Dear Mrs. [REDACTED]

Your letter to the Federal Bureau of Investigation has been referred to the Air Force for reply. We are sorry for the delay in answering your letter.

The tin-foil strips you refer to are Chaff. Dropped from aircraft in bundles, they quickly separate and each piece of chaff gives a radar return resembling an aircraft. These radar returns clutter the monitoring radar scopes masking the movement of the aircraft. They are extremely effective as they fall slowly and permit the aircraft to pass undetected.

Sincerely,

WILLIAM J. LOCKADCO

Mr. J. E. Hoover
Washington, D.C.

Dear Sir;

Not knowing where to send
this specimen, I have turned
to you as I believe you will
either give me correct answers
or refer them to Dept. which
they belong in? I know you are
very busy and I hate to bother
you.

Please let me know what
these tinypill strips are.
We have found just all over
and are unable to make
them as they come from an
airplane. First started seeing
them 4 to 5 yrs. ago.
There are a lot of different con-
ditions on what they are.
Please write the same.

Thank you.
