

☒ a. Dry

b. Fog, mist, or light rain

c. Moderate or heavy rain

d. Snow

e. Don't remember

35. When and to whom did you report that you had seen the object?

29

Day

December

Month

1961

Year

*at 50 M.
Hansford J. Pollock and
are neighbor.*

36. Was anyone else with you at the time you saw the object?

(Circle One)

☒ Yes

No

36.1 IF you answered YES, did they see the object too?

(Circle One)

☒ Yes

No

36.2 Please list their names and addresses:

MR. & MRS.

BARTLETT, ILL.

37. Was this the first time that you had seen an object or objects like this?

(Circle One)

☒ Yes

No

37.1 IF you answered NO, then when, where, and under what circumstances did you see other ones?

38. In your opinion what do you think the object was and what might have caused it?

*I feel it may have been something, or a part
from a rocket, or from something in outer space.
Because the view - disc reflection ^{by light} makes me believe it
was man-made.*

39. Do you think you can estimate the speed of the object?

(Circle One)

Yes

No

IF you answered YES, then what speed would you estimate?

20 miles an hr. (from my home to destination)

40. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes

No

IF you answered YES, then how far away would you say it was?

3 miles

DATE

Jan 15, 1962

In this particular winter afternoon (it happened to be a Friday, Dec. 29, 1961) while straightening up my living-room and as the sun was setting and going down in the West I looked out my window and noticed the bright sunset. I commented to my children, at the brightness of it, then I noticed at a small distance toward the North-end of this sunset, a separate piece as though apart, were slowly moving Northward - My son noticed a silver reflection as I did at the North end of the object and I said I wondered if it was a plane after (But it didn't fall to earth). So, as it glided along we witnessed

a circular ball of fire drop from the south end and start flat the ground - It came down just barely in view, and I could see the grey smoke and clouds of this rise up from the ground where it hit. Who should I phone? First I was told the fire dept. I said I would wait, maybe we imagined it! Then ^{as we looked again} another ball of fire started for the ground then the children became frightened and I said, "I'll phone the Police" - after calling the local Police I phoned my neighbor who lives back of my home (as she is north of our home) and as she looked out her kitchen window, she called her husband to see it. They both saw it and by this time the "bright main object" had started to fade away into the sky, moving westward.

I ran over to visit personally with these people and as we discussed this ^{plumming episode} he husband ~~Mr. [redacted]~~ said that then 5:25 P.M., as it grew dusk, there was a long trail of smoke in the exact location as when we saw the object, 10 minutes earlier, in the sky. I did not see where the second ball of fire came down. However the Police never came back to report what they found! (over)

Mr. [redacted] drove over to the Police Station
that evening, and said the Police informed
him that where this came down (the ball
of fire) was in the next county, and out
of their jurisdiction. —

Hence we never did learn the findings
of where this hit, or just what it could
have been.

I am mainly concerned, due to
the safety and well fare of my children
and all the other women and children
in our community who could suffer
due to neglect of alertness on anyone's
part. Especially if we want to defend
our country and Keep it Safe.

I never met needed anything like this
before, — (just the Eclipse of the Moon —)

Very Truly yours,

Mrs. [redacted]

January 2nd, 1962

U. F. O.
U. S. A. F.,
Washington, D. C.

Gentlemen;

Would you please mail me an up to date pamphlet on the "Unidentified Flying Object" subject? The reason for this request being that I, and my two children, along with a neighboring family, witnessed just such an occurrence last Friday afternoon, Dec. 29th, at 5:00 p.m. in the Western sky, from our window.

It resembled a blazing red beam of light, about two feet long, (from this distance) with a small silver object reflecting in the sunset. The longer we watched, it seemed to slowly move Northwest in direction, then it dropped a red ball off one end, toward the ground, and it lit along side a factory, and we saw the snow and smoke arise and continue smoking for 15 minutes.

2

We kept wondering what this could be.
Meanwhile the large blazing object kept moving
north and then the second "ball of fire" started
for the earth this was when I went to our
phone and called the Police - In I believed
they may help wherever this landed.

The children and I were naturally frightened
as I had heard vaguely somewhere of these
things occurring in the atmosphere. I never
thought I would witness anything such as
this.

The Police drove in the direction where the
smoke was rising, but never came back to
inform me of what they actually found.

Could this have been a piece from a crater?
Or a part left floating in the atmosphere from the
many Rockets put into space? Or part of another
planet?

These questions as I am still left to wonder
just what this could have been. It actually
occured - Thank you.

MRS. [REDACTED]

[REDACTED] 1st.

% Bartlett, Illinois

10 January 1962

Dear Mrs. [REDACTED]

Your recent letter concerning an unidentified flying object has been received.

From the information furnished, it is not possible to state what the object was. I have enclosed three copies of our standard questionnaire. Request you complete one of these and have other witnesses complete the remaining copies.

If possible, try to determine what your local police were able to learn as a result of your call. You might also determine if the fire and smoke near the factory was a result of your observation.

Your interest in reporting this sighting is appreciated. Please forward the completed questionnaires in the enclosed pre-addressed envelopes. No postage is required.

Sincerely,

WILLIAM T. COLEMAN, JR.

