The last report submitted by Mr. [REDACTED] of an object at 270 degrees may have been a star. The Air Almanac listed a bright star on that heading.

Radar scan of the general area was made by Boston Search and Otis RAPCON. No unknown targets were observed. The area was also checked by five scanners on a EC-121 aircraft.

Comments of reporting officer are purely conjective, but it is felt that stars were the objects sighted.

SUBJECT: Reported UFO

1. At approximately 0103Z, a Mr. [REDACTED] from North Carver called to report an UFO. He described the object as having 3 revolving beacons (as opposed to flashing or Grimes type), one red, one green and one blue. In addition to the this object, three (3) smaller ones in step formation trailed behind and had the same description as the larger item. This group were supposed to be moving slowly down the horizon until the smaller three (3) disappeared behind the trees. This formation was located SW of Carver. Mr. [REDACTED] reported during his initial call, he had observed this group (Estimated Altitude 5000'-6000') for 20 or 30 minutes and was sure they were not aircraft of any type he had ever seen. At 0120Z, the Base Operator was instructed to transfer the call to WOC. WOC diverted HOMEY 68 to the area in question, but aircraft did not note anything unusual. Mr. [REDACTED] called back and stated that the aircraft had flown between his (Mr. [REDACTED]) and the object's position. I asked him if the aircraft's rotating beacon was similar? He stated that to him the aircraft had a flashing light. He further stated that the aircraft beacon was much smaller than the objects' lights. Mr. [REDACTED] stated the object SW was still there and mentioned a second object due west of his position. (By this time, Mr. [REDACTED] had obtained a Navy compass). After the first call, we checked with Boston Search, Control Tower, RAPCON, etc., for possible information Boston Search contacted State Police which in turn contact local police, who confirmed the objects but did not identify them. At 0151Z, I went to the Tower to observe for myself. The Tower then called an aircraft in local area and asked if they would mind flying in the local area for any unusual sighting. The aircraft reported he could see nothing out of the ordinary. At 0225Z, Base Operations received another call from Mr. [REDACTED] stating that he had spotted a third object, also in the same general area and confirmed by the police.

2. Other Factors:

a. Tower and Falmouth Police reported shooting star at 0030Z, 3 May.

b. There was a helicopter flying in vicinity of Carver (Tower had no contact with it) (Quonset verified all their helicopter were on the ground).

c. Several groups of stars and/or planets were visible low on the horizon at the approximate heading given by Mr. [REDACTED]
