1. DATE 27 Dec 1964		2. LOCATION Norwich, New York		12. CONCLUSIONS	
3. DATE-TIME GROUP Local _____ GMT 23/0050Z		4. TYPE OF OBSERVATION ☒ Ground-Visual ☐ Ground-Radar ☐ Air-Visual ☐ Air-Intercept Radar		☐ Was Balloon ☐ Probably Balloon ☐ Possibly Balloon ☐ Was Aircraft ☐ Probably Aircraft ☐ Possibly Aircraft ☐ Was Astronomical ☐ Probably Astronomical ☐ Possibly Astronomical	
5. PHOTOS ☐ Yes ☒ No		6. SOURCE Civilian		☐ Other <u>UNIDENTIFIED</u> ☐ Insufficient Data for Evaluation ☐ Unknown	
7. LENGTH OF OBSERVATION 4 - 5 minutes		8. NUMBER OF OBJECTS One		9. COURSE Stationary	
10. BRIEF SUMMARY OF SIGHTING Sphere shaped object with estimated diameter of 25-30 ft aluminum or metallic color with luminous glowing ring around the object observed by one witness. No tail and exhaust or other features. Observed from auto as witness came to crest of hill. Object was motionless in SW at 15-20 deg elevation. Believed to be at 50-60 ft altitude and 150-200 yds away. After 4-5 minutes the object made three blinding flashes and disappeared. Time of sighting at dusk with car lights on.				11. COMMENTS Observer a mature 50 yr old engineering supervisor. Did not get out of car. SPICA in position of object, however the unusual characteristics reported for a 5 minute observation tend to eliminate an astronomical cause by star of the 1st magnitude. While not eliminating this as a possible cause the case is regarded as unsolved and carried as UNIDENTIFIED. WX with ground fog forming and night clear.

11 August 1964

Investigation - Reported Unidentified Flying Objects (UFO)

WFO (PUB)

Wright-Patterson AFB, Ohio 15433

1. In accordance with AFR 200-2, a detailed investigation of unidentified flying objects reports in the Rijnswater, New York area, was conducted by Captain Richard T. Brown and 1st Lieutenant Sidney Butler on 6 and 7 August 1964. On the basis of personal interviews and other evidence, it is felt that all reports after the original report of sighting on 27 July 1964, can be explained and should be discounted as reports of familiar or known objects.

2. To clarify the situation which led to the deluge of reports from 27 July to the present time, the following historical summary is presented.

a. In June, a farmer in Newark Valley near Rijnswater, reported that a flying saucer landed and that he talked with several space men. This incident was given much publicity and actually started the sequence in the Rijnswater area.

b. In early July, five children in the town of Kirkwood also reported seeing a spaceship on the ground. Again much publicity was given.

c. On 27 July, Mr. [REDACTED] of Norwich, N.Y. sighted an object near Norwich (see attachment #1 for complete report). The investigators were unable to provide a satisfactory explanation of this sighting and the observer seems to be a reasonable, mature man, although he has no special qualifications as an observer.

d. Mr. [REDACTED] report triggered a mass of reports. The Sun Bulletin, a local tabloid type newspaper and WHEP-TV gave much coverage to marginal and untrained reports.

e. On 29 July, [REDACTED] and [REDACTED] reported seeing a cone shaped object and were interviewed on WHEP-TV. A drawing of their impression of the UFO was made by the staff artist at WHEP-TV. This was forwarded to AFM (PUB) in the preliminary report. The investigating team feels that [REDACTED] and [REDACTED] report is a report of a lumber type aircraft crossing Rijnswater (see attachments 2 and 3).

f. The [REDACTED] TV interview caused a great number of reports during

ROOM

Investigation - Reported Unidentified Flying Objects (UFO)

AFSC (FYD)

Wright-Patterson AFB, Ohio 45433

1. In accordance with AFR 200-2, a detailed investigation of unidentified flying objects reports in the Binghamton, New York area, was conducted by Captain Richard F. Brown and 1st Lieutenant Sidney Hessler on 6 and 7 August 1964. On the basis of personal interviews and other evidence, it is felt that all reports after the original report of sighting on 27 July 1964, can be explained and should be discounted as reports of familiar or known objects.