U.S. AIR FORCE TECHNICAL INFORMATION SHEET

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes, and will be regarded as confidential material. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that, if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

29th December 1961
Day Month Year

2. Time of day: 4:55 P.M.
Hour Minutes

(Circle One): A.M. or P.M.

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

[REDACTED] Bartlett Illinois
Nearest Postal Address City or Town State or Country

Additional remarks: Looking out my living-room window facing west

5. How long was object in sight?

10
Hours Minutes Seconds

5.1 How was time in sight determined? (at sunset time.)

a. Certain
b. Fairly certain

c. Not very sure
d. Just a guess

6. What was the condition of the sky?

DAY
a. Bright
b. Cloudy

NIGHT
a. Bright
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right

d. To your left
e. Overhead
f. Don't remember

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight — pitch dark
- d. Don't remember

9. The object appeared:

(Circle One): ☒ a. As a light b. Shiny c. Dark d. Don't remember

10. If it appeared as a light, was it brighter than the brightest stars?

yes

11. Did the object:

(Circle One for each question)

- | | | | |
|---|--------------------------------------|-------------------------------------|----------------------------------|
| a. Appear to stand still at any time? | ☒ Yes | ☐ No | ☐ Don't Know |
| b. Suddenly speed up and rush away at any time? | ☐ Yes | ☒ No | ☐ Don't Know |
| c. Break up into parts or explode? | ☒ Yes | ☐ No | ☐ Don't Know |
| d. Give off smoke? | ☒ Yes | ☐ No | ☐ Don't Know |
| e. Change brightness? | ☐ Yes | ☒ No | ☐ Don't Know |
| f. Change shape? | ☐ Yes | ☒ No | ☐ Don't Know |
| g. Flash or flicker? | ☒ Yes | ☐ No | ☐ Don't Know |
| h. Disappear and reappear? | ☐ Yes | ☒ No | ☐ Don't Know |

12. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes ☒ No Don't Know. IF you answered YES, then tell what it moved behind: _____

13. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes ☒ No Don't Know. IF you answered YES, then tell what in front of: _____

14. Did the object appear: (Circle One): ☒ a. Solid b. Transparent c. Vapor d. Don't Know

15. Did you observe the object through any of the following?

- | | | | | | |
|--|--------------------------------------|--------------------------|---------------|---------------------------|--------------------------|
| a. Eyeglasses | ☐ Yes | ☐ No | e. Binoculars | ☐ Yes | ☐ No |
| b. Sun glasses | ☐ Yes | ☐ No | f. Telescope | ☐ Yes | ☐ No |
| c. Windshield | ☐ Yes | ☐ No | g. Theodolite | ☐ Yes | ☐ No |
| ☒ d. Window glass | ☒ Yes | ☐ No | h. Other | <u>out doors, also.</u> | |

16. Tell in a few words the following things about the object.

a. Sound No sound

b. Color Similar to red-gold sunset.

17. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

(A long trail of smoke appeared 10 to 15 minutes later in the western sky not too distinct, as it was going on dusk - 5:20 to 5:30 P.M. -)

18. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
 - b. Like a bright star
 - c. Sharply outlined
 - d. Don't remember

e. Other an object, clearly defined.

19. IF there was MORE THAN ONE object, then how many were there? 2 Small Precious circles
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

20. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

21. How large did the object appear to you as compared to an object with which you are familiar?

about the length of 2 or 3, 1.2" rulers.

22. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

23. Did the object disappear while you were watching it? If so, how? *After the second ball of flame slowly descended, it (the object) seemed slowly into the vastness sky-like fading away into the distance.*

24. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

a two foot long, gleaming orange-red banner, with eventually, the two orange-red circular balls dropping off the South-end of it, later on.

25. Where were you located when you saw the object?
(Circle One):

- ☒ a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane (type)
- e. At sea
- f. Other _____

26. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- ☒ c. In open countryside? ~~X~~
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other In my house, in a suburb

27. What were you doing at the time you saw the object, and how did you happen to notice it?

The sun was setting, and I was arranging the
living-room drapes while looking out the
window when I noticed this lengthy streak in the sky.

28. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

28.1 What direction were you moving? (Circle One)

- | | | | |
|--------------|--------------|--------------|--------------|
| a. North | c. East | e. South | g. West |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

28.2 How fast were you moving? _____ miles per hour.

28.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

29. What direction were you looking when you first saw the object? (Circle One)

- | | | | |
|--------------|--------------|---|--------------|
| a. North | c. East | e. South | g. West |
| b. Northeast | d. Southeast | ☒ f. Southwest | h. Northwest |
| | | | i. Overhead |

30. What direction were you looking when you last saw the object? (Circle One)

- | | | | |
|--------------|--------------|--------------|--|
| a. North | c. East | e. South | ☒ g. West |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |
| | | | i. Overhead |

31. If you are familiar with bearing terms (angular direction), try to estimate the number of degrees the object was from true North (thru east) and also the number of degrees it was upward from the horizon (elevation).

31.1 When it first appeared:

- a. From true North _____ degrees.
- b. From horizon _____ degrees.

31.2 When it disappeared:

- a. From true North _____ degrees.
- b. From horizon _____ degrees.
