

1. DATE - TIME GROUP 25 July 65 25/2355Z	2. LOCATION Bloomingburg, New York
3. SOURCE Civilian	10. CONCLUSION AIRCRAFT
4. NUMBER OF OBJECTS One XXXXXXXXXXXXXXXXXXXX	
5. LENGTH OF OBSERVATION Few Minutes Not Reported- (?)	11. BRIEF SUMMARY AND ANALYSIS Round silver object observed at 37 deg elevation in North. Disappeared in a high vertical scent. Nothing observed other than a bright reflection. Sighting at dusk. Two small girls were the witnesses. Report submitted by Ronald Valton of Binghamton, N. Y. Flight included descent. Initial impression was that object was a star. Sighting two miles from airport in line with takeoff and landing pattern.
6. TYPE OF OBSERVATION Ground-Visual	
7. COURSE Stationary - Manuvered	
8. PHOTOS ☐ Yes ☒ No	COMMENTS: Description similar to sunlight reflecting from some object such as an a/c. Duration not included. Interview with the two witness was taped and forwarded. The sighting appeared in local news media. Forwarded from Steward AFB as per instruction regarding previous reports from this source. Sun reflecting from a/c or balloon probably cause of sighting. Balloon least likely because of descent in reported flight path.
9. PHYSICAL EVIDENCE ☐ Yes ☒ No

Unidentified Flying Object

Report Format

- (1) Description of the object(s)
 - (a) Shape
 - (b) Size compared to a known object (use one of the following terms: Head of a pin, pea, dime, nickel, quarter, half-dollar, silver dollar, baseball, grapefruit, basketball) held at arm's length.
 - (c) Color
 - (d) Number
 - (e) Formation, if more than one
 - (f) Any discernible features or details
 - (g) Tail, trail, or exhaust, including size of same compared to size of object(s).
 - (h) Sound, if heard, describe sound
 - (i) Other pertinent or unusual features
- (2) Description and course of the object(s)
 - (a) What first called the attention of the observer(s) to the object(s)
 - (b) Angle of elevation and azimuth of the object(s) when first seen.
 - (c) Angle of altitude and azimuth of the object(s) when last seen.
 - (d) Description of flight path and maneuvers of the object(s)
 - (e) Manner of disappearance of the object(s)
 - (f) Length of time in sight
- (3) Manner of observation
 - (a) Use one or any of the following in combination: Ground visual, ground electronic, air visual, air electronic, (if electronic, specify type of radio employed).
 - (b) State use of optical aids (telescopes, binoculars, and so forth) and description thereof.
 - (c) If the sighting is made while airborne, give type of aircraft, identification number, altitude, heading, speed, and home station.
- (4) Time and date of the sighting
 - (a) Time observation was made (local time)
 - (b) Date of sighting
 - (c) Light conditions, (use one of the following terms): Night, day, dawn, dusk.
- (5) Location of the observer(s)
 - (a) State latitude and longitude position of each observer, or position of object with known landmarks.
- (6) Identifying information of all observers
 - (a) Civilian-Name, age, mailing address, occupation
 - (b) Military-Name, grade, organization, duty, and estimate of reliability
- (7) Weather and wind aloft conditions at the time and place of the sighting.
 - (a) Observer(s) account of weather conditions
 - (b) Report from nearest A.S. or U.S. Weather Bureau office of wind direction and velocity in degrees and knots at surface, 6,000', 10,000', 15,000', 20,000', 30,000', 50,000', 80,000', if available
 - (c) Ceiling
 - (d) Visibility
 - (e) Amount of cloud cover

Report Format #1

Bloomington, 25 July, 1965

I. Description of the object(s)

- (a) Round
- (b) The size of a baseball (possibly larger) at arm's length.
- (c) Silver
- (d) One
- (e) -----
- (f) No
- (g) No
- (h) No
- (i) The object appeared to be reflecting sunlight.

II. Description and course of the object(s)

- (a) Casual glance
- (b) 37 degrees and due North (R.V. estimate)
- (c) verticle ascend
- (d) See Comments
- (e) High verticle ascent
- (f) Particular witness did not mention

III. Manner of Observation

- (a) Ground visual
- (b) No optical aids
- (c) -----

IV. Time and Date of sightings

- (a) Time 6:55 p.m.
- (b) 25 July, 1965
- (c) Dusk

Soaring space saucer sighted by swimmers scanning sunny sky

BLOOMINGBURG

The first flying saucer of the tourist season was sighted Sunday hovering over Bloomingburg's Sunshine House.

Judith Shaver, 13, and Nancy Morrow, 11, were swimming in the hotel's pool around 7 p.m. when the soaring space plate was spotted.

"I looked at the sky and saw a big bright thing," Nancy said. "I called Judy and she said, 'Oh, look! It's the first star.'"

However, Nancy said, she told Judy the object was moving too fast for it to be a celestial body.

