REPLY TO
ATTN OF: TDEW

SUBJECT: UFO Sighting (St Clair County, Michigan)

4 FEB 1964

TO: Hq USAF SAFOI-PB
Wash 25 D C

1. The following information is provided to assist you in a reply to Congressman Harvey regarding a UFO sighting in Saint Clair County, Michigan, on 12 Nov 63.
2. It is believed that the object sighted by Deputy Baker was a helicopter. However, efforts to identify a specific vehicle have proved negative. Reasons for belief that the object was a helicopter are as follows:
 - a. During telephone conversation between Doctor J Allen Hynek and Deputy Baker information received indicated that this was the most probable cause.
 - b. A helicopter was observed during the day light hours on subsequent days by other persons in the area and their stories of the observations were carried in local newspapers.
 - c. Efforts to identify these subsequent observations with a particular helicopter also proved negative.
3. Should Congressman Harvey desire further investigative efforts to identify known helicopter activity in the area, officials from Selfridge AFB may be directed to conduct this investigation. However, we feel that additional expenditure of funds and manpower is not warranted in view of the long delay in time since the initial report. Also, we feel that there is sufficient circumstantial evidence to justify an evaluation of this sighting as a helicopter observation.
