35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

The Akron Canton Airport is approximately 15 miles from here and the planes often come over the house. On the Fourth of July the sky was a vivid blue and the object was about as high as a plane would be if it were going to land. I wish I could draw better because it was very plain when I saw it and quite large.

Dear Sirs:

I am writing in regards to the Flying Saucer which may have landed in a wheat field in Carroll County.

At approximately 8:40 A.M., on July 4th, I saw a saucer. I was in the back yard with a cup of coffee. The sky was bright blue, and the U.F.O. was plainly visible, as it wasn't flying at a high altitude, but was flying fairly fast.

I told my neighbors about 10 minutes later that I saw it. I also told 4 other people the same day.

Two days ago I read in the paper about the spot in Joe Stevens's wheat.

Sincerely,

Mrs. ~~_____~~
