

1. DATE - TIME GROUP 29 August 64 30/0630Z	2. LOCATION Lone Pine, California
3. SOURCE Civilian	10. CONCLUSION JUPITER CAPELLA AND FORMALHAUT Jupiter in position o f the reported object. Additional object at about the same elevation are Fornalhaut and the Star Capella.
4. NUMBER OF OBJECTS Three	
5. LENGTH OF OBSERVATION Hours	
6. TYPE OF OBSERVATION Ground-Visual	
7. COURSE Stationary	
8. PHOTOS ☐ Yes ☒ No	11. BRIEF SUMMARY AND ANALYSIS Object moving up and down and side to side at 20 deg elevation in the East. Looked like a jet doing acrobatics at night. Observed for several hours. Appeared as a light.
9. PHYSICAL EVIDENCE ☐ Yes ☒ No	

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

• object

all had same motion as one object

Year

January 1966

27 Project Blue Book - Information Report

34. Date you completed this questionnaire:

12 Feb 1965
Day Month Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

My Dad, an aeronautical engineer, [REDACTED], an engineering student going to Cornell University, and I were hiking down from Mt Whitney. The time was 10:30 p.m. We were at an elevation of 13,000 feet when we sighted an unusual object.

The object appeared to be a jet airplane doing maneuvers but it's speed and maneuvers were too great. This object was in the east at an elevation of about 20° . It seemed larger than a star and seemed to be located somewhere in back of the White Mountains. This object was light red in color. It seemed to have a home spot. This object would move up a couple degrees and then move back to the home spot. It would move down a couple degrees and move back to the home spot. This object also moved across in the same manner. The object seemed to have shot out a light beam a couple of times. The stars seemed to be stationary.

We got down to our camp at 12,000 feet at 11:30 p.m. and still observed the object. We noticed two more of these objects, one to each side of the first one. They seemed to be at least twice the distance away as the first object. They had the same motions as the first one. We went to bed at 12:00 p.m. and we still observed these objects.

Buena Park, California
January 28, 1965

Dear Sir:

My purpose in writing is to report an unidentified flying object observed in Central California on the evening of August 29, 1964.

My Dad, an aeronautical engineer, [REDACTED], an engineering student going to Cornell University, and I were hiking down from Mt. Whitney. The time was 10:30 p.m. We were at an elevation of 13,000 feet when we sighted an unusual object.

The object appeared to be a jet airplane doing maneuvers but its speed and maneuvers were too great. This object was in the east at an elevation of about 20° . It seemed larger than a star and seemed to be located somewhere in back of the White Mountains. This object was light red in color. It seemed to have a home spot. This object would move up a couple degrees and then move back to the home spot. It would move down a couple degrees and move back to the home spot. This object also moved across in the same manner. The object seemed to have shot out a light beam a couple of times. The stars seemed to be stationary.

We got down to our camp at 12,000 feet at 11:30 p.m. and still observed the object. We noticed two more of these objects, one to each side of the first one. They seemed to be at least twice the distance away as the first object. They had the same motions as the first one. We went to bed at 12:00 p.m. and we still observed these objects.

Will you please tell me what we saw. If you need more information, I will be glad to send it to you.

Sincerely yours,

[REDACTED]

4 February 1965

Dear Mr. [REDACTED]:

In order for the Air Force to evaluate your report of an unidentified flying object, the attached FTD Form 164 should be completed as fully as possible and returned to this office. The Air Force will evaluate the report, and you will be advised of the findings.

Sincerely,

MASTON M. JACKS
Major, USAF
Public Information Division
Office of Information

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

29 August 1964
Day Month Year

2. Time of day:

10 30
Hour Minutes

(Circle One):

A.M.

or

P.M.

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

Nearest Postal Address

City or Town

State or County

5. How long was object in sight? (Total Duration)

6 00 00
Hours Minutes Seconds

(a. Certain

b. Fairly certain

c. Not very sure

d. Just a guess

5.1 How was time in sight determined?

by watch

5.2 Was object in sight continuously?

Yes A

No

6. What was the condition of the sky?

DAY

a. Bright

b. Cloudy

NIGHT

a. Bright

b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right

d. To your left
e. Overhead
f. Don't remember

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- ☒ c. Many
- d. Don't remember

8.2 MOON (Circle One):

- ☒ a. Bright moonlight
- b. Dull moonlight
- c. No moonlight - pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- ☒ a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- ☒ a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- a. Solid
- b. Transparent
- c. Vapor
- ☒ d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
- ☒ b. Dimmer
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

Twilight in a place

12. The edges of the object were:

- (Circle One):
- ☒ a. Fuzzy or blurred
 - b. Like a bright star
 - c. Sharply outlined
 - d. Don't remember

e. Other _____

13. Did the object:

(Circle One for each question)

- | | | | |
|---|--------------------------------------|-------------------------------------|------------|
| a. Appear to stand still at any time? | ☒ Yes | No | Don't know |
| b. Suddenly speed up and rush away at any time? | Yes | ☒ No | Don't know |
| c. Break up into parts or explode? | Yes | ☒ No | Don't know |
| d. Give off smoke? | Yes | ☒ No | Don't know |
| e. Change brightness? | ☒ Yes | No | Don't know |
| f. Change shape? | Yes | ☒ No | Don't know |
| g. Flash or flicker? | Yes | ☒ No | Don't know |
| h. Disappear and reappear? | Yes | ☒ No | Don't know |

14. Did the object disappear while you were watching it? If so, how?

No

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

☒ No

Don't Know.

IF you answered YES, then tell what

it moved behind:

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

Yes

☒ No

Don't Know.

IF you answered YES, then tell what

in front of:

17. Tell in a few words the following things about the object:

a. Sound *No sound*

b. Color *Light red*

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

Align.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

Appeared as a light

20. Do you think you can estimate the speed of the object?

(Circle One) ☒ Yes ☐ No

IF you answered YES, then what speed would you estimate? 2000 mph

21. Do you think you can estimate how far away from you the object was?

(Circle One) ☒ Yes ☐ No

IF you answered YES, then how far away would you say it was? 1000 miles

22. Where were you located when you saw the object?

(Circle One):

- a. Inside a building
- b. In a car
- ☒ c. Outdoors
- d. In an airplane (type)
- e. At sea
- f. Other _____

23. Were you (Circle One)

- a. in the business section of a city?
- b. In the residential section of a city?
- ☒ c. In open countryside?
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

- | | | | |
|--------------|--------------|--------------|--------------|
| a. North | c. East | e. South | g. West |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) ☐ Yes ☒ No

25. Did you observe the object through any of the following?

- | | | | | | |
|-----------------|-----|-------------------------------------|----------------|-----|-------------------------------------|
| a. Eyeglasses | Yes | ☒ No | e. Binoculars | Yes | ☒ No |
| b. Sun glasses | Yes | ☒ No | f. Telescope | Yes | ☒ No |
| c. Windshield | Yes | ☒ No | g. Theodolite | Yes | ☒ No |
| d. Window glass | Yes | ☒ No | h. Other _____ | | |

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

A jet flying at a distance of 1000 miles
