Dear Gentlemen:

I am writing in regard to my reported sighting of an unidentified flying object (UFO). I believe that in my earlier letter I asked if you could possibly give me some explanation as to what it was, and then you sent me an eight page questionnaire. I promptly filled it out and sent it back to you. So in conclusion, could you possibly send me an answer to this letter and my question. Thank you very much.

Yours truly,

Dear Sir:

During the early summer of 1962, when I had just begun the process of being interested in astronomy and space science, I was observing the ~~sun~~ sunset with binoculars. When or after the sun had gone down an object caught my eye.

It was of the fifth or sixth and appeared to be changing color, red being the dominant color. It seemed to be in a fixed position for about four to eight minutes and then started moving down towards the horizon, following a stairlike decline. After about three minutes it was gone.

I would appreciate it very much if you would investigate this for me. ~~I~~ I have attempted to explain this but I cannot find a good explanation for this phenomenon.

Yours, truly
