15. SUMMARY:
 At approximately 0325 hours, 6 Sep 64, source telephonically reported to Security and Law Enforcement Division, Robins AFB Ga, that while visiting the residence of Mr. [REDACTED], Macon Ga, at about 0245 hours (Eastern Standard Time), 6 Sep 64, he observed an object that was reddish orange in color, glowing, egg shaped, with beam of light in front at about 55 degrees above the horizon between the "Little Dipper," and "Morning Star". This described object was observed for only a few seconds and traveled about twelve inches from North to Southeast and disappeared. Seconds later, two objects that looked like stars were observed in the same location as the first object. These two objects moved up and down and side to side like the letter "W". These objects were observed for about two hours and faded out in place at daybreak. ALC Lewis M. Swartzbaugh, AF13665118, Air Policeman, was dispatched to 1107 James St, Macon Ga, where the following information was obtained:

(Leave Blank)

1a. Description of the single object first observed:

(1) Shape: Egg shaped

(2) Size compared to a known object: About the size of a ball point pen

(3) Color: Reddish orange

(4) Number: One

(5) Formation, if more than one: Single object

(6) Any discernible features or details: A light beam protruding from front of object.

(7) Tail, trail, or exhaust, including size of same compared to size of object: No tail, or exhaust

(8) Sound; if heard, describe sound: No sound

(9) Other pertinent or unusual features: None

b. Description of Course of Object(s):

(1) What first called the attention of observer(s) to the object(s)?

Object was moving

(2) Angle or elevation and azimuth of object when first observed: About 45 degrees to 50 degrees above the horizon directly between the "Little Dipper," and the "Morning Star".

(3) Angle or elevation and azimuth of object upon disappearance: Faded away to the Southeast, about 45 to 50 degrees above the horizon.

(4) Description of flight path and maneuvers of object: Traveled in a straight line with jerking slow motion and then speeded up.

(5) How did the object disappear: Faded away to the Southeast.

(6) How long was the object visible: A few seconds.

c. Manner of Observation:

(1) How observed: Ground visual

(2) Use of Optical aids: No.

d. Time and Date of Sighting:

(1) Zulu time-date group sighting: 0745Z, 6 Sep 64; 0245 hours, Eastern Standard Time

(2) Light conditions: Night time.

e. Location of Observers: In the yard at [REDACTED], Macon Ga, which is located in the Southwest part of Macon Ga.

f. Identifying Information on Observers:

(1) Source: [REDACTED], age 21, [REDACTED], Macon Ga,

telephone number SH 2-4136, employed as laborer with Sterchi Cracker Co, Macon Ga. (Leave Blank)

Witnesses: [REDACTED] age 38, [REDACTED], Macon Ga, employed as an Electrical Inspector at U. S. Naval Ordnance Plant, Macon Ga; J [REDACTED], age 20, [REDACTED] N.E. Atlanta Ga, employed as a Salesman Trainee with H. Mendal Co, 18 [REDACTED], S.W., Atlanta Ga, office telephone number [REDACTED]; W [REDACTED], age 20, [REDACTED], N.E., Atlanta Ga, housewife; and [REDACTED], age 19, [REDACTED], N.E., Atlanta Ga, employed as an advertising accountant with Burke, Dowling and Adams Advertising Agency, 1715 Peachtree St, N.E., Atlanta Ga, office telephone number 875-0121, extension [REDACTED]. Source and witnesses indicated above had just returned from a fishing trip. They all appeared to be sober and of sound mind. Witnesses corroborated Source's statement.

g. Weather and winds -- Aloft Conditions at Time and Place of Sightings:

(1) Observer(s) account of weather conditions: Mr. Herb DeGroot, U.S. Weather Bureau, Macon Municipal Airport, reported the following weather conditions for period 0230 through 0330 hours (Eastern Standard Time) 6 Sep 64, in the Macon Ga area:

(2) Wind direction and velocity in degrees and knots:

