1. DATE - TIME GROUP 25 July 1965 25/0800Z	2. LOCATION Gales Ferry, Connecticut
3. SOURCE Civilian	10. CONCLUSION INSUFFICIENT DATA FOR EVALUATION
4. NUMBER OF OBJECTS One	Form 164 sent to witness over 60 days, and not returned. Case will be reevaluated if returned.
5. LENGTH OF OBSERVATION Not Reported	11. BRIEF SUMMARY AND ANALYSIS Observer described the object as a satellite traveling from East to West. At first he thought it was a shooting star but he discounted this as the object continued to reflect light instead of dissipating. It rose from 45 to 70 deg from the Northeast portion of the horizon towards the zenith. At this point he lost track of the object. Compared to the other satellites which he has observed this object appeared to be larger, and longer than wide. (Poss Arc)
6. TYPE OF OBSERVATION Ground-Visual	
7. COURSE West	
8. PHOTOS ☐ Yes ☒ No

25 JULY
Gales Ferry, Conn.

SUBJECT: UFO

TO: Sara Hunt

Received call from Mr. [REDACTED] 30 July 1965. I took the information to preclude his having to make his 15th phone call attempting to place this information in the proper channel. At 0300, 25 July 65, Mr. [REDACTED] cited what he described as a satellite traveling from east to west. At first he thought it was a shooting star but he discounted this as the object continued to reflect light instead of dissipating. It rose from 45° to 70° from the northeast portion of the horizon towards the zenith. At this point he lost track of the object. Compared to the other satellites which he has observed this object appeared to be larger, and longer than wide. Mr. [REDACTED] spent one year in the antarctic as a official observer for the IGY. He would like to receive information if we have any on what this object might have been and if we cannot explain the object he would appreciate receiving any releasable information concerning satellites launched from east to west. Mr. [REDACTED]'s address is:
