Much publicity following Socorro sighting. Witness had been drinking heavily.				11. COMMENTS Area where light was emitted was used as a dumping area. Burned spot at this location.	

A 20-year-old Edgewood youth says he fired six shots at one of New Mexico's unidentified flying objects. State Policeman Tommy Richardson of Moriarty reported he received a telephone call from Don Adams of Edgewood about 1:30 a.m. today.

The report said Adams told of seeing the object about 100 feet off the ground. He said it appeared to be a fluorescent or glowing green-colored object about 25 feet long.

He told the officer he drove his car under the object and his car stalled. The youth reported he then got out and fired six shots at the object, reloaded and fired again, without effect. The officer said he did not determine if Adams was using a rifle or a pistol.

Adams' account was another of several such reports that have kept New Mexico and military authorities busy since Friday.

Newspaper offices and broadcast stations were receiving a few telephone calls about similar sightings but most callers would not identify themselves, saying they did not want to be ridiculed.

The reports came from points following a line from near Tlalballo Reservoir south of Truth or Consequences, north to an area near Espanola.

Similar Reports

All the reports are similar in that they describe oval or egg-shaped objects with size estimates ranging from the size of a car to about 30 feet or longer. State police and military officials have confirmed finding scorched earth at the sites, and wedge-shaped depressions that officers say appear to have been left by some type of landing gear.

Spokesmen at all New Mexico military bases say they have no such aircraft fitting the descriptions.

Reports from Monday night included:

A man who refused to identify himself because he said he would be laughed at, said he saw a ball of red flame land near Las Vegas. He made no estimate of the size of the ball. He said he was going from Lake McAllister to Las Vegas when he saw the object.

New information has been revealed about other sightings.

State Police Sgt. Sam Chavez said he was told by Socorro policeman Lonnie Zamora that the UFO he saw Friday, the first of the series of sightings, had red markings on its silvery side. Chavez said Zamora told him the design was an inverted V with three bars crossing it, but that the Air Force had told him not to discuss the markings.

Three sightings occurred Sunday night. An unidentified 18-year-old girl told Socorro police she saw a fire with something in it in the same vicinity where Zamora had been.

Orlando Gallegos, 35, of Santa Fe, said he saw a craft as long as a telephone pole and about 14 feet in circumference, near his father's home north of La Madera.

State Police Capt. Martin Vigil investigated the La Madera sighting. He found the ground still smoldering 20 hours after the sighting. He said he was in the center of the area when, at 11:30 p.m., a ball of red flame appeared. It was seen by several people, including by James Hernandez. Saturday night two unidentified motorists said an object similar to the egg-shaped, silver craft described by Zamora was seen near the La Madera area.

Edgewood Man Says He Shot At and Hit Flying Object

By United Press International
A rash of unidentified flying object sightings had New Mexico State Police, local law enforcement agencies and military installations in a tizzy today.

No less than six "authentic" sightings have been reported since Friday when Socorro Policeman Lonnie Zamora sighted an egg-shaped object which roared off the ground, leaving deep impressions and burned patches.

Fired 12 Shots

Don Adams of Edgewood told State Police he fired 12 .22-caliber pistol shots at an "object" early today. He said he hit the UFO six times and hearing the bullets bounce from it.

As he paused to reload, the man said, the object moved rapidly northward. He was unable to determine whether it was 7 to 12 inches in diameter. He described it as being a light green color, about 25 or 30 feet long, and silent. He said it hovered about 100 feet directly over his head.

Edgewood is about 30 miles east of Albuquerque.

A few hours earlier, a motorist in the Las Vegas area reported seeing a ball of fire which apparently landed near a radio station. Employees of the station said the man asked for his name be withheld because he was afraid of being laughed at.

Police also received similar reports Sunday from a Santa Fe man and Orlando Gallegos, 35, who said of seeing an egg-shaped object about 14 miles north of Santa Fe. He said of seeing flames burst from numerous points around the bottom of the object as it took off.

State Police Capt. Martin Vigil who checked out the incident, said "There was definitely something there."

Gallegos said he was on a highway today, who saw a "flying object" about 10 miles north of La Madera. He said it was a "silver" object about 14 feet in circumference and about 14 feet in circumference.

The object was seen by several people, including by James Hernandez. Saturday night two unidentified motorists said an object similar to the egg-shaped, silver craft described by Zamora was seen near the La Madera area.

discovered were "paw prints," "almost identical" in size, like a mountain lion's, "asterisking, marbling, character-well as "landing gear tracks and landing gears to marks."