Surface	-- Calm
6,000	-- 80 degrees at 12 knots out of E (NE)
10,000	-- 60 degrees at 7 knots out of NE
16,000	-- 50 degrees at 9 knots out of NE
20,000	-- 170 degrees at 7 knots out of SE
30,000	-- 190 degrees at 14 knots out of S
50,000	-- 230 degrees at 18 knots out of W (SW)
80,000	-- unknown - not recorded

(3) Ceiling: Clear between 0100 through 0500 hours

(4) Visibility: 8 miles

(5) Amount of Cloud Cover: None

(6) Thunder Storms in area and quadrant: None

(7) Vertical temperature gradient: 2 degrees per 1000 feet

(8) Any other unusual activity or condition, meteorological, astronomical, or otherwise, which might account for the sighting: None, no unusual astronomical or meteorological activity reported.

(9) Weather balloons in Area: Weather balloons are normally released at Athens Ga, Montgomery Ala, and Jacksonville Fla, at 0100 hours, Eastern Standard Time. No balloons are released at the Macon Municipal Airport. Mr. DeGroot opined that it is not likely any of the balloons released from the three locations described would have drifted to Macon Ga, area, since winds would not have carried them in this direction.

(Leave Blank)

2a. Description of two objects observed a few moments after the first object:

- (1) Shape: Star like
- (2) Size compared to a known object: About size of a ball point pen point.
- (3) Color: Color was like a star, one object was bright and the other one was dim.
- (4) Number: Two (2)
- (5) Formation, if more than one: No discernible formation. The bright object was approximately 24 inches below the dim object.
- (6) Any discernible features or details: None
- (7) Tail, trail, or exhaust, including size of same compared to size of object(s): No tail, trail, or exhaust.
- (8) Sound; if heard, describe sound: No sound heard.
- (9) Other pertinent or unusual features: None.

b. Description of Course of Object(s):

(1) What first called the attention of observer(s) to the object(s)? Attention was first drawn to the area of these two objects by action of first object sighted. Attention attracted to the two objects because they were moving.

(2) Angle or elevation and azimuth of object(s) when first observed: At about 45 degrees to 50 degrees above the horizon between the "Little Dipper," and the "Morning Star".

(3) Angle or elevation and azimuth of objects upon disappearance: Objects were still visible and active when witnesses went indoors at about 0945Z, 6 Sep 64; 0445 hours, Eastern Standard Time.

(4) Description of flight path and maneuvers of objects: Up and down and side to side for a distance of about 18 inches in a pattern like the letter

"W".

(5) How did the objects disappear? Faded out in place at daybreak.

(6) How long were the objects visible? About two (2) hours.

c. Manner of Observation:

(1) How observed: Ground visual

(2) Use of Optical aids: No.

d. Time and Date of Sighting:

(1) Zulu time-date group sighting: 0745Z to 0945Z, 6 Sep 64. (0245 to 0445 hours Eastern Standard Time)

(2) Light Conditions: Night time to daybreak.

e. Location of Observers: In the yard at ~~1100~~ Macon Ga, which is located in the Southwest part of Macon Ga.

f. Identifying information on Observers: As previously reported.

g. Weather and Winds: As previously reported.

3. Aircrafts in the area during time of sightings: Mr. Fahr, Base Operations (WRBFD), Robins AFB Ga, reported that at 0806Z hours, 6 Sep 64, a Capital Airline Argosy Aircraft departed in a Northwest direction from Runway Nr. 32, Robins AFB Ga, enroute to Mobile Ala. There was no other aircraft reported in or around the Macon Ga area.

4. Any other activity or condition which might account for the sightings: Mr. James E. Macon, Civilian Policeman, Security and Law Enforcement Division, Robins AFB Ga, reported that while on duty as a policeman at Post Nr. 13, near the west boundary of Robins AFB Ga, at about 0830Z hours (0330 hours Eastern Standard Time), 6 Sep 64, he observed what appeared to be a Shooting Star move from north to southeast for a distance of approximately 36 inches and then burn out in approximately the same area as where unidentified flying objects were allegedly observed.

