DEAR SIR!

I AM WRITING TO YOU ON A SUBJECT TO WHICH I KNOW YOU ARE VERY FAMILER WHITH. UNIDENTIFIED FLYING OBJECTS. SO I WOULD LIKE TO ASK YOU A QUESTON CONCERING THIS SUBJECT. LAST WEEK I VIEWED AN OBJECT WHICH SEEMED TO BE TRAVELING AT HIGH SPEED ITI CAME FROM THE NORTH WESTERN PART OF THE SKY. AT THE TIME I SAW THIS OBJECT THE VISIBILITY WAS PERFECT. THIS OBJECT OR WHAT EVER IT WAS JUST SEEMED TO COME OUT OF THE VASTNESS OF SPACE.

IT REMINED ME VERY MUCH OF ROMAN CANDELS. IT WAS CIRCULAR IN SIZE AND ALSO THERE WERE SPARKS COMING FROM IT AS IT SPED THROUGH THE ATMOSPHERE. ALSO IT LEFT A TRAIL OF SMOKE BEHIND IT THEN

SUDDENLY IT JUST SEEMED TO (BURN
OUT. DO YOU THINK THIS WAS A METEOR
OR A UFO CONSIDERING THE WAY IT
ACTED? I WOULD APPRICATE YOUR OPINION
ON THIS.

THANK YOU SINCERELY

REPLY TO
ATTN OF: TDEW

SUBJECT: UFO Sighting, Shirley, Massachusetts, Nov 64 25 Nov 64

TO: Hq USAF SAFOI PB
Wash D C

This office has received a report of an unidentified flying object from [redacted], Shirley, Massachusetts. The following is a suggested reply.

Dear [redacted]

The object which you have described is similar to either a meteor or satellite decay. Several essential bits of information were ommitted precluding a firm evaluation. The duration was ommitted as well as the direction of travel for the arc distance through which the object passed. Satellite decays are distinguished from meteor observations by the direction of flight of the object and duration of the sighting.

A satellite observation from Massachussetts would hold an easterly component and the duration would be slightly longer that that associated with meteor observations.

FOR THE COMMANDER
