

PROJECT 10073 RECORD

1. DATE - TIME GROUP August 65 Night	2. LOCATION Avon, New York
3. SOURCE Civilian	10. CONCLUSION Other (MISINTERPRETATION OF CONVENTIONAL OBJECTS)
4. NUMBER OF OBJECTS Many on different nights	
5. LENGTH OF OBSERVATION Not reported	11. BRIEF SUMMARY AND ANALYSIS Observers saw a bright white light and several small lights around it. They saw the same lights at the same time and the same place on several following nights. Also saw a flashing green light gliding silently across the sky. It disappeared behind a tree.
6. TYPE OF OBSERVATION Ground-Visual	
7. COURSE SEE CASE FILE	Although the data is insufficient there is no need to follow up because it is quite obvious that the objects were stars and aircraft. Therefore this case is carried under Other (Misinterpretation of Conventional Objects)
8. PHOTOS ☐ Yes ☒ No	
9. PHYSICAL EVIDENCE ☐ Yes ☒ No	

12-15-65

From New York
March 31. 1866

it was only about twenty yards up
in the sky. It did not make
any sound, however. Please send
information to the Editor of the
Chronicle. I hope you can explain
this, especially the green light.

Very truly yours,

[REDACTED]