5. No physical evidence was obtained during these sightings.

6. Position title and comments of the preparing officer, including his preliminary analysis of the possible cause of the sighting(s): Lt Lonnie Z. Wetherington, GS-8, Civilian Policeman, Acting Shift Captain, Security and Law Enforcement Division, Robins AFB Ga. Based on information reported by Policeman Mason, the first object sighted by witnesses may have been the shooting star which burned out in

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

6 Sept 1964
Day Month Year

2. Time of day:

0825 20
Hour Minutes

(Circle One): A.M. or P.M.

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

Nearest Postal Address

City or Town

State or County

5. How long was ^{object} object in sight? (Total Duration)

Hours

40
Minutes

Seconds

a. Certain

b. Fairly certain

c. Not very sure

d. Just a guess

5.1 How was time in sight determined?

5.2 Was object in sight continuously? One object; followed by two objects
Yes _____ No _____

6. What was the condition of the sky?

DAY

a. Bright

b. Cloudy

NIGHT

a. Bright

b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right

d. To your left
e. Overhead
f. Don't remember

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight - pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- a. Solid
- b. Transparent
- c. Vapor
- d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
- b. Dimmer
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
 - b. Like a bright star
 - c. Sharply outlined
 - d. Don't remember

e. Other

13. Did the object:

(Circle One for each question)

- | | | | |
|---|-----|----|------------|
| a. Appear to stand still at any time? | Yes | No | Don't know |
| b. Suddenly speed up and rush away at any time? | Yes | No | Don't know |
| c. Break up into parts or explode? | Yes | No | Don't know |
| d. Give off smoke? | Yes | No | Don't know |
| e. Change brightness? | Yes | No | Don't know |
| f. Change shape? | Yes | No | Don't know |
| g. Flash or flicker? | Yes | No | Don't know |
| h. Disappear and reappear? | Yes | No | Don't know |

✓ 14. Did the object disappear while you were watching it? If so, how?

First object disappeared; followed by two objects

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound _____

b. Color _____

✓ 1st object: reddish orange; glowing

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

✓ 19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

1st object:
egg-shaped with beam of light ahead

Next two objects: more like stars

20. Do you think you can estimate the speed of the object?

(Circle One) Yes No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object?

(Circle One):

- a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane (type) _____
- e. At sea
- f. Other _____

23. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

- | | | | |
|--------------|--------------|--------------|--------------|
| a. North | c. East | e. South | g. West |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