Photos Mailed

The associate director of good coincidence or it is the Interplanetary Intelligence of same object," Hews said. Unidentified Flying Objects. Zamora, when contacted at said from his Oklahoma City home early today, said he office that pictures of an UFO had not yet received the sighted in 1958 by a shipboard radio officer were being mailed to Zamora.

The photos were taken by Air Force bases and T. Fogl aboard the USS Ramage. White Sands Missile Range say off the California coast, continued efforts to investigate the HUFU officer, Hayden said the sightings... with no Hews, said the object was seen in sight.

Santa Fe Reports

(Continued from Page 1)

ring of blue flame erupting from many jets around the bottom of the craft. The jets were noiseless and were turned off while he watched. He saw no persons around the craft which he described as a windowless bright metal, egg-shaped object and as long as a telephone pole, and probably 14 feet in circumference.

No one ventured out of the Gallegos home again during the night. The object was gone in the morning, but the ground was still smoldering.

A team of investigators at Kirtland Air Force Base, Albuquerque, was to visit the scene.

Whether it was the same UFO or another one is unknown, but Undersheriff James Luckie said a tourist told him in a cafe here Sunday night that a low-flying, bright object had nearly crowded him off U.S. 25 two miles south of Socorro between 7:30 and 8 p.m. The unidentified tourist was traveling north of 25, and the object going south.

Unseen Flying Object Reported in Field Socorro, N.M.

SOCORRO, N.M. — Dr. J. Allen Hynek, special unidentified flying object consultant for the Air Force, arrived in Socorro Tuesday night to begin his investigation of a Socorro policeman's report that he saw a mysterious flying object last Friday.

Dr. Hynek said he hoped to talk to the policeman, Lonnie Zamora, and then visit the site where Zamora says he saw the object this morning.

Dr. Hynek, of the Dearborn Observatory at Northwestern University, said he would decide whether to visit Espanola, where another object was reportedly spotted over the weekend, after his investigation of the Socorro incident.

He said he had not been advised by the Air Force if his presence here indicates that the government has eliminated the possibility of U. S. aircraft having caused the reports.

Capt. Hector Quintanilla, chief of the Aerial Phenomena Branch at Wright-Patterson Air Force Base, Ohio, said U. S. Sgt. David Moody of the office already was in New Mexico and would assist Dr. Hynek in the investigation.

The most recent report of the objects came early Tuesday morning from Santa Fe. Herman Tommy Richardson of the US-66 community at Moriarty.

He said he had a call from Don Adams of Edgewood, near Moriarty, who told of seeing an object about 100 feet off the ground. He said it appeared to be a fluorescent or green-colored glowing object.

Adams told the officer he drove his car under the object and his car stalled. The youth reported he then got out and fired six shots at the object, reloading and fired again.

The report was another in a series which have kept New Mexico and military authorities busy since Zamora's original report Friday. The reports, until Tuesday, had come from points following a line from south of Truth or Consequences to an area near Espanola.

Ground at La Madera Is Burned

LA MADERA, April 27 (AP)—A Santa Fe resident reported today he sighted an unidentified flying object Sunday near La Madera, northwest of Espanola.

A team of investigators from Kirtland Air Force Base, a group from Washington, D.C., and the FBI were expected to join State Police this afternoon to investigate the new report.

State Police also received a report from two men traveling in the same general area Saturday night that a flying object, definitely not an airplane, had swooped down toward their car, then veered off.

The report was the second during the past weekend, with the first coming from a Socorro police officer.

"There was definitely something there," said State Police Capt. Martin Vigil after visiting the site at La Madera.

"The ground was still smoldering 20 hours after the sighting."

Orlando Gallegos, 35, of Santa Fe, made Sunday's sighting. This is his story:

Gallegos and his family arrived about 12:30 a.m. Sunday at the home of his father, Frank Gallegos, just north of La Madera.

The younger Gallegos said he went outside to check on some horses. It was then he saw the thing sitting on the ground in a gravel area.

Gallegos said he was about 200 feet away and was afraid to approach closer. When he first sighted it, there was a ring of blue flame erupting from numerous jets around the bottom of the craft, he said.

There was no noise and as he watched, the jets were turned off. Gallegos said he didn't see anyone or anything moving around the craft.

Gallegos returned to the house and told his family, but no one else ventured outside.

Gallegos returned twice more to look at the object.

He described it as being of bright metal without windows, as long as a telephone pole and about 14 feet in circumference. He said it was egg-shaped and resembled a large butane tank.

At daylight Sunday the object was gone, but the ground still was smoldering. As Gallegos was returning to Santa Fe Sunday afternoon, he told Espanola police officer Nick Naranjo what he had seen.

