10. BRIEF SUMMARY OF SIGHTING Object in straight flight. Appeared to have heat coming from sides. Shape like saucer. Passed directly overhead. Clear bright day. 4 observers. Color bluish grey, sound like planes wings cutting through air. Speed estimated at 1500 mph. Altitude and distance compared to a jet airliner except that speed was 3X as great. Observed from top of building. Object initial observation gave size as basketball. Approached and became size of tire. Witness climbed down ladder and got camera (Polaroid) climbed back up and took 4 shots without giving the necessary 60 second developing time.		11. COMMENTS In all probability the object was an a/c as the speed estimated by the duration, the sound etc. fit with this analysis. Also the other 3 witnesses refuse to corroborate the sighting as anything unusual. report received over one year after sighting and no attempt is being made to investigate this sighting at present. Case carried as insufficient data in view of limited information (Only one of four witnesses report received.)

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you last saw it. Place an "A" on the compass when you first saw it. Place a "B" on the compass where you last saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

ONE OTHER OBJECT, FAR TO THE SW WAS A HELICOPTER BUT MUCH LOWER THAN THE UNKNOWN OBJECT. THE HELICOPTER FLEW OVER US AT ABOUT 500-600 FT IT WAS WHILE WE WERE WATCHING THIS HELICOPTER THAT WE SPOTTED THE UNKNOWN OBJECT. THERE WAS NO CHANCE OF THE PILOT OF THE HELICOPTER TO SIGHT SAME OBJECT AS HE WAS AT LEAST 2 OR 3 MILES TO THE LEFT AND HIS BACK TOWARDS OBJECT.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

NO. NEVER. AND I AM AN AMATEUR SKY GAZER, I KNOW ABOUT CLOUDS, WEATHER BALLOONS, SATELLITES AND REFLECTIONS OF HIGH FLYING BIRDS AND TRAILY DISTORTIONS CAUSED IN THE ATMOSPHERE.

we were (4) working on a chimney in Burlington, MASS. ON A VERY CLEAR DAY. THERE WAS A HELICOPTER SPRAYING IN SECTORS ALONG THE HIGHWAY WHEN HE WAS THROUGH HE FLEW LOW AND DIRECTLY OVERHEAD. WHAT BROUGHT OUR ATTENTION TO HIM WAS THE WAY HE WAS FLYING, UP + DOWN ALMOST SITTING ON THE TREES. WE FOLLOWED HIS FLIGHT UNTIL HE WAS ABOUT 1 MILE AWAY FROM US. WHEN WE NOTICED THIS OBJECT COMING TOWARD US AND REALLY TRAVELLING, WITHIN A MINUTE IT CAME INTO VIEW THE SIZE OF A TRACTOR TIRE, FROM THE SIZE OF A BASKETBALL, WHEN WE FIRST SIGHTED IT. ALWAYS HAVING A CAMERA WITH ME I WENT DOWN THE STAIRS + BACK UP ON THE ROOF WHICH IS 20 FT. FROM THE GROUND I DID NOT HAVE TIME TO SET MY F. SETTINGS OR TIME TO LET EACH FILM SHOT HAVE THE 60 SECOND DEVELOPING TIME, I JUST SHOT AND PULLED TO THE NEXT SHOT + ETC. 4 TIMES. THE SHOTS CAME OUT & UNDEVELOPED. BUT YET CLEAR ENOUGH TO SEE THE OBJECT. AFTER WORK I GAVE THE SHOTS TO [REDACTED] WOBURN, MASS. THERE WERE NO PROTRUSIONS, WINDOWS OR ANTENNA SYSTEMS WHATSOEVER. JUST A BIG SOLID ROUND OBJECT MAKING THE ONLY NOISE OF WIRES CUTTING THROUGH AIR. AND THE EPGES SHOWING 40 FT WAVES OF SOME SORT.

