Dear Sir,

Last night I observed something in the sky that might be of some interest to you.

At six thirty last night (March 16). I heard a noise high in the sky. As I looked up, I saw a light in the sky that moved across the sky. It moved in a south-westerly direction and was out of sight in approximately four minutes.

After the light disappeared another "object" with six lights came from the direction from which the first light disappeared. This object traveled at a greater speed going from west to east. At a distance and surrounding this object were smoke and bright sparkling flecks.

Sincerely,

Dear Messrs. [REDACTED]

Thank you for your letter of 17 Mar 62. Would you each please complete the enclosed FTD form 164a, ~~and~~ then mail them in the enclosed envelope so we might have an opportunity to assess this sighting.

In case others also saw the same object, would you please have them fill in the additional forms?

Again, thank you.
