Gentlemen:

1-Kindly send me a "U.S. Air Force Technical Information set of forms to fill out for a sighting of a U.F.O. in this area.

2-I would also appreciate the name and address of person or Base nearest this area, containing a Radar set-up, which I can call to ask for verification of local sightings according to their daily log.

In this manner I can determine a true sighting from a hoax.

Also, I desire to pass on information or alert such base of any current sighting and coordinate activities from here to there.

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

Object drew my attention first as I came out of the front door of home. It shone brighter than moon and was indistinguishable at first but as it neared me and passed directly overhead its outline was clear and unmistakable, as was its color. No wings, ports or stabilizer ^{or tail} was visible when it passed me and disappeared suddenly behind our mountains.

I first determined its sighting, where over the edge of Palmyra or boat #73 approximately in the distance. From there to disappearing point (at same altitude) is about 8 miles.

I waited about 5 minutes after it disappeared for any sound (jet) explosion, etc. but I heard none. Point was practically N.E. about size of jet trainer.