Notified Officer

Espanola police notified State Police Officer Marvin Romero, who with State Police Officer David Kingsbury questioned Gallegos at length. They then notified Capt. Vigil assigned State Police Officer Albert Vega of Ojo Caliente to go to the scene.

Capt. Vigil said he talked by telephone with a major at Kirtland Air Force Base and described the scene. He was told it sounded exactly like the evidence found at Socorro. Capt. Vigil said the major told him he would send a team of investigators today.

"Nothing was there," Capt. Vigil said.

Officer Romero told today of the Saturday night sighting.

Officer Romero said two men, whose names he did not get, told him of seeing a strange flying object about 10:30 p.m. Saturday, which would have been about two hours before Gallegos' sighting at La Madera.

The men told the officer they were driving from Abiquiu to Espanola when the flying object came straight toward their car. It veered away. All they could see, they said, was a jet stream of blue flame. They said it definitely was not an airplane.

Man Reports Flying Saucer Other Sightings Are Reported Around State

(By United Press International)

A rash of unidentified flying object sightings had New Mexico State Police, local law enforcement agencies and military installations in a dither today.

No less than six "authentic" sightings have been reported since Friday when Socorro Policeman Lonnie Zamora sighted an egg-shaped object which roared off the ground, leaving deep impressions and burned patches.

In addition, telephone lines across the state hummed with activity as publicity-hunters and well-meaning persons got in the act.

Fired 12 Shots

An Edgewood man told State Police he fired 12 .22-calibre pistol shots at an "oblong thing" early today. He told of hitting the UFO six times and hearing the bullets bounce from it.

As he paused to reload, the man said, the object moved silently northward. He was unable to determine whether shots 7 to 12 struck the thing. He described it as being a light green color, about 25 or 30 feet long, and silent. He said it hovered about 100 feet directly over his head.

Investigating state policemen said the man was completely "sober." Edgewood is about 30 miles east of Albuquerque.

A few hours earlier, a motorist in the Las Vegas area reported seeing a ball of fire which apparently landed near a radio station. Employees of the station said the man asked that his name be withheld because he was afraid of being laughed at.

Police also received similar reports Sunday from a Santa Fe man . . . Orlando Gallegos . . . who told of seeing an egg-shaped metal object near La Madera, about 50 miles north of Santa Fe. He told of seeing flames spurt from numerous jets around the bottom of the object as it took off.

Santa Police Capt. Martin Vigil, who checked out the incident, said "There was definitely something there."

Other reports came from an Albuquerque motorist who saw a "silver looking" object . . . and a Socorro teenager.

Flying Saucer Reports Spread In New Mexico

SANTA FE (UPI) — New Mexico's perennial addiction to flying saucers has taken hold of the state again with more "objects" reported to police over the weekend.

The latest, which brought out the Air Force and the FBI, was spotted early Sunday morning at La Madera, about 50 miles north of Santa Fe. State Police Captain Martin Vigil said, "there was definitely something there."

Orlando Gallegos of Santa Fe told State Police he got within 200 feet of a huge metal object that looked like an egg-shaped butane tank. He said flames spurted silently from numerous jets around the bottom of the object. It was as long as a telephone pole and about 14 feet in circumference, he told police.

Gallegos' report came on the heels of a similar report from a Socorro policeman, Lonnie Zamora, who said he spotted an object near Socorro Friday night. Zamora, in clearing up false reports Sunday, said the object rose about 20 feet off the ground and slowly flew away.

Similar reports came from a Socorro teenager, an Albuquerque motorist, and two men driving in the La Madera area Saturday night. The Albuquerque motorist, George Mitropolis, said he saw a "silver looking" object. It disappeared over a mountain in the Caballo Reservoir area.

In both the Socorro and the La Madera reports the ground in the areas where the objects were reported to have landed was scorched and burned. Also found were "paw prints, like a mountain lion's," as well as "landing gear marks" — four impressions in the dirt.

Until the recent sightings, the last unidentified flying object was spotted in New Mexico near Gallup late last year by several motorists. A campus policeman at the University of New Mexico also spotted the Gallup object flying in the western sky at the same time.

The following, extracted from Maj Weaver's OD Report dated 27 Apr 64, is quoted for your information:

"AFSC Command Post called at 1645 relaying a UFO report as follows: At approximately 0130 local time near Espanola, N.M. on 26 April a Ranger's son observed an object emitting flames and noise. His father sent him back to bed. The next morning the Ranger and his son investigated the area near where the object was sighted. The grass was burned and still smoldering and there were footprints in the vicinity. They notified the state police and Kirtland AFB. The prints were similar to those reported on the 25th April at Socorran, N.M. Personnel from Kirtland are at the site now."