Request for UFO Information ([REDACTED])

Hq USAF SAFOI-PB (Mrs Gaiser) ✓
Wash 25 D C

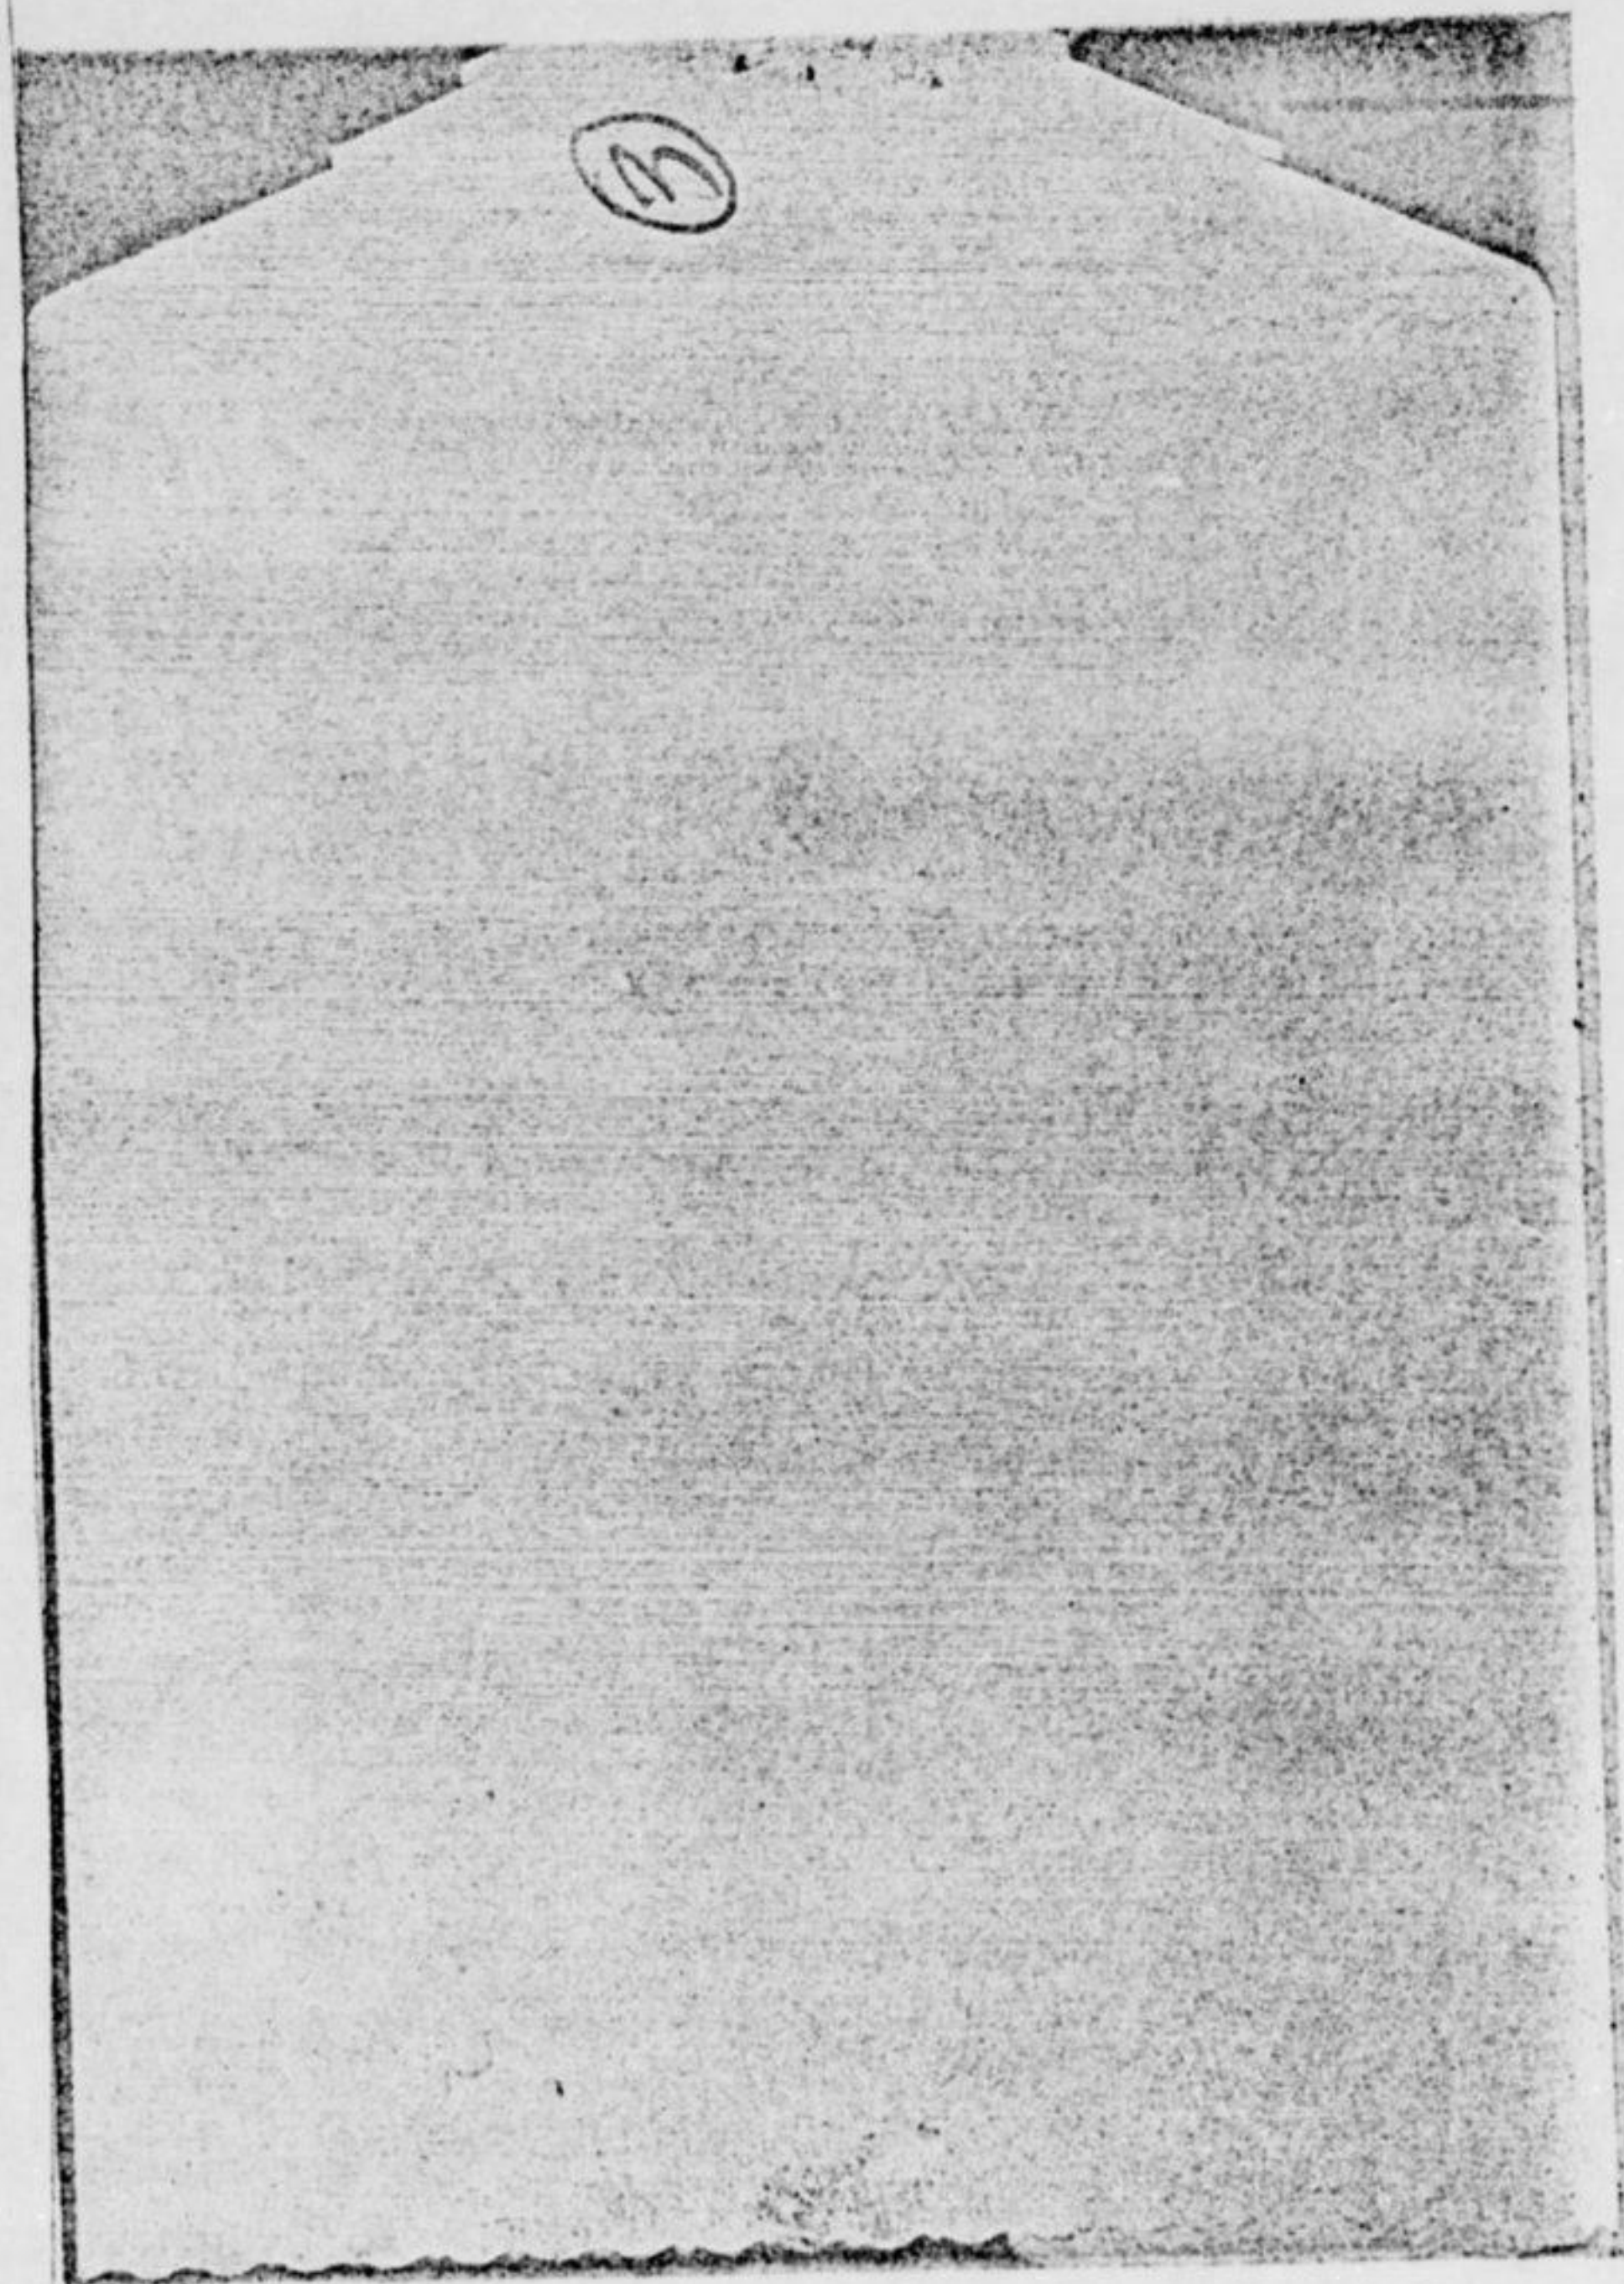

1. The following information is provided to assist you in a reply to [REDACTED] (member of NICAP) to his letter of 25 Jan 64. This letter resulted from previous correspondence to [REDACTED] in which we stated that information provided to him was with the understanding that no additional information would be given unless specifically directed by your office. In your reply to [REDACTED] on 23 Jan 64 you informed him that the Air Force did not have resources allotted to Project Blue Book to answer specific questions from individuals. It is suggested that this statement be made again and [REDACTED] so informed that he will not receive additional information, since he is not considered a member of the press or bona fide researcher. All previous correspondence to him has resulted in additional research and many man hours expended in support of his hobby.