2. To clarify the situation which led to the deluge of reports from 27 July to the present time, the following historical summary is presented.

a. In June, a farmer in Seneca Valley near Binghamton, reported that a flying saucer landed and that he talked with several specimens. This incident was given much publicity and actually started the sequence in the Binghamton area.

b. In early July, five children in the town of Kirkwood also reported seeing a spaceship on the ground. Again much publicity was given.

c. On 27 July, Mr. [REDACTED] of Norwich, N.Y. sighted an object near Norwich (see attachment #1 for complete report). The investigators were unable to provide a satisfactory explanation of this sighting and the observer seems to be a reasonable, mature man, although he has no special qualifications as an observer.

d. Mr. [REDACTED] report triggered a mass of reports. The Sun Bulletin, a local tabloid type newspaper and WNEP-TV gave much coverage to marginal and unfounded reports.

e. On 29 July, [REDACTED] reported seeing a cone shaped object and were interviewed on WNEP-TV. A drawing of their impression of the UFO was made by the staff artist at WNEP-TV. This was forwarded to AFSC (FYD) in the preliminary report. The investigating team feels that [REDACTED] report is a report of a bomber type aircraft crossing Binghamton (see attachments 2 and 3).

f. The Nolan/Ryan TV interview caused a great number of reports during

the period 30 July to 3 August. These reports consisted mostly of light sightings. None of the reports seemed to be reliable. The investigators contacted approximately 30 persons who provided this type of information.

8. Mr. [REDACTED], who is an amateur sky watcher and president of the local astronomy club provided the most significant rebuttal to reports in the Binghamton area during the period 28 July to 3 August 1964. He and several other qualified observers used binoculars and other aids, logged all unusual sightings and positively identified all sightings as known objects.

3. FAA personnel and Weather Bureau personnel at Broome County Airport reported no unusual sightings during the period 28 July to 3 August.

4. Newspaper clippings from The Sun Bulletin and Binghamton Evening News are included as attachment #4.

5. Prints and a 35mm negative are included as attachment #5. These three exposures were taken with a powerful 400 mm lens. The photographer did not see the objects shown on the prints. The investigators feel that this material is of no value, but included it for review.

6. Maps of the Binghamton and Norwich area are included as attachment #6.

Reported UFO - Norwich, New York, 23 July 1964

1. Description of Object

- a. Shape - sphere.
- b. Size - larger than basketball. Estimated diameter as 25-30 feet.
- c. Color - aluminum, metallic.
- d. Number - one.
- e. Formation - N/A
- f. Features - Had a luminous ring surrounding sphere, glowing color.
- g. Tail, trail, etc. - No tail, or trail.
- h. Sound - no sound.
- i. Other - none.

2. Description of Course.

- a. Observer first saw the object from his automobile as he climbed to the top of a slight rise. He stopped his car and remained inside.
- b. Angle, elevation and azimuth at first observation - southwest at 15° - 20° above horizon. Estimated 50' to 60' altitude and 150 to 200 yards from his observation point.
- c. Elevation, azimuth, upon disappearance - same as b. The object remained motionless during observation.
- d. Flight path - motionless.
- e. The object emitted three blinding flashes of light and disappeared, leaving no trace.
- f. Object visible 4 to 5 minutes.

3. Manner of Observation

- a. Ground - visual.
- b. N/A
- c. N/A

A. Date and time of Sighting

- a. 23/0750Z.
- b. Light Conditions - dusk, headlights were on.

5. Location of Observer - 17 miles northwest of Norwich, N.Y. on a little used secondary road in unpopulated, rolling hill country.

6. Identifying Information.

a. [REDACTED], civilian, 30 [REDACTED], Norwich, N.Y. Occupation - Engineering Supervisor. Reliability - nature and doesn't appear to be type who would report inaccurately. No special observation skills.

7. Weather

a. Observer's Account - clear night, some ground fog burning, but not at position of sighting.

b. No ASD weather data available at Norwich.

8. No unusual activity in the Norwich area at the time of observation.

9. No intercept made.

10. A weather balloon is released at Rivington at 2300Z each day. This balloon would not be aloft 2-30 after launch (0030Z).

