PHOTO ANALYSIS REPORT

NR 64-54PAGE 1 OF 1 PAGESDATE OF REPORT 23 October 1964SUBJECT UFO REPORTLOCATION Oahu, HawaiiDATE 4 October 1964

PHOTOGRAPHY

AF _____ IR _____ QUALITY Good

PNRS Two photos lettered A and B and a strip of corresponding negatives. Camera - Kodak Brownie 127

1. PURPOSE: This report answers WO #64-95 from Major Quintanilla (TDEW), who requested evaluation of photography of possible UFO's taken at Karon Beach Park, Oahu, Hawaii.
2. ANALYSIS: Images on photographs A, B, and negatives are resultant to gouges in the film emulsion. The gouges are estimated to be 6 to 7 microns deep by a photo lab technician, and occurred during film processing.
3. This conclusion is basically in concurrence with the preliminary analysis performed by Captain J. M. Mills, Director of Intelligence, PACAFBASECOM/326 ADD.

ATTN OF: PACAFBASECOM (BDI)

13 Oct 1964

SUBJECT: Unidentified Flying Object (UFO) Report

TO: AFSC (FTD)
Wright-Patterson AFB, Ohio
45433

1. Attached are two (2) Kodacolor prints and negatives showing possible UFO's.
2. The pictures were taken at Kaiona Beach Park which is located just north of the extreme eastern end of the island of Oahu. The reporting party noticed no unusual visual or sound phenomena during the time the pictures were being taken. They were not aware of a possible UFO until the pictures came back from the processors. There were no other reports of unusual phenomena on that date.
3. Both photographs were taken within one minute of each other. Picture "A" is looking north west along the shore. Picture "B" faces the other direction south east towards Makapuu Head. The object in picture "A" could be almost directly over Kaneohe Marine Air Station. Direction of movement of object in picture "B" is from the north to south hemispheres.
4. The negatives and pictures were processed locally by Technicolor representatives. There were no spots on the other negatives or pictures of this film.
5. Paragraph 14, AFR 200-2, 20 July 1962 is guide for following information.

a. Description: See photograph. There was no visual sighting or sounds reported at the time the pictures were taken.

b. Description of course of object:

(1) First noticed when pictures were returned from processor.

(2) thru (6) N/A

c. Manner of observation:

(1) Ground photograph.

(2) Kodak Brownie 127 camera.

(3) N/A

d. Time and date:

(1) 04/2400Z - October

(2) Day - 1400 local.

e. Location: 21 19N - 157 40W

f. Identification information on observer:

(2) Military. [REDACTED] Naval Dental Clinic, Pearl Harbor Naval Station, Hawaii. Reliability considered good.

g. Weather:

(1) N/A

(2) 6,000 - 050° - 19 KTS
10,000 - 030° - 23 KTS
16,000 - 090° - 07 KTS
20,000 - 140° - 09 KTS
30,000 - 160° - 12 KTS
50,000 - 300° - 19 KTS

(3) None

(4) 15 miles

(5) Scattered clouds 3,000' and 5,000'.

(6) None

(7) N/A

h. Other unusual activity: None.

i. Intercept action: None.

j. Possible balloon release point: Kaneohe Marine Air Station.

k. Director of Intelligence, PACAFBASECOM/326 ADD.
Preliminary analysis: Possible spotting of negative of photograph "B" during manufacture or development of film. Possible spotting of photograph "A" during printing.

l. Physical evidence: Photographs and negatives attached.

6. Request physical evidence be returned after analysis.