Zigzags toward earth

The very bright, unidentified flying object zigzagged in a decline toward the earth, both girls said. Suddenly, the strange vessel stopped spiraling and went spinning off into space.

Afterwards, the girls said, they did not report the incident, because they did not think anyone would believe them.

When Judith finally told her mother, Mrs. Glenford Shaver, her mother answered, "Oh, sure! You saw 10 of them."

However, a strange incident had occurred, adding credulity to the girls' story.

While Judith and Nancy stood in the swimming pool and watched the weird craft, an unnamed woman driving along Bloomingburg's Main Street also saw the object.

The women reported the incident to Fred Goll, owner of Sunshine House, who corroborated her

story with that of the girls.

According to the anonymous woman's testimony, the vessel was "shiny, and looked like a kite or disk."

Goll admitted he had not personally seen the perambulating platter, nor had about 14 guests who were playing miniature golf at the time the craft made its descent.

However, Goll said, a fourth person also had been spectator to the event.

A spokesman at Wurtsboro Airport said the airfield had a few 'shiny' planes, but certainly none that are disk-shaped.

Anthony Barone, owner of the airport, offered one solution by saying the "object" could have been the sun's reflection of an airplane during take-off. But he could not be sure.

The airman outlined the take-off pattern at the airfield and said most planes would fly over Bloomingburg which is two miles from the field.

Would have been seen

He also said one of his pilots probably would have seen the vessel, if there had been one.

An official at Stewart Air Force Base in Newburgh declined comment, but advised checking the base's information office today. The official said that whatever the girls had seen had probably not come from the air base.

The National Aeronautics Space Agency (NASA) could not be reached for comment.

Unidentified Flying Object

(1) Description of the object(s)

- (b) Size compared to a known object (use one of the following terms: Head of a pin, pea, dime nickel, quarter, half-dollar, silver dollar, baseball, grapefruit, basketball) held at arm's length.
- (c) Color
- (d) Number
- (e) Formation, if more than one
- (f) Any discernible features or details
- (g) Tail, trail, or exhaust, including size of same compared to size of object(s).
- (h) Sound, if heard, describe sound
- (i) Other pertinent or unusual features

- (a) Who first called the attention of the observer(s) to the object(s)
- (b) Angle of elevation and azimuth of the object(s) when first seen.
- (c) Angle of altitude and azimuth of the object(s) when last seen.
- (d) Description of flight path and maneuvers of the object(s)
- (e) Manner of disappearance of the object(s)
- (f) Length of time in sight

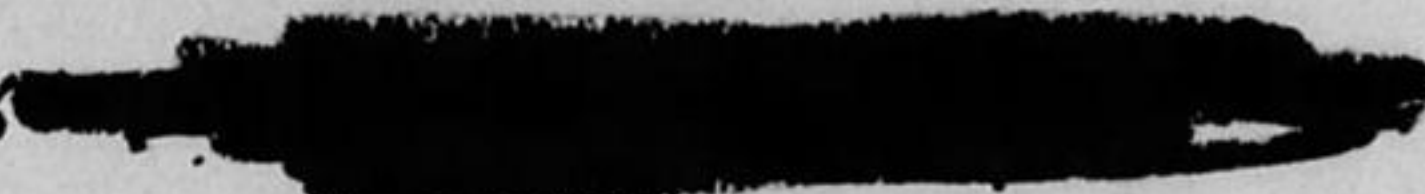

- (a) Use one or any of the following in combination; Ground visual, ground electronic, air visual, air electronic, (if electronic, specify type of radar employed).
- (b) Statement as to optical aids (telescopes, binoculars, and so forth) and description thereof.
- (c) If the sighting is made while airborne, give type of aircraft, identification number, altitude, heading, speed, and home station.

- (a) Time observation was made (local time)
(b) Date of sighting
(c) Light conditions, (use one of the following terms): Night, day, dawn,
dusk.

- (a) Exact latitude and longitude position of each observer, or position of object with known landmarks.