ZAMORA-LIKE OBJECT SEEN

La Madera, New Mexico, April 26 - Orlando Callegos, 35, of Santa Fe, reportedly was witness to an ellipsoidal object similar in description to the one observed by Socorro policeman, Lonnie Zamora, in the vicinity of his father's home north of La Madera.

While occupied in the activity of chasing away stray horses, he noted an unusual craft resting upon the ground in a gravel area some 200 feet distant. The UFO was reported to be the length of a telephone pole, with a circumference of 14 feet. Rings of blue flame emitted from jets about its underside.

It attempting to persuade his family to come out and observe the craft, he was particularly unsuccessful, for they were too frightened to accompany him. The next morning, however, they all examined the landing area, noticing the ground to be still fummy from the previous night.

State Police Captain Martin Virgin, upon checking the charred area, noticed that the rocks present within the center of the landing site were cracked, and a bottle nearby had melted. Green brush in the surrounding area had been set afire, evidently from intense heat. Four depressions and unusual "paw-prints," resembling those of a Mountain Lion, were also seen.

The Air Force, although having sent investigators into the area, has thus far remained silent on their findings, if any.

- - -

made of a shiny metallic substance, had no windows, and was as long as a telephone pole and about 14 feet in circumference. It was egg-shaped and resembled a large butane tank.

The next morning, feeling braver in the daylight, the family went out to take a look. The UFO was gone, though the ground was still smoldering! Local police were notified, and found a large charred area, strange marks in the ground resembling paw prints, and depressions similar to those found at Socorro. As a matter of fact, it is reliably reported that the ground was still smoldering twenty hours after the sighting! The charred area, seen by police, Air Force officials,

and many other people, was about 20 feet in diameter. Large rocks within the area showed evidence of extreme heat, while others a few feet away were not damaged at all. Even pieces of glass and metal were found melted and fused. A police officer ventured the opinion that no fuel presently known to mankind would leave the sort of traces found at La Madera. He also felt that the evidence indicated an extreme heat of short duration. We do not yet know what conclusions, if any, were formulated by the Air Force.

THE SECOND NEW MEXICO LANDING: Another sensational saucer landing occurred near the town of La Madera, New Mexico, within hours of the Socorro incident. At about 12:30 a.m., Orlando Gallegos, who was visiting his father's home there, went outside to chase away some horses. It was then that he saw a strange craft of some sort sitting on the ground in a gravel area. He was about 200 feet from it, and was afraid to get any closer. When Gallegos first sighted the UFO, there was a ring of blue flame erupting from numerous jets around the bottom of the craft. He heard no noise, and as he watched, the flames were turned off. Gallegos did not see anyone or anything moving around outside the UFO.

He returned to his father's house and told the family about the incident, but apparently they were all too frightened to go outside to take a look. Gallegos' wife later described him as looking "badly shaken." He returned twice more, alone, to gaze in amazement at the object. He said that it was

Flying Saucers Reported Spotted In New Mexico

SANTA FE (UPI) — New Mexico's perennial reputation to flying saucers now taken hold of the state again with more "objects" reported to police over the weekend.

The latest, which brought out the Air Force and the FBI, was spotted early Sunday morning at La Madera, about 50 miles north of Santa Fe. State Police Captain Martin Vigil said, "there was definitely something there."

Orlando Gallegos, of Santa Fe, told State Police he got within 200 feet of a large metal object that looked like an egg-shaped butane tank. He said flames spurted steadily from numerous jets around the bottom of the object. It was as long as a telephone pole and about 14 feet in circumference, he said.

Gallegos' report came on the heels of a similar report from a Socorro policeman, Lonnie Zamora, who said he spotted an object near Socorro Friday night. Zamora, in clearing up false reports Sunday, said the object came about 20 feet off the ground and slowly flew away.

Similar reports came from a Socorro teenager, an Albuquerque motorist, and two men driving in the La Madera area Saturday night. The Albuquerque motorist, George Mitropolis, said he saw a "silver looking" object. It disappeared over a mountain in the Caballo Reservoir area.

In both the Socorro and the La Madera reports the ground in the areas where the objects were reported to have landed was scorched and burned. Also found were "paw prints, like a mountain lion's," as well as "landing gear marks" — four impressions in the dirt.

Until the recent sightings, the last unidentified flying object was spotted in New Mexico near Gallup late last year by several motorists. A campus policeman at the University of New Mexico also spotted the Gallup object flying in the western sky at the same time.

'Infra-Red' Burns Suffered by Girl Who 'Saw' Object

A 10-year-old girl was treated for "infra-red burns" on her face after she said she watched an "egg-shaped" object hovering near Lowell Elementary School Tuesday noon for about 10 minutes.

