

PROJECT 10073 RECORD CARD

1. DATE 20 November 1962		2. LOCATION Klamath, California		12. CONCLUSIONS ☐ Was Balloon ☒ Probably Balloon ☐ Possibly Balloon ☐ Was Aircraft ☐ Probably Aircraft ☐ Possibly Aircraft ☐ Was Astronomical ☐ Probably Astronomical ☐ Possibly Astronomical ☐ Other _____ ☐ Insufficient Data for Evaluation ☐ Unknown	
3. DATE-TIME GROUP Local _____ GMT 20/0820-0845Z 0900Z		4. TYPE OF OBSERVATION ☒ Ground-Visual ☐ Ground-Radar ☒ Air-Visual ☐ Air-Intercept Radar			
5. PHOTOS ☐ Yes ☒ No		6. SOURCE Civilian & Military			
7. LENGTH OF OBSERVATION 2 seconds air 25 minutes ground		8. NUMBER OF OBJECTS one		9. COURSE - - -	
10. BRIEF SUMMARY OF SIGHTING Diamond shaped like star, creamy white, viewed for 25 mins. Obj was very bright compared to background stars & had a stream of light or vapor coming fm rear of obj & extending 1/2 to 3/4 of its length. Also had a rotating beacon like obj around the bottom. Erratic flight including hovering. Initial obsvation at 200 dgr az 30-45 dgr elevation. Disappeared at approximate same area. Obj observed a/c in area. Gave impression of being strobe or light. Estimated speed mach two (2) in error since obj apparently stationary.				11. COMMENTS Balloon sighting characteristics present. Flight should have been to the East. Only conflicting info w/analysis as balloon is that obj disappeared in same general area. Flight erratic & included hovering. Possible leak causing smoke or vapor impression fm/near obj. Disappearance given as hazed out. Sufficient data for analysis as balloon. A/C viewed obj 15 mins after ground rpt received.
