

PROJECT 1973 RECORD

1. DATE - TIME GROUP August 1965	2. LOCATION Charles City, Iowa
3. SOURCE Civilian	10. CONCLUSION 1. <u>Star (ARCTURUS)</u> 2. <u>Meteor (Star)</u> <i>7m 30s 7m 30s</i>
4. NUMBER OF OBJECTS Two	Will be reevaluated if form 164 sent is returned. Evaluation based on assumption that sighting occurred in August 1965, and that the duration of the second object was brief.
5. LENGTH OF OBSERVATION 1. 45 Minutes, 2. N/R	11. BRIEF SUMMARY AND ANALYSIS
6. TYPE OF OBSERVATION Ground-Visual	Object sighted at 2300 in the NW. Looked like a planet to the naked eye. Gave off lights that were red, green, blue and white. Moved up and down sideways etc. At 2317 object split into two parts. One part remained in the same position and the second descended to a position to the lower right and about 1/3 of the way down to the horizon. Motion reported as "flashed". At this point it disappeared. 1st object watched until 1145PM when fog obscured the area. Form 164 requested, not returned. Date missing. If sighting in August likely that the star ARCTURUS which was in the NW at 2300 was the Astro Body and a meteor observed passing the star giving an illusion that it was the same object splitting was the cause of the report.
7. COURSE West, Falling	
8. PHOTOS ☐ Yes ☒ No	
9. PHYSICAL EVIDENCE ☐ Yes ☒ No	

20. Do you think you can estimate the speed of the object?

(Circle One) Yes ☒ No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes ☒ No

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object?
(Circle One):

- a. Inside a building
- b. In a car
- ☒ c. Outdoors
- d. In an airplane (type) _____
- e. At sea
- f. Other _____

23. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- ☒ g. Other at dusk

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

- | | | | |
|--------------|--------------|--------------|--------------|
| a. North | c. East | e. South | g. West |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes ☒ No

25. Did you observe the object through any of the following?

- | | | | | | |
|-----------------|--------------------------------------|-------------------------------------|----------------|--------------------------------------|-------------------------------------|
| a. Eyeglasses | ☒ Yes | ☒ No | e. Binoculars | ☒ Yes | ☒ No |
| b. Sun glasses | ☒ Yes | ☒ No | f. Telescope | ☒ Yes | ☒ No |
| c. Windshield | ☒ Yes | ☒ No | g. Theodolite | ☒ Yes | ☒ No |
| d. Window glass | ☒ Yes | ☒ No | h. Other _____ | | |

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

It was slightly larger and brighter than a planet

14. Did the object disappear while you were watching it? If so, how?

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes ☒ No ☐ Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes ☐ No ☒ Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound could hear a sound

b. Color they were not able to see it

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

Part of the object would have been covered by the head of the match.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

The object stayed in one place at one point but moved back and forth and around down

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

Not seen at same. Each time at the Charles City Grove. ^{the first}
 Aug. 17 same object, same place
 1834 different object, different direction - but same object
 - same day.

31. Was anyone else with you at the time you saw the object? (Circle One)

☒ Yes

No

31.1 IF you answered YES, did they see the object too? (Circle One)

Yes

No

31.2 Please list their names and addresses:

[REDACTED], Green, Iowa
[REDACTED], Green, Iowa
[REDACTED], Green, Iowa
[REDACTED], Green, Iowa
[REDACTED], Green, Iowa
[REDACTED], Green, Iowa

Greene, Iowa
City Drive-In,
Charles City

32. Please give the following information about yourself:

NAME

Last Name

First Name

Middle Name

ADDRESS

Street

City

Zone

State

TELEPHONE NUMBER

AGE

SEX

indicate any additional information about yourself, including any special experience, which might be pertinent.

I am 16 years old. I am a junior at Green Community High School.
I am a B average student. I am taking Physics I and Algebra II
for my math and science courses.

33. When and to whom did you report that you had seen the object? *Nobody of any importance*

Day

Month

Year

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? *The first one disappeared*
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

horizon

If you have any more questions you would want answered don't hesitate to write me, I would be glad to answer them.

I realize that quite a bit of the information on UFO's is secret, but could you tell me how many sightings are reported each week and how many of these cannot be accounted for by LOGICAL explanations.

34. Date you completed this questionnaire:

8
DaySept
Month1965
Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

Following is a list of things which has been suggested that I say and my reasons why it is not.

- 1) airplane or helicopter - I know of no plane that would change colors as this object did, or change directions so fast.
- 2) planet - while the changing of colors and flickering would be accounted for in this instance, the change of direction of travel would not be.
- 3) satellite - I know of no satellite that would appear this big and bright through the atmosphere. Also I know of no satellite that changes direction repeatedly.
- 4) meteorite - Not because object changed direction repeatedly.
- 5) weather balloon - This may account for changes of color and changes of direction but certainly not the splitting apart of the object.

On September 4 I saw this same object (~~same~~ same place at least) while I was at the drive-in. This time it did not change colors too much but it brightened and dimmed and finally faded out.

