

PROJECT 10073 RECORD CARD

1. DATE <u>5 November 1962</u>	2. LOCATION <u>Little Rock, Arkansas</u>		12. CONCLUSIONS ☐ Was Balloon ☐ Probably Balloon ☐ Possibly Balloon
3. DATE-TIME GROUP Local _____ GMT <u>05/1130Z</u>	4. TYPE OF OBSERVATION ☒ Ground-Visual ☐ Ground-Radar ☐ Air-Visual ☐ Air-Intercept Radar		☐ Was Aircraft ☐ Probably Aircraft ☐ Possibly Aircraft
5. PHOTOS ☐ Yes ☒ No	6. SOURCE <u>Civilian</u>		☐ Was Astronomical ☐ Probably Astronomical ☐ Possibly Astronomical
7. LENGTH OF OBSERVATION <u>30 minutes</u>	8. NUMBER OF OBJECTS <u>one</u>	9. COURSE	☒ Other <u>War games</u> ☐ Insufficient Data for Evaluation ☐ Unknown
10. BRIEF SUMMARY OF SIGHTING Single bright star-colored object, elongated, about 3 feet in length with vapor trail above object observed for 30 minutes prior to dawn. Faded with rising of sun. Object at 25 dgr elevation in SE.		11. COMMENTS Rpt that Operation Firefly in progress at Eglin. This operation accounts for the vapor trails. Star Spica just rising in SE. Would be dimmed with rising of sun about 30 minutes later. However, the object was reported at a 25 dgr elevation & this would tend to rule out Astro bodies, since no 1st magnitude objects were in the rptd position. Case evaluated as Operation Firefly effects.