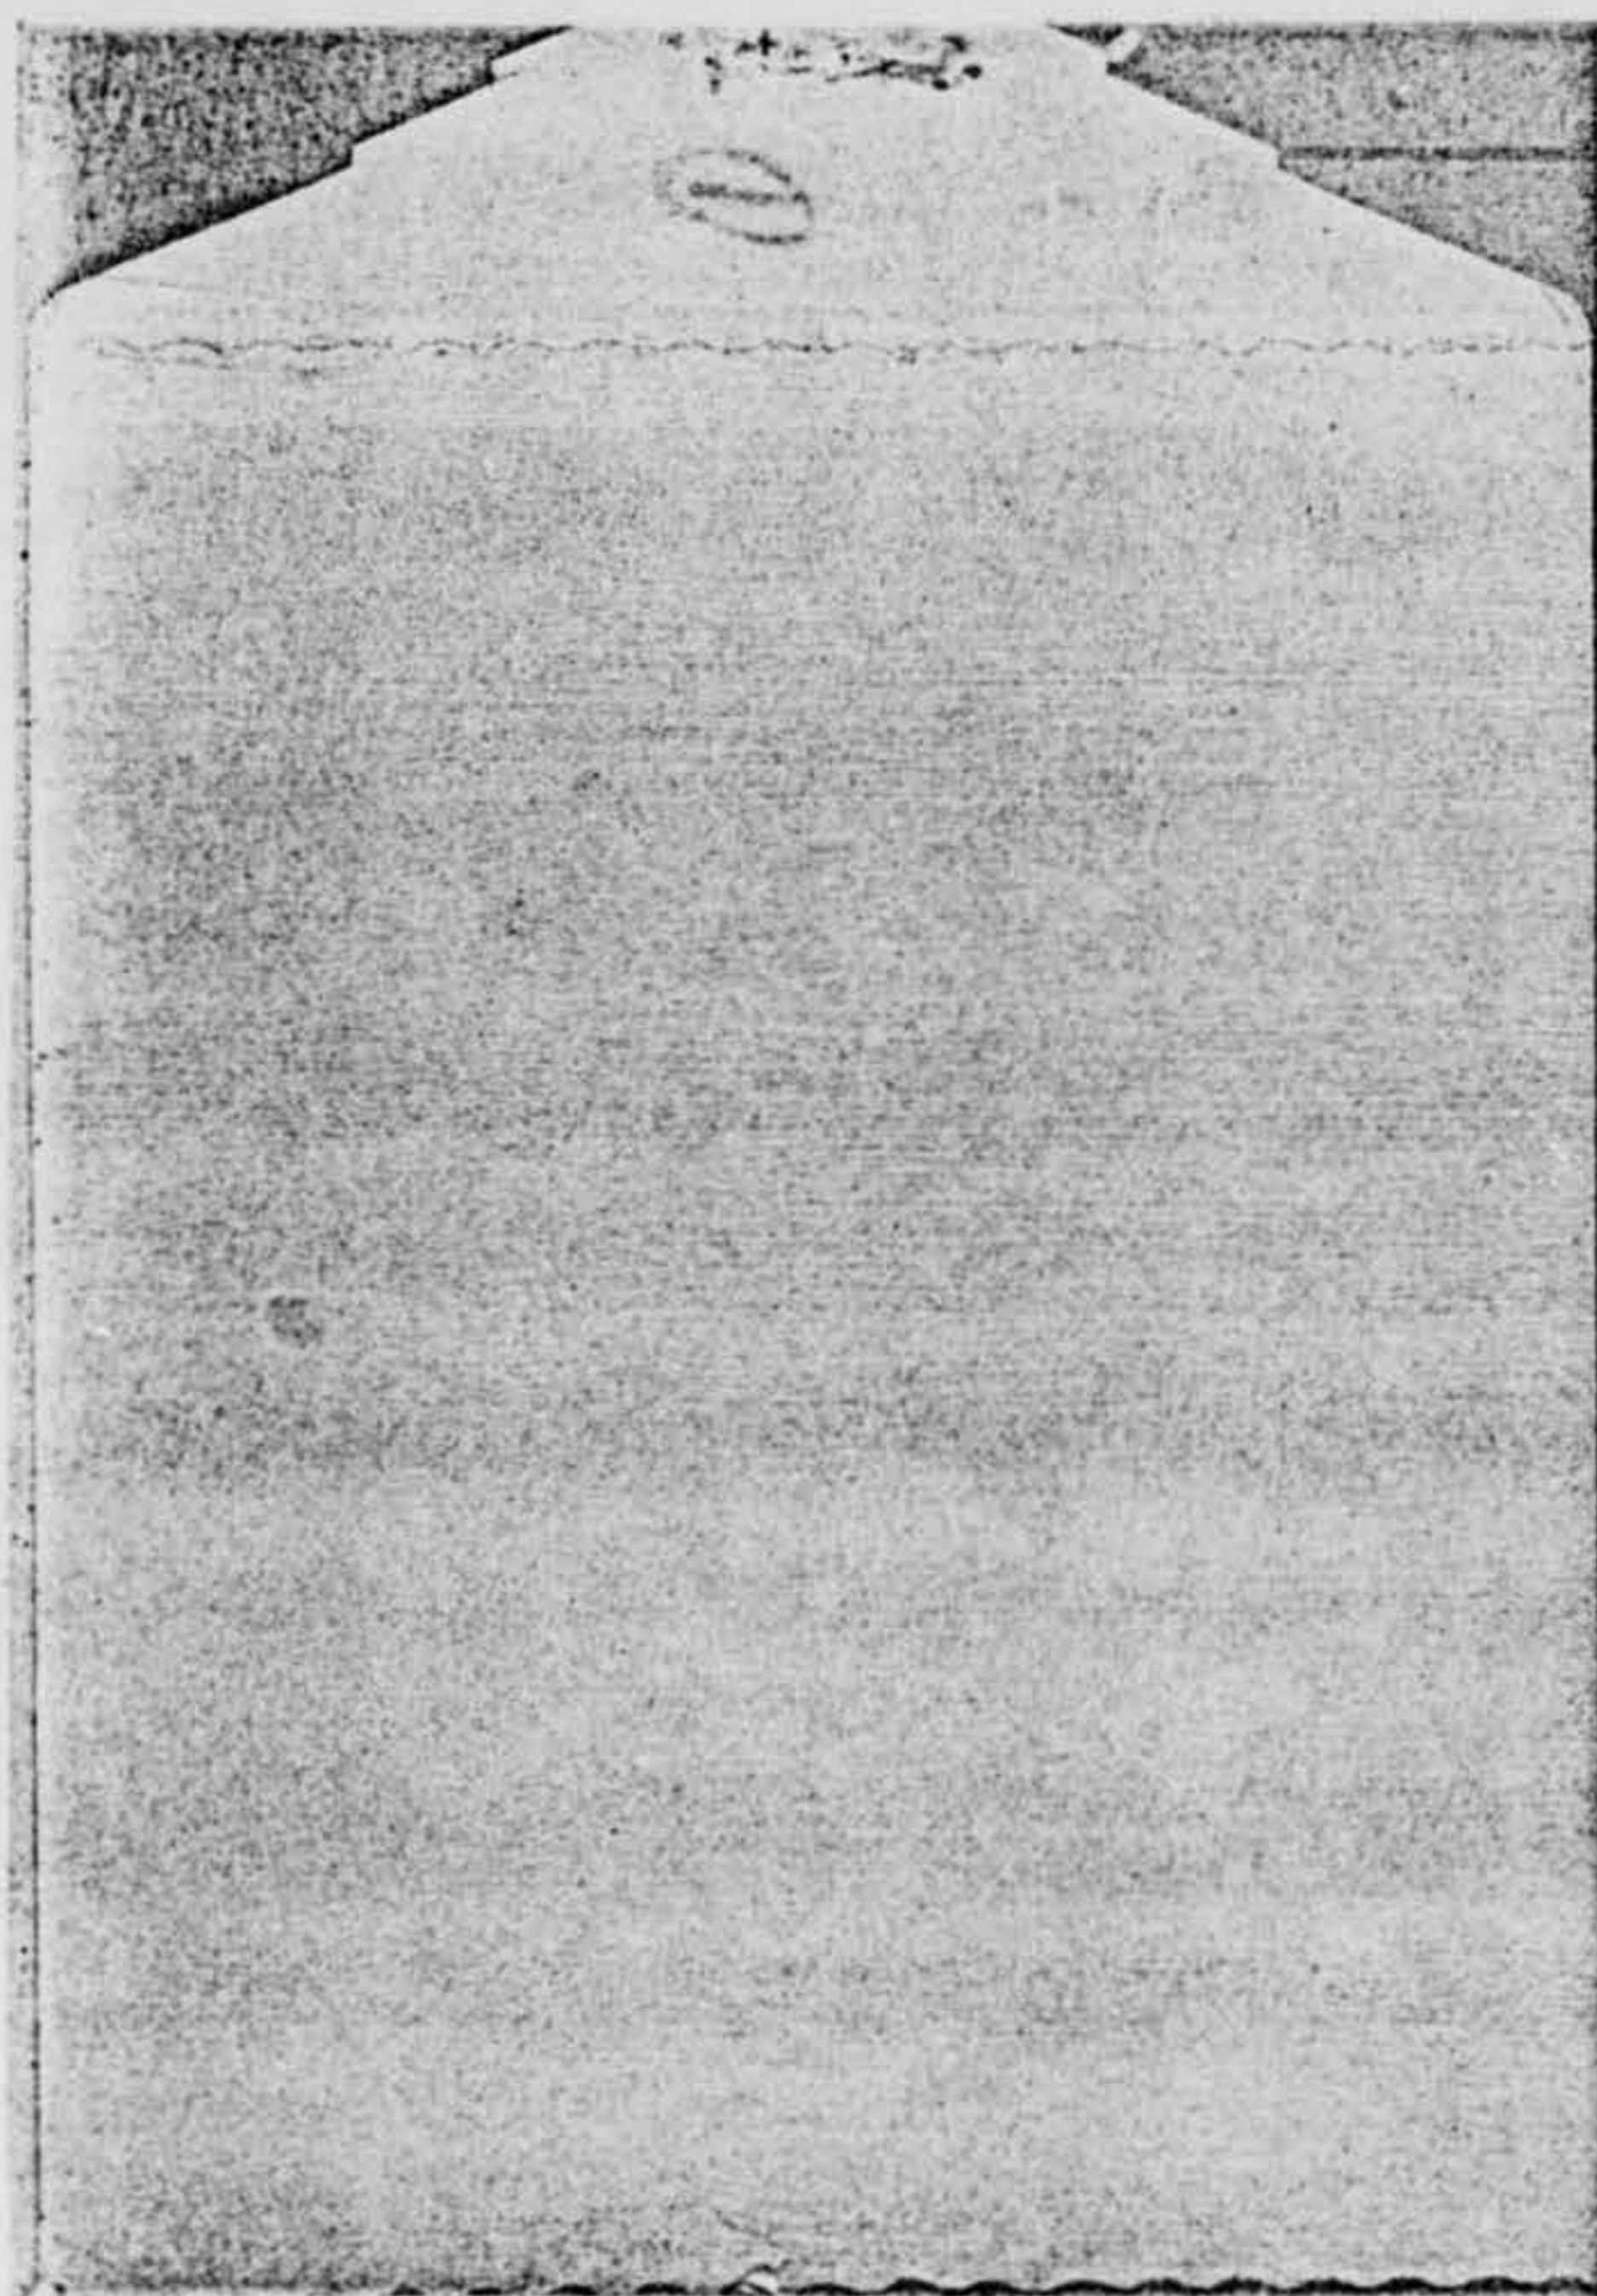

2. The photographs taken on 25 May 62 are obvious hoaxes which any untrained observer would easily note. The four photographs were taken by a Poloroid Camera. The speed of the object indicated by the principle witness, [REDACTED] was estimated at 1500 mph yet the objects show no lateral blurring and are sharply outlined. Also, the witness stated that the photos were taken without giving the necessary 60 second delay in developing time. He stated that he pulled the slide as fast as he could. The photographs indicate at least a 30 second exposure.

3. In view of the inconsistencies by the stated report and the photographs submitted the case has been evaluated as an obvious hoax.

4. The sighting of 1 Nov 62 from Wolburn Massachusetts has been attributed to psychological causes. It will be noted that the observer had 10 minutes in which to summon additional witnesses.

There are many inconsistencies in the report. For example:

a. The object was described as "brighter than a bright sunlight" yet minute details of the alleged object were given.