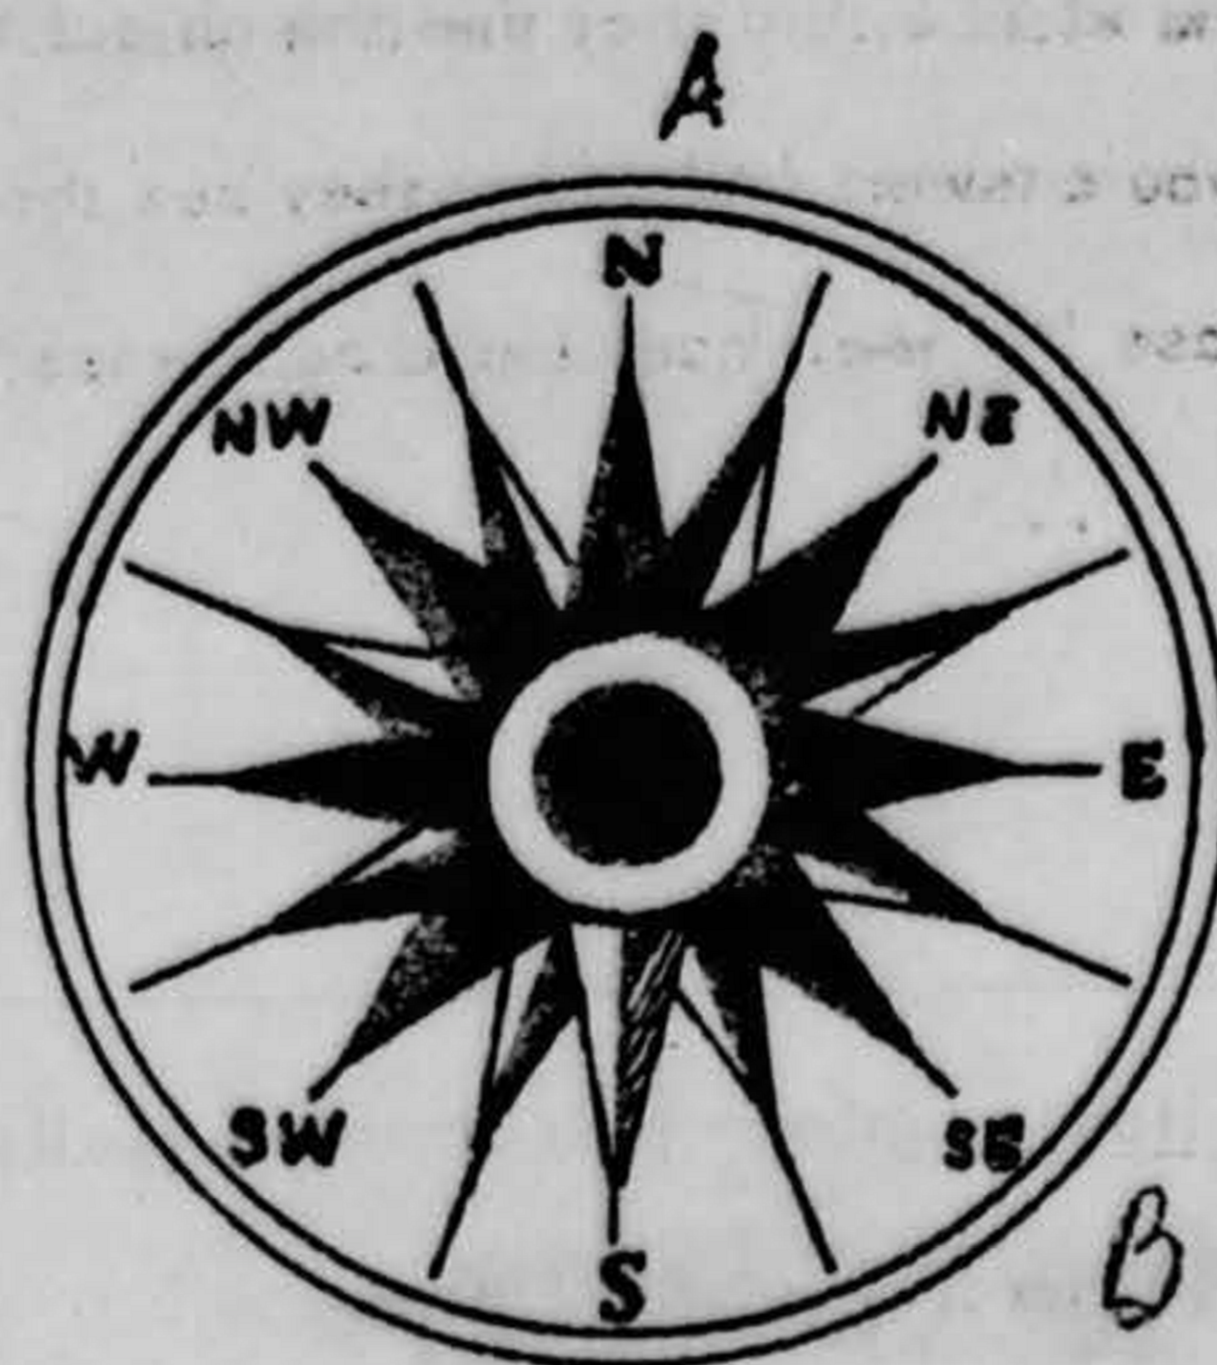

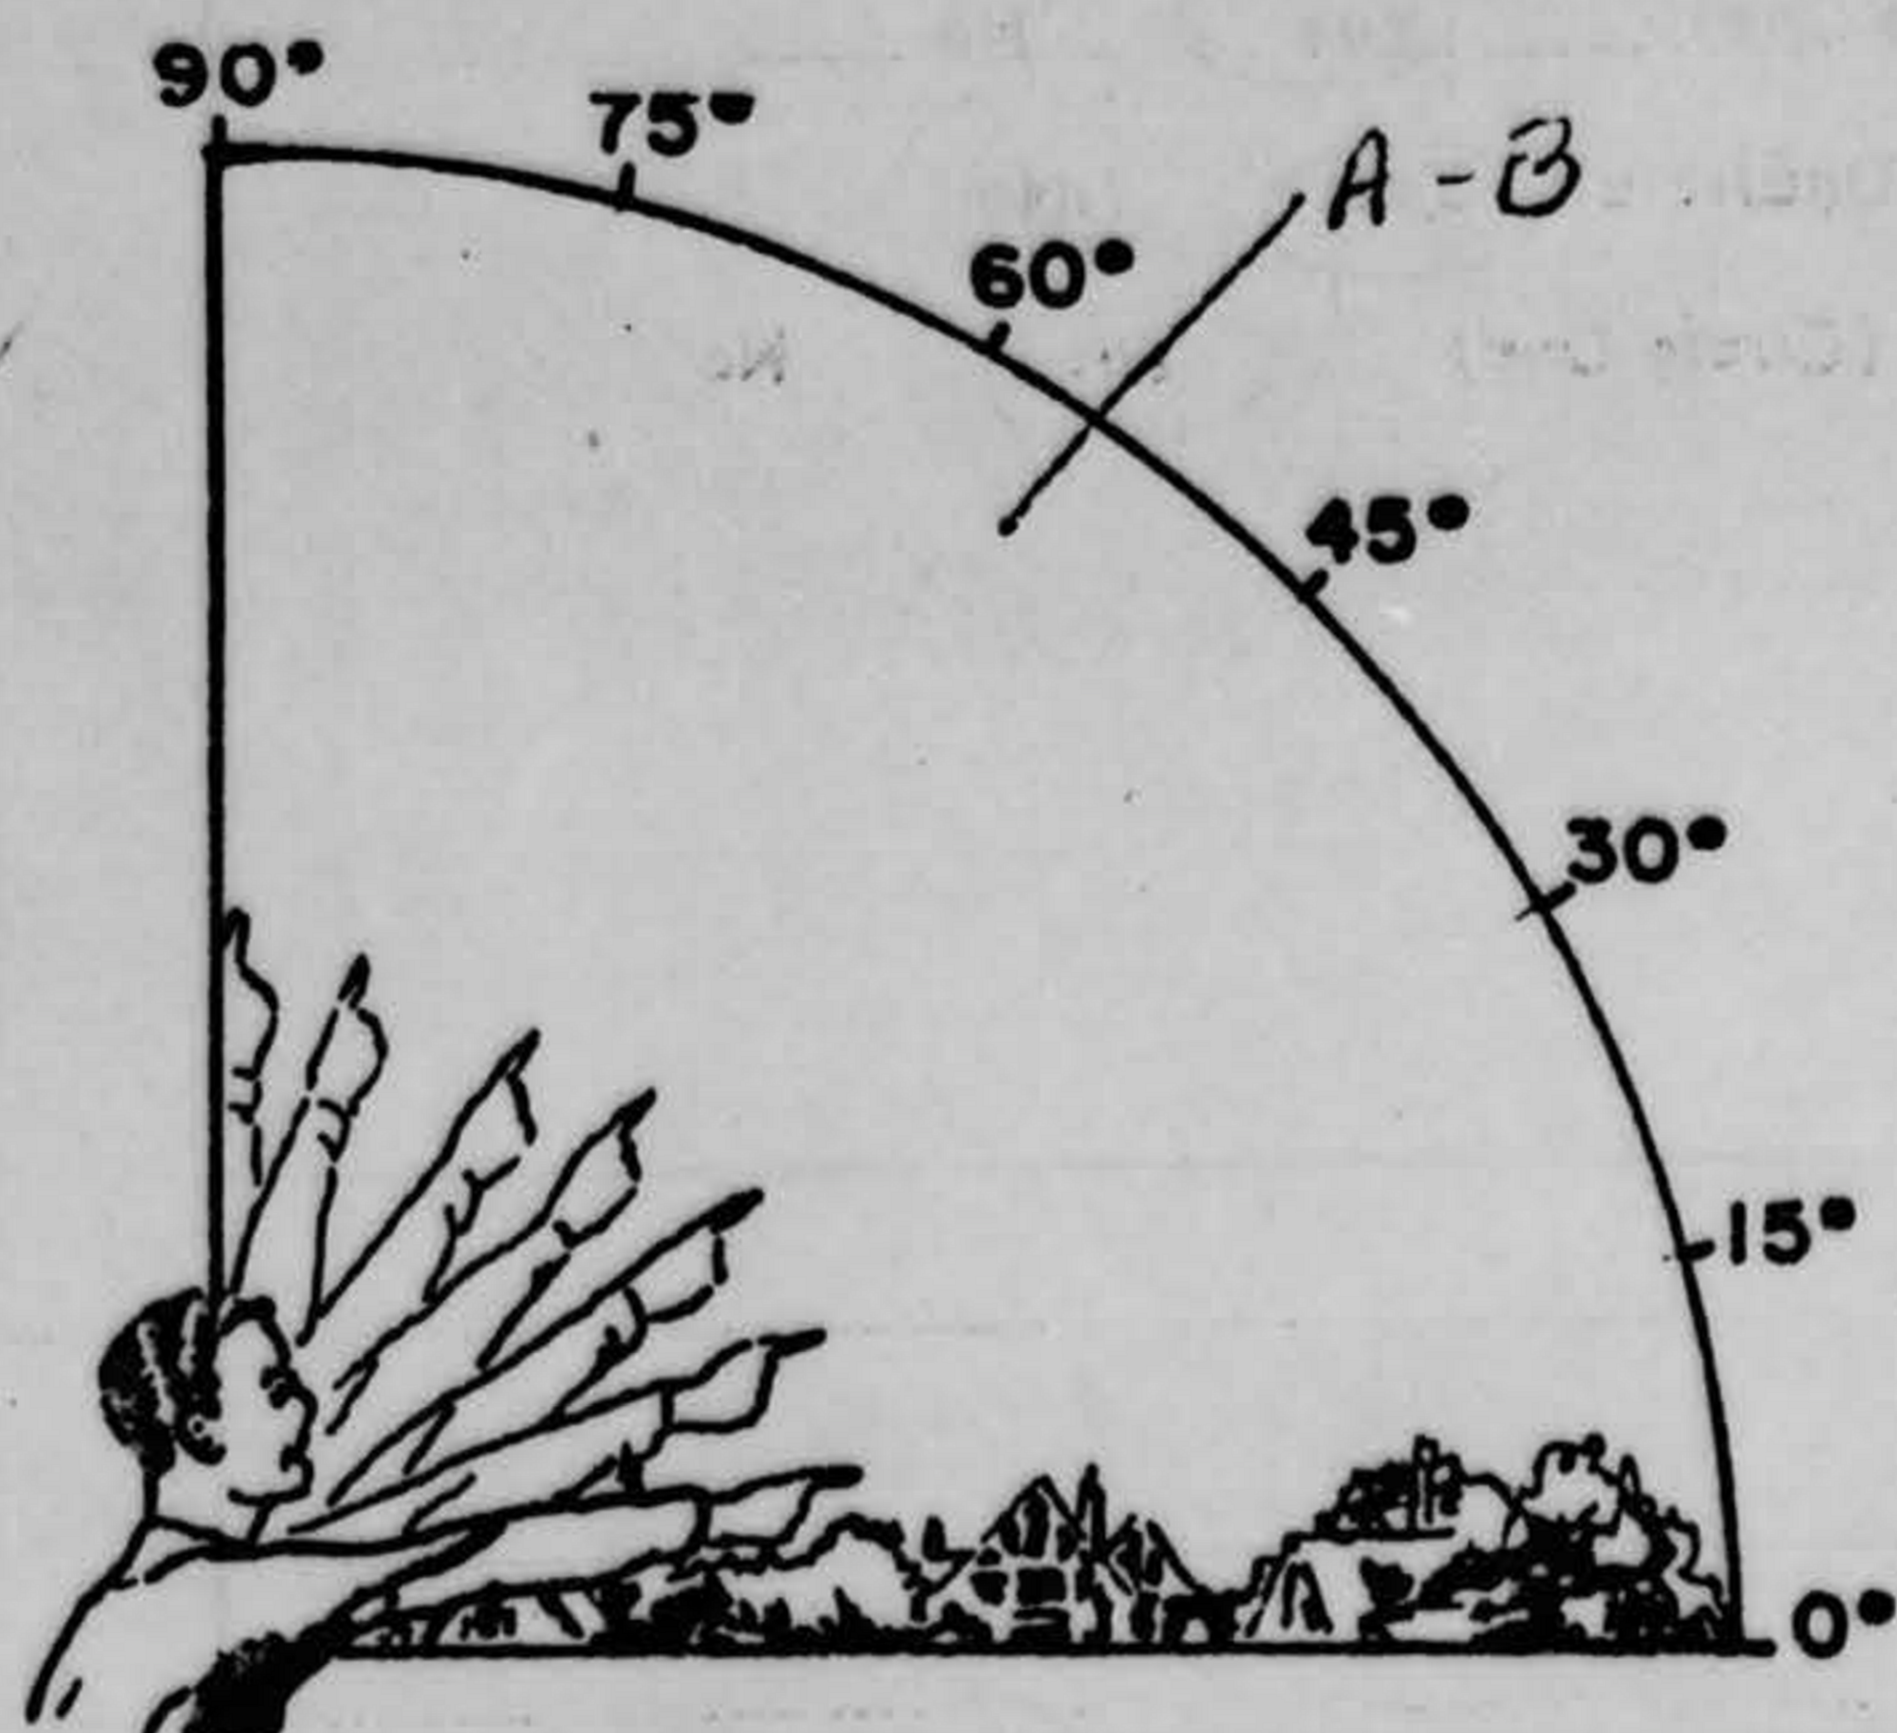

(Circle One) Yes No

25. Did you observe the object through any of the following?

- | | | | | | |
|-----------------|-----|----|----------------|-----|----|
| a. Eyeglasses | Yes | No | e. Binoculars | Yes | No |
| b. Sun glasses | Yes | No | f. Telescope | Yes | No |
| c. Windshield | Yes | No | g. Theodolite | Yes | No |
| d. Window glass | Yes | No | h. Other _____ | | |

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? _____

