

1. DATE - TIME GROUP 4 December 64 04/1250Z	2. LOCATION Baker, Oregon
3. SOURCE Civilian & Military	10. CONCLUSION Visual (Astronomical → Stars/Planets) Radar (False Targets)
4. NUMBER OF OBJECTS One	
5. LENGTH OF OBSERVATION Two Hours	11. BRIEF SUMMARY AND ANALYSIS Object moving with morning star. Travelling East or SE. Observed through BX and surveyors scope. Observer on mountain looking down. Object disappeared by fading. Also radar returns at time of sighting.
6. TYPE OF OBSERVATION (BX) Ground-Visual Gnd -Radar	
7. COURSE Stationary	At time of initial report Astro bodies are in following positions: Jupiter setting in West, not visible during observations of stars/Planets. Venus rising at 110 deg azimuth. Mars high in SE at 35 deg elevation. Spica 15 deg above Venus. Deneb at 5 deg elevation 005 deg azimuth. Vega at 5 deg elevation 030 deg azimuth
8. PHOTOS ☐ Yes ☒ No	
9. PHYSICAL EVIDENCE ☐ Yes ☒ No	COMMENTS: Radar Evaluation as target anomalies since returns were weak and targets not clearly discernable on each scan. Reporting official indicated that the returns were possible due to false targets or sporadic noise. Correlation between visual objects and Radar report not established.

Baker, Oregon
5 December 1964

...During the early morning hours of December 5th, a UFO was spotted by at least five residents of Baker, Oregon, including three policemen. State Policeman William Howe said he saw the object at about 5:30 a.m., and watched it through binoculars for half an hour. The UFO was cylindrical in shape, and had a steady reddish light at its front, and a flickering yellowish light on the rear. The object was moving slowly from northeast to southeast during the period of observation....

1. DATE - TIME GROUP 6 December 64 06/1200Z	2. LOCATION Baker, Oregon
3. SOURCE Civilian	10. CONCLUSION Astronomical (METEOR)
4. NUMBER OF OBJECTS One	Description indicates meteor sighting.
5. LENGTH OF OBSERVATION 3 - 4 Seconds	11. BRIEF SUMMARY AND ANALYSIS
6. TYPE OF OBSERVATION Ground-Visual	Round object, flourescent blue, surface had crater like shadows. Tail or trail following. Object seemed to explode with tail forming behind. Disappeared behind hill after explosion.
7. COURSE Not Reported