b. Use of such statements as "It vanished while watching it, faster than my eye could follow it. In the distance straight up".

c. The distance of 2000 ft and the size reported is inconsistent with detail shown.

d. The witness indicated that clicking sound was heard and a small appendage moved in and out of the rear of the object. These statements are also inconsistent with the size and distance of the object from the observer.

5. The Woburn, Massachusetts of 1 Nov 62 and the Burlington, Massachusetts of 25 May 62 sightings were not included on the list supplied to [REDACTED] because they were received subsequent to final review of the 1962 cases. They were evaluated upon receipt as:

a. 1 Nov 62, Woburn, Mass- Other (Psychological Causes)

b. 25 May 62, Burlington, Mass- Insufficient Data - The photos were not received.

Evaluation of the Woburn case remains the same. The evaluation of the Burlington sighting has been changed to other - Hoax.

January 25, 1964

Dear Major Jacks:

Regarding your recent letter concerning New England 'flying
saucers' sightings of 1962 I would like to make the following comments.

First of all, the Nov. 1, 1963 UFO close encounter sighting over
Burlington, Mass. that included a long projection from the object and an
increase in background radiation above normal, which was checked by ~~SA~~
Civil Defense and myself was not even included in your list at all and
this report was mailed to PROJECT BLUEBOOK many months ago (on official
Air Force questionnaires also).

The other sightings included photographs taken by a Polaroid
Sama Camera (sighting reported to Air Force Project Bluebook on official
questionnaire) was also investigated by me on May 25, 1962, at Burlington,
Mass.

Enclosed are the photographs that were taken during this sighting,
numbered in order of how they were taken and viewed by the observers. I
would like the Air Force to analyze them for me and return them within
30 days. If I do not receive them by the end of February, 1964 I shall have
to request their return through official channels. Hope that you enjoy my
other enclosed information. Thanks for your cooperation in these important
matters.

Sincerely and Cordially yours,

Easton, Pa.

February 12, 1964

Dear [REDACTED]

This is in reference to your letters of January 25, 1964, and your note of February 9, 1964. The pictures you submitted are returned herewith as per your request.

The photographs are considered obvious hoaxes for the following reasons: the four photographs were taken by a Polaroid Camera. The speed of the object indicated by the principle witness, [REDACTED] was estimated at 1500 mph, yet the objects show no lateral blurring and are sharply outlined. Also, the witness stated that the photos were taken without giving the necessary 60 second delay in developing time. He stated that he pulled the slide as fast as he could. The photographs indicate at least a 30 second exposure. In view of the inconsistencies in the stated report and the photographs submitted, it is considered that this is a hoax.

As previously stated, in our letter of January 23, 1964, the Air Force does not allot resources to Project Blue Book to engage in lengthy discourse on specific UFO questions except to the bona fide news media or to scientific researchers. If you can submit proof of accreditation to either of these categories, further consideration will be given to answering your detailed questions.

Sincerely,

MASTON M. JACKS