11. It is felt that this report has some validity for the following reasons:

a. The observer seems reliable.

b. The observer's description of an object of large size leads to the conclusion that something must have been observed.

c. The observer stated that he stopped his car, was very frightened and only got out after the object disappeared. However, Norwich is a rural area and no witnesses other than Mr. [REDACTED] were there to corroborate his story. On the basis of the above information, the investigators are unable to offer a satisfactory analysis.

Glowing UFO Seen By Norwich Man

Press Bureau

Norwich—A Norwich engineering executive told state police that he saw an elliptical object hovering near the ground last night.

The report came from Louis Daubert, 33, of 8 Willard Court, Norwich, a supervisor in the engineering department of Norwich Pharmaceutical Co. His report was one of three that Norwich area residents reported in connection with unusual sky phenomena last night.

He said he saw an "object hovering some 30 feet over a field" off Hawley Brook Road, some three miles from Route 12, Town of Shattuck.

Mrs. Max Bach of Sunset Drive, Norwich, reported that she and her husband saw a bright object in the sky at about 9:10 p. m.

She said it was moving "very fast" to the northeast. She estimated they were able to watch it for 10 to 15 minutes until the stars came out and it disappeared from view.

The couple had been waiting to see Echo 3, an American satellite which had been scheduled to pass over the area at 9:33 p. m.

Another report described a light in the sky over the Family Bargain Center, about a mile south of Norwich in Route 12. State police at Norwich station said this was reported today by an Oxford man who was not identified.

Mr. Daubert said he was headed east in his car about 8 p. m., destined for Chenango County Girl Scout Camp where his daughter, Norma, 15, is a counselor.

When he saw the object, he said, he stopped and watched it for about five minutes. He estimated the elliptical object to be some 25 feet in diameter, and said it "shined with an iridescent glow around the outer edge like a fluorescent light."

Then there were three flashes of light which "practically blinded me." Then the object left, he said.

The UFO was reported by Mr. Daubert in a call to state police at Sidney.

City Firemen

Spot Bright

Streak in Sky

Three Binghamton firemen report they observed a brightly lighted, fast-moving object in the sky about 2 o'clock last night.

And three other Binghamton area residents said today that they saw unusual sky phenomena during the evening.

George Rank, 12, of 1833 Front Street, Binghamton, observed an "orange streak" in the sky from near his home about 8:45 p. m. He said the streak suddenly turned blue. It appeared to be above the Hill street shopping center across the Chenango River, the youth said.

DOUGLAS SLATER, 14, of Celestine Road, reported seeing a "large round silver object with a red light in the middle." And Mrs. Paul Duford of 15 Virg

(Continued on Page 10)

Firemen --

(Continued From Page 17)

Street reported seeing a "bright yellow flash."

Fire Bureau Lt. John Calabrese, an amateur astronomer, identified the three firemen as Edward Malone, John McElroy and Anthony Winkler.

He said they were outside of the Robinson Street fire station and he was in the office working when the flying object was discovered.

The trio said the object, moving in jet fashion and spurting, was about 60 degrees from the horizon, Lieutenant Calabrese said.

THE OBJECT traveled from the southeast to the northwest, the firemen said.

By the time Lieutenant Calabrese got outdoors it was out of sight, he said.

"I stayed out and watched the satellite, Echo 3, pass by about five minutes later," Lieutenant Calabrese said.

UFO sighted

SHERBURNES -- An unidentified, off at a high rate of speed. Flying object was reportedly seen near here last night hovering about 50 feet from the ground over an open field.

Louis Daubert, 33, of 8 Willard Court, Norwich, said he spotted the object about 8 p. m. just off Shattuck Brook Road. He told reporters that he watched the object for about six minutes before "it shot out there."

The object resembled aluminum and had a luminous edge, he said. There was no noise when it hovered, he said.

SOURCE: Saucer News

27 July 1964

Norwich, New York

Among dozens of saucer sightings in upstate New York during late July, is that of a Norwich engineering executive who says he saw an elliptical object hovering near the ground on the night of July 27th. The engineer, named Louis Daubert, observed the UFO hovering about fifty feet over a field near the town of Sherburne. It made no sound....
