I am a farmer and having lived on a farm all of my life I have made a habit of looking around the sky before going to bed. On March 30, 1965 when I looked to the south there was this unusual object I watched it go from south to west and out of sight and wondered what it was, and as I was tired, went to bed, after reading the Journal Herald on April 1, 1965, I decided this might very well be the same object that was sighted in the Livingston area, I then called W.P.A.E.B. and reported that I had possibly saw the same object in a different location the same night.
