Dear Mr. [REDACTED]

Your completed questionnaire concerning an unidentified aerial object sighting has been forwarded to the Air Force for evaluation. Lack of a specific date and corroborating information from additional witnesses preclude an accurate evaluation of your sighting. In light of new evidence the Air Force would be happy to re-evaluate the case.

Statistical information on the Air Force's unidentified aerial phenomena program is forwarded for your information.

Sincerely,

Gentlemen:

I am sending you this information about a phenomenon I saw occur in the sky. I wish to apologize for the lateness of this report, but I didn't know where to report it to. A friend of mine who sent you a report also told me of the contained questionnaire. I immediately filled it out and mailed it to you. I hope I have done it correctly.

I was standing in my schoolyard when I first noticed it. It must have "materialized" as quickly as it disappeared, for I would have had to been almost blind not to notice it right off (as, I stare into space alot). I saw a bunch of little dark specks coming together. This is the only way I can describe it. Many descriptions have been given to me from what I told them (my friend, but this is the best way to my knowledge. They came together to form what appeared to be a perfect solid-massed circle. It was light-brown. It remained that way for a few minutes. (By the way, when these specks-there were many-were grouped, no others joined them.) There were others who saw this, but paid no attention. I don't remember who they were, for I just called to the ones nearest me. I glanced away and when I looked back, it was gone without a trace of being there before. Only clear blue sky remained.

I would (and my friends) appreciate it immensely if you could tell me what it was. Also, as I am now terribly interested in this sort of thing, would you please send me the latest findings or reports of UFO's?

Thank you very much.

Yours very truly,
