SUBJECT: Unidentified Flying Objects

Norad confirmed that it was a balloon. A U-2 pilot pilot confirmed the identification.

Received from Major Hart, Comd Post, 13 April 64, 1400

Re: Unidentified Flying Objects

Norad passed the following information to MACC:

Norad believes it is a balloon drifting eastward at 17 knots.

One of the two F-106 pilots was able to lock on to it at 50,000 ft., but was not able ~~to~~ to hold.

Neither pilots reported visible fighting.

Norad is continuing to make all effort to identify this object or objects.

Received from Colonel Welms, Command Post, 10 April 64, 1140

SUBJECT: Unidentified Flying Objects

Original Message

NMCC, Norad advised that there were 6 to 12 unidentified flying objects at 30 miles East of Merced, California. Radar picked up 12 objects at altitudes 60,000 ft., 90,000 ft., and higher elevations.

F-106's were scrambled at Castle Air Force Base. There were no results because of high altitudes. They are checking the possibility of sending U-2's.

Later Sent to Air Staff

Objects were following a 60 mile race-track pattern. F-106's were ~~flying a 90,000 ft. altitude.~~ Pilots locked on to some of the objects but could not keep the lock. Norad said they were sending 2 more ~~XXXXX~~ aircraft with pilots in pressure suits.