Since I have seen several of these objects in the last couple of weeks, would it be possible for you to send me a couple of copies of this questionnaire to have on hand for the next time I see a UFO. Also could you give me permission to type ^{extra} copies of this questionnaire.

My Address:

Dear Mr. ~~██████~~,

Reference your letter of 24 August 1965 in which you reported seeing an unidentified object. The information in your letter was not sufficient for evaluation. It is requested that you fill out the attached FTD Form 164 and return it in the envelope provided.

The Air Force wishes to thank you for your interest in this subject.

Sincerely,

HECTOR QUINTANILLA, Jr, Major, USAF
Chief, Project Blue Book

Re: UFO report

On file at:

I have a UFO sighting report from a private citizen.

The UFO was seen at 11:30 P.M. at the west end of Charles City, Iowa. The object looked like a bright light to the naked eye. It was not like that seen in white, blue, green, and orange in color. The object moved up, down, sideways, and occasionally in circles and half circles. At 11:45 P.M. the object stopped moving and divided into two parts. The second part flashed to the lower right and disappeared out of the way to the horizon and then disappeared.

The first object continued to move as before. The object now had some white color than before. It continued to watch the UFO until approximately 11:45 P.M. The UFO was starting to settle over the area now. The last flash of the object was a bright red flash.

The following people (and addresses) observed the UFO from the Charles City Drive-In. There may have been more but I know the ones who saw it:

- | | |
|-------------------------|-----------------------------|
| John Barth, Greene | James Ritter, Greene |
| Bruce Burroughs, Greene | Jim Galle, Greene |
| Doug Rufferidge, Greene | Jerry Loomer, Greene |
| Don Munsch, Greene | Jerry Monk, Greene |
| Jim Meek, Greene | Bob Rist, Greene |
| Steve Schroeder, Greene | The manager of the Drive-In |

Jerry Monk commented at the time of the sighting that he had seen the object about 1000 feet above the ground and that it was not like anything he had ever seen before. He said it was a bright light and it was not like anything he had ever seen before.

I have no other information on this. I will let you know if I hear anything more on this.

Mrs. Hunt/man/SAFOICC/72842/20 Sep 65

Dear Mr. [REDACTED]

SEP 20 1965

This is in reply to your report of your observation of an aerial object on the night of 21 August 1965.

The object which you observed has the characteristics of a star or planet. The star Arcturus was in the position of the reported object. The apparent motion and brightness can be attributed to atmospheric conditions at the time of the sighting.

Thank you for reporting your observation to the Air Force.

Sincerely,

JOHN P. SPAULDING

Ar. (Ar. 1000)

1. When did you see the object? <u>21</u> <u>August</u> <u>1965</u> Day Month Year	2. Time of day: <u>11</u> <u>00</u> Hour Minutes (Circle One): A.M. or <u>P.M.</u>
3. Time Zone: (Circle One): a. Eastern <u>b. Central</u> c. Mountain d. Pacific e. Other _____ (Circle One): <u>a. Daylight Saving</u> b. Standard	
4. Where were you when you saw the object? <u>[REDACTED]</u> _____ _____ Near _____ City or Town State or County	
5. How long was object in sight? (Total Duration) <u>1</u> Hours <u>15</u> Minutes <u>00</u> Seconds a. Certain <u>b. Fairly certain</u> c. Not very sure d. Just a guess 5.1 How was time in sight determined? <u>by watch</u> 5.2 Was object in sight continuously? Yes <u>X</u> No _____	
6. What was the condition of the sky? DAY a. Bright <u>b. Cloudy</u> NIGHT <u>a. Bright</u> b. Cloudy	
7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object? (Circle One): a. In front of you b. In back of you c. To your right d. To your left e. Overhead f. Don't remember	

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- ☒ c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- ☒ c. No moonlight - pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- ☒ a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- a. Dry
- ☒ b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

Fog for last 10 minutes

10. The object appeared: (Circle One):

- a. Solid
- b. Transparent
- c. Vapor
- ☒ d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- ☒ a. Brighter
- b. Dimmer
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

Brighter than the brightest star

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
 - b. Like a bright star
 - c. Sharply outlined
 - d. Don't remember

- e. Other *The edges of the object were slightly blurred, something like the sun seen with a telescope*

13. Did the object:

(Circle One for each question)

- | | | | |
|---|--------------------------------------|--------------------------|----------------------------------|
| a. Appear to stand still at any time? | ☒ Yes | ☐ No | ☐ Don't know |
| b. Suddenly speed up and rush away at any time? | ☒ Yes | ☐ No | ☐ Don't know |
| c. Break up into parts or explode? | ☒ Yes | ☐ No | ☐ Don't know |
| d. Give off smoke? | ☒ Yes | ☐ No | ☐ Don't know |
| e. Change brightness? | ☒ Yes | ☐ No | ☐ Don't know |
| f. Change shape? | ☒ Yes | ☐ No | ☐ Don't know |
| g. Flash or flicker? | ☒ Yes | ☐ No | ☐ Don't know |
| h. Disappear and reappear? | ☒ Yes | ☐ No | ☐ Don't know |