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

1st one: Travelled N to SE, 55° above horizon
(between Little Dipper & morning star)
disappeared; followed by
Two objects - one above the other
50 yards apart flying in circle
as if connected - moved side to side
and up-down in "W" shaped path

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

31. Was anyone else with you at the time you saw the object? (Circle One)

Yes

No

31.1 IF you answered YES, did they see the object too? (Circle One)

Yes

No

31.2 Please list their names and addresses:

5 witnesses

32. Please give the following information about yourself:

NAME

Last Name

First Name

Middle Name

ADDRESS

Street

City

Zone

State

TELEPHONE NUMBER

AGE

SEX

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

Day

Month

Year

34. Date you completed this questionnaire: _____

Day

Month

Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

Note:

The data given in this report is "3rd hand" - ie observed to RAMA AP to T/Sgt Barber to FTD OD.

My ~~residence~~, civilian, was visiting at ~~residence~~ in Macon when obj. a/c's were observed.

Details have been written up by AP. I asked Sgt Barber to have copy of report forwarded to Hq FTD, attn Maj Quintanilla.

Point of contact for further info:

RAMA CP, Robbers AFB, Ga

Extension 5481 or 3215

Maj R. S. Samuelsman

Addenda:

A Robbers a/c was airborne at 0802Z but was not believed to be in area.

Macon municipal airport: neg. a/c

at 0830Z A/P civilian Guard (RAMA) reported he saw a shooting star like object travelling 35° above horizon.