Young Sharon Stull, daughter of Mr. and Mrs. Max Stull, 1409 Milmore SE, told her parents and Police Lt. C. K. Jolly, the "queer looking thing" bounced up and down about three times in the sky and then left.

Jolly said the girl's younger sister, Robin, 8, also saw the object but refused to look at it and ran off to play. The girl was treated by a physician for burns about the eyes and nose who, according to Jolly, said he believes Sharon "saw something and it burned her."

Sharon said it was not the sun she was looking at. She told Jolly the object was to the northeast and the sun was behind her. Her parents said Sharon is very truthful.

More UFO Sightings Are Reported Over Wide Area

BY THE ASSOCIATED PRESS
State officers and the military are investigating more unidentified flying object reports.

The reports came from Socorro and the Espanola area.

State Police Capt. Martin Vigil said investigators from Kirtland Air Force Base at Albuquerque were to arrive in Espanola today after noting the similarity in the different reports.

All of the reported sightings are similar in that they describe oval or egg-shaped objects, flames surrounding the craft when on the ground, scorched earth and wedge shaped depressions that officers say appear

to have been left by some type of landing gear.

The latest report came from a Santa Fe resident, Orlando Gallegos, 55, who told of seeing an object early Sunday morning at his father's home north of La Madera, sitting in a gravel area.

State Police received a report from two men traveling in the same area Saturday night that a flying object, which they said definitely was not an airplane, had swooped down toward their car, then veered off.

A Socorro, where the first such report came Friday evening from a city officer, a motorist, George McDonald, of Albuquerque, told of seeing Sunday night "a luminous flying thing, like an upside down bathtub, without lights except for a glow like exhaust underneath it, come up over the crest of the mountains and then go back down."

An unidentified girl, about 18, told Socorro officer Bill Pyland that she saw a fire in the hills southwest of Socorro Sunday night, where city officer Lonnie Zamora first reported seeing an "egg-shaped object" fly away from a draw. She said she went to within 300 feet to 500 feet from the fire when she thought she saw something in the flames. She then left to report it.

About the report from Gallegos, State Police Capt. Martin Vigil said, after visiting the site, "There was definitely something there."

"The ground was still smoldering 20 hours after the sighting."

Gallegos said he had gone out to chase away some horses when he saw the object. He said he was about 200 feet away when he first saw it.

Gallegos said there was no noise and as he watched, the flames jets were turned off. He said he didn't see anyone or anything moving around the craft.

He said he returned to the house and told his family but no one else ventured outside. Gallegos said he returned alone more to look at the object. He described it as being of bright metal, without windows, as long as a telephone pole and about 10 feet in circumference. It was egg-shaped, he said, and resembled a large banana gas tank.

Capt. Vigil said the ground was smoldering later Sunday and he found what looked like paw prints along with the depressions that indicate some type of landing gear.

The captain said he contacted Kirtland AFB and an unidentified officer there said that a team of military investigators was on its way.

State Police Lt. J. Lee Hunsicker said the Socorro area has been the site of many sightings in the Espanola area.

Hunsicker said the area has been the site of many sightings in the Espanola area. He said he had been called to the area many times in the past few days.

SOCORRO — Dr. J. Allen Hunsicker, medical consultant for the state police, arrived in Socorro Tuesday night to begin his investigation of a Socorro police officer's report that he saw a mysterious flying object Friday.

Hunsicker said he hoped to see the policeman, Lonnie Zamora, and then visit the site where Zamora says he saw the object this morning.

Dr. Hunsicker, of the Denver University at North Platte, Neb., said he would decide whether to visit Espanola, where another object was reportedly spotted over the weekend, after his investigation of the Socorro incident.

He said he had not been advised by the Air Force if his presence here indicates that the government has eliminated the possibility of U. S. aircraft having caused the reports.

Dr. Hector Quintanilla, chief of the Aerial Phenomena Branch at Wright-Patterson Air Force Base, Ohio, said that David Moody of the office already was in New Mexico and would assist Dr. Hunsicker in the investigation.

Dr. Hunsicker said his recent report of the object came early Tuesday morning from State Police Lt. J. Lee Hunsicker of the US-86 community of Socorro.

Hunsicker had a call from Dr. Hunsicker of Socorro, who said of seeing an object about 100 feet above the ground. He said it was about 100 feet above the ground, or about 100 feet above the ground.

Hunsicker said the officer he saw was under the object and was startled. The youth reported he then got out and saw the object in the sky.

Hunsicker said the officer he saw was under the object and was startled. The youth reported he then got out and saw the object in the sky.
