

PROJECT 10073 RECORD CARD

1. DATE 2 August 1963		2. LOCATION Camp Springs, Maryland Fort Belvoir, Virginia		12. CONCLUSIONS ☐ Was Balloon ☐ Probably Balloon ☐ Possibly Balloon ☐ Was Aircraft ☐ Probably Aircraft ☐ Possibly Aircraft ☒ Was Astronomical <i>Fomalhaut</i> ☐ Probably Astronomical ☐ Possibly Astronomical ☐ Other ☒ Insufficient Data for Evaluation ☐ Unknown	
3. DATE-TIME GROUP Local _____ GMT 03/0330Z		4. TYPE OF OBSERVATION ☒ Ground-Visual ☐ Ground-Radar ☐ Air-Visual ☐ Air-Intercept Radar			
5. PHOTOS ☐ Yes ☒ No		6. SOURCE military and civilian			
7. LENGTH OF OBSERVATION 40 min plus		8. NUMBER OF OBJECTS one		9. COURSE West/S/West	
10. BRIEF SUMMARY OF SIGHTING Round object, white, like a star in the Southern sky at 20 deg elevation. Report that object remained visible and had motion from West to South to West. Object had variable speed and variable intensity.				11. COMMENTS Antares at 220 deg azimuth 10 deg elevation. Fomalhaut at 140 deg azimuth 10 deg elevation. These are the only astronomical bodies of the first mag in the Southern sky from this position at this time. It is possible that the direction reported as South may have been in error and one of these objects misinterpreted. It is also possible that a balloon or aircraft operating in the area was the cause. The data presented is insufficient for analysis.
