Dear Sirs,

As I explained in a former letter we sighted this object at my school and writing for my biology class, we were interested in knowing if anyone else had reported seeing a flying object or if you knew what it was. We are very interested to know and are anxiously awaiting your answer.

Thank you

Object we saw was 46°
North, 100 ft in the air, and
20 yards away.

Dear Sirs,

At exactly 9:04 on Tuesday November 17, 1964 in West Bridgewater Mass, I looked up at the sky to see two very strange lights. They had no definite shape and were spinning round and round at incredible speed. As they spun they came towards each other, but were too slow to be comets. It was a clear sky, there was a three-quarter moon, and the objects were 80 feet in the air, 170 yards away, and were about 2 feet in diameter. From where I stood they were 29° north and the moon was in back of me.

The same night at 9:30, another girl reported having seen a definite shape of some sort of flying object but it was definitely not a plane. It was 46° north, 100 feet in the air, and 20 yards away. It made
