1. DATE 8 Jul 62		2. LOCATION British Honduras, Central Area		12. CONCLUSIONS ☐ Was Balloon ☒ Probably Balloon ☐ Possibly Balloon ☐ Was Aircraft ☐ Probably Aircraft ☐ Possibly Aircraft ☐ Was Astronomical ☐ Probably Astronomical ☐ Possibly Astronomical ☐ Other ☒ Insufficient Data for Evaluation ☐ Unknown	
3. DATE-TIME GROUP Local 1930GST GMT 09/0130Z		4. TYPE OF OBSERVATION ☒ Ground-Visual ☐ Ground-Radar ☒ Binoculars ☐ Air-Visual ☐ Air-Intercept Radar			
5. PHOTOS ☐ Yes ☒ No		6. SOURCE Civilian			
7. LENGTH OF OBSERVATION not rptd		8. NUMBER OF OBJECTS one		9. COURSE SSW then NE	
10. BRIEF SUMMARY OF SIGHTING Brilliant obj moving SSW obsvd in the SW quadrant. Went for BX & came back & obj in about the same location. Changed direction to the NNE, crossed zenith, heading NE. Descended to about 20dgr elev, hovered. Faded gradually fm sight. Multiple witnesses.				11. COMMENTS When viewed at distance difficult to determine whether obj was approaching or going away fm obsvr. Since all movement was NE-SW oriented w/the final flight to the NE the possibility of a Satellite sighting is evident. However, Echo would have passed the area half an hour earlier & the light conditions (dusk) are such that the Satellite might not be visible even then. No duration rptd. Insuf data.

July 3, 1962

Dear Sir,

On the evening of July 8th at
the geographic position Latitude $17^{\circ}54.5'N$,
Longitude $87^{\circ}36.5'W$. I sighted at 19:30
E.S.T. in the S.D. quadrant a
brilliant object moving S. I tried to
interrupted observation to get the dimensions
and found it again without much
change in position. Almost immediately it
changed course into the N. W. E. direction.
It crossed my zenith in an erratic course
into the N. E. It moved at
about 20 degrees altitude and decreasing
altitude at a slow gradually from
sight. My Mother, Father, and older
brother all saw this object. I hope
this information is of use to you, and
would like to hear if you have information
about it was

Sincerely,