REPLY TO
ATTN OF: 4603C10

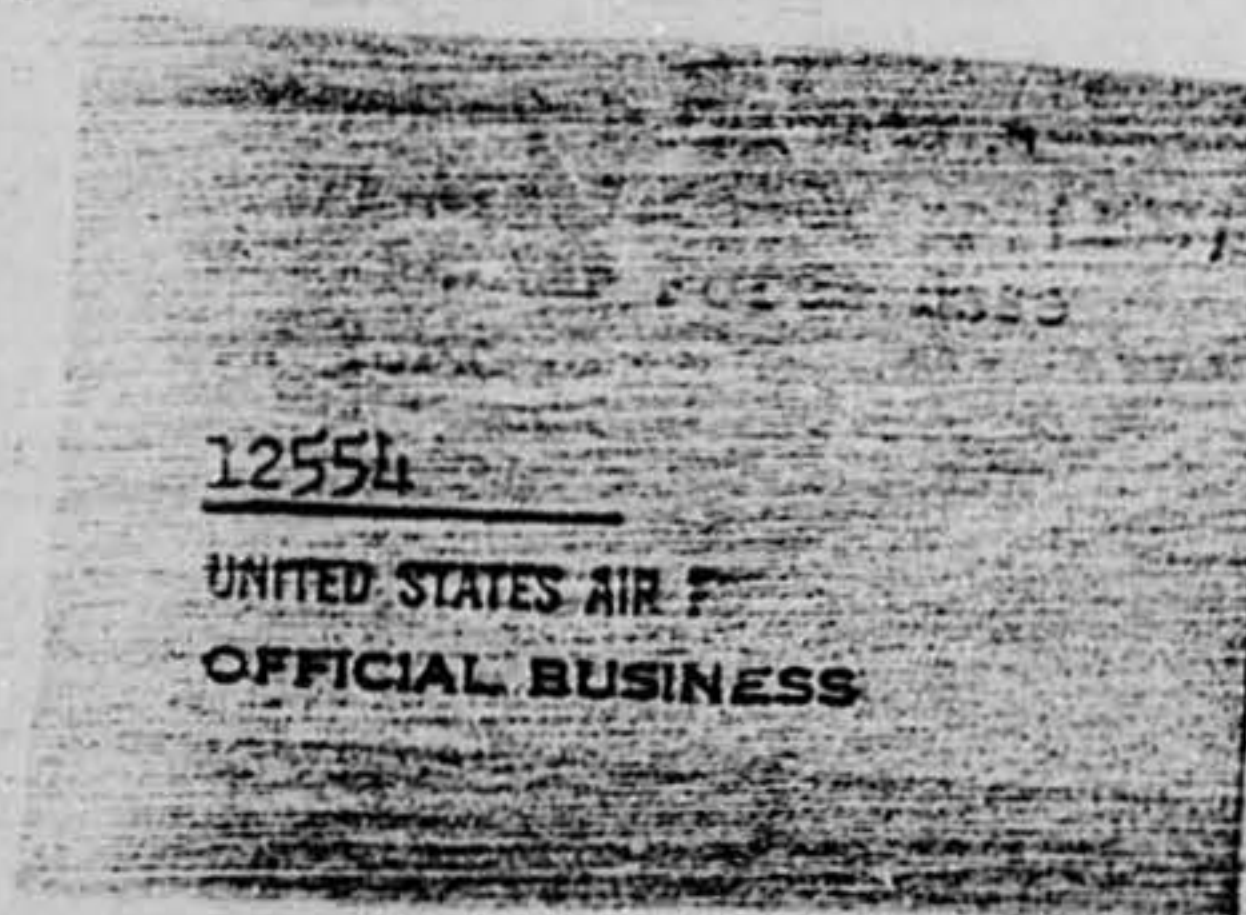

SUBJECT: Unidentified Flying Objects Reports

5 August 1965

TO: Colonel Eric de Jonckheere
Foreign Technology Division
Wright-Patterson AFB, Ohio

1. Reference is made to your letter, same subject, dated 7 Oct 64, addressed to 4713 Defense Systems Evaluation Squadron.
2. During the past year Mr. [REDACTED] has organized a "Tri-County Filter Center" to which all UFO sightings in his area are reported. Mr. [REDACTED] personally investigates the sightings and those for which he can offer no explanation are referred to Stewart AFB.
3. Attached is his latest "investigation" which, as per suggested in para 5 of above referenced letter, we are submitting to your office.

Donald L. Gilleland
DONALD L GILLELAND
1st Lt., USAF
Information Officer

Sir:

Enclosed please find the recording tape involving the Unidentified Flying Object incident at Bloomingburg, N.Y. I feel that it is reasonably accurate, and I sincerely hope that it will be of some value for what it is worth.

Several rather obscure, perhaps, items are as follows: Nancy Morrow stated that she related the incident to Mr. [REDACTED] shortly afterwards, while the paper (Middletown Record) quotes her as stating that the older girl (Judith Horner [REDACTED]) was the first to relate the incident.

The girls said that they believed that the object was a 'Flying Saucer'. I know that they were perhaps a bit foresighted, but since the Air Force classifies UFO's as simply Unknowns, I didn't want to disillusion them. But I can assure you sir, these two girls are purely innocent of any hoax. They're both two sweet kids, without any mischievous intentions.

As stated in my conclusions of the tape, should the Air Force send out an investigator, I believe he should ask about the cloud cover that [REDACTED] mentioned in her report. If it had been near the object it might have been a big influence on any conclusions.

I hereby turn all rights of the tape to the United States Air Force to do as they wish with it. [REDACTED]

I also hope the the Air Force will contact me on any issue stated on the tape that is puzzling to them. Also on any other relative issue.

Sincerely
[REDACTED]
