

PROJECT 10073 RECORD

1. DATE - TIME GROUP August 1965	2. LOCATION Albuquerque, New Mexico
3. SOURCE Civilian	10. CONCLUSION A/C
4. NUMBER OF OBJECTS 1, 4	
5. LENGTH OF OBSERVATION 2, 3 Minutes	11. BRIEF SUMMARY AND ANALYSIS One object initially, four later. Bluish at first thought to be stars. Objects in trail. Near moon. Flame at back. High in West, seemed to go higher. 3 Minutes for first object, 2 minutes for the other four. Observed with BX.
6. TYPE OF OBSERVATION Ground-Visual (BX)	
7. COURSE Maneuvers, Not Stated	COMMENTS: Date not included. Degrees of arc through which objects moved not included. Possible A/C or Satellites. If motion confined to small area and disappearance caused by clouds obscuring area objects could be stars. Insufficient Data pending return of Form 164's. Object passed through considerable arc. No data presented to indicate that the objects could NOT have been a/c.
8. PHOTOS ☐ Yes ☒ No	
9. PHYSICAL EVIDENCE ☐ Yes ☒ No	

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- ☒ c. Many
- d. Don't remember

8.2 MOON (Circle One):

- ☒ a. Bright moonlight
- b. Dull moonlight
- c. No moonlight — pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- b. Hazy
- ☒ c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- ☒ a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- ☒ a. Solid
- b. Transparent
- c. Vapor
- ☒ d. As a light
- e. Don't remember

object was both solid and light.

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- ☒ a. Brighter
- b. Dimmer
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

12. The edges of the object were:

- (Circle One)
- ☒ a. Fuzzy or blurred
 - b. Like a bright star
 - c. Sharply outlined
 - d. Don't remember

e. Other _____

13. Did the object:

(Circle One for each question)

- | | | | |
|---|--------------------------------------|----|------------|
| a. Appear to stand still at any time? | ☒ Yes | No | Don't know |
| b. Suddenly speed up and rush away at any time? | ☒ Yes | No | Don't know |
| c. Break up into parts or explode? | Yes | No | Don't know |
| d. Give off smoke? | Yes | No | Don't know |
| e. Change brightness? | Yes | No | Don't know |
| f. Change shape? | Yes | No | Don't know |
| g. Flash or flicker? | Yes | No | Don't know |
| h. Disappear and reappear? | Yes | No | Don't know |

14. Did the object disappear while you were watching it? If so, how?

object spiraled up and disappeared out of view.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

☒ Yes

☐ No

☐ Don't Know.

IF you answered YES, then tell what

it moved behind:

behind a cloud ("second sighting")
from object disappeared behind a cloud.

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

☐ Yes

☒ No

☐ Don't Know.

IF you answered YES, then tell what

in front of:

17. Tell in a few words the following things about the object:

a. Sound

No sound

b. Color

light turquoise with intermixture of white light
was seen from the tail

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One)

~~Yes~~

No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes

No

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object?

(Circle One):

a. Inside a building

b. In a car

☒ c. Outdoors

d. In an airplane (type) _____

e. At sea

f. Other _____

23. Were you (Circle One)

a. In the business section of a city?

☒ b. In the residential section of a city?

c. In open countryside?

d. Near an airfield?

e. Flying over a city?

f. Flying over open country?

g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North

c. East

e. South

g. West

b. Northeast

d. Southeast

f. Southwest

h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

Yes

No

25. Did you observe the object through any of the following?

a. Eyeglasses

Yes

No

e. Binoculars

☒ Yes

No

b. Sun glasses

Yes

No

f. Telescope

Yes

No

c. Windshield

Yes

No

g. Theodolite

Yes

No

d. Window glass

Yes

No

h. Other _____

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

Object could be compared to a jet helmet in appearance or shape.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

Changed at this point → B
to N.E. direction

29. IF there was MORE THAN ONE object, then how many were there? _____

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

* first time one (1)

second time two (2)

These came from
a southern direction
then changed to a westerly
direction.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

31. Was anyone else with you at the time you saw the object? (Circle One)

Yes

No

31.1 IF you answered YES, did they see the object too? (Circle One)

Yes

No

31.2 Please list their names and addresses:

Mr. [REDACTED]
 Mrs. [REDACTED]
 Mr. [REDACTED]
 Mrs. [REDACTED]

} Albuquerque, New Mexico

32. Please give the following information about yourself:

NAME

Last Name

First Name

Middle Name

ADDRESS

Street

City

Zone

State

TELEPHONE NUMBER

AGE

SEX

F.

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

Day

Month

Year

August

1965

Kirtland Air Force Base

34. Date you completed this questionnaire:

20 September 1965
Day Month Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

Day August Month 1965 Year

2. Time of day: 9:30

Hour

Minutes

(Circle One):

A.M.

or

P.M.

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

[REDACTED]

Nearest Postal Address

Albuquerque

City or Town

New Mexico

State or County

5. How long was object in sight? (Total Duration)

Hours

ten Minutes

Seconds

a. Certain

b. Fairly certain

c. Not very sure

d. Just a guess

5.1 How was time in sight determined?

by wristwatch

5.2 Was object in sight continuously?

Yes

No

6. What was the condition of the sky?

DAY

a. Bright

b. Cloudy

NIGHT

a. Bright

b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right

d. To your left
e. Overhead
f. Don't remember

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- ☒ c. Many
- d. Don't remember

8.2 MOON (Circle One):

- ☒ a. Bright moonlight
- b. Dull moonlight
- c. No moonlight — pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- b. Hazy
- ☒ c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- ☒ a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- ☒ a. Solid
- b. Transparent
- c. Vapor

- ☒ d. As a light
- e. Don't remember

object was both-solid and light.

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
- b. Dimmer
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

12. The edges of the object were:

- (Circle One):
- ☒ a. Fuzzy or blurred
 - b. Like a bright star
 - c. Sharply outlined
 - d. Don't remember

e. Other _____

13. Did the object:

(Circle One for each question)

- | | | | |
|--|--------------------------------------|----|------------|
| ☒ a. Appear to stand still at any time? | ☒ Yes | No | Don't know |
| ☒ b. Suddenly speed up and rush away at any time? | ☒ Yes | No | Don't know |
| c. Break up into parts or explode? | Yes | No | Don't know |
| d. Give off smoke? | Yes | No | Don't know |
| e. Change brightness? | Yes | No | Don't know |
| f. Change shape? | Yes | No | Don't know |
| g. Flash or flicker? | Yes | No | Don't know |
| h. Disappear and reappear? | Yes | No | Don't know |

14. Did the object disappear while you were watching it? If so, how?

Object sped up and disappeared out of view.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

☒ Yes

☐ No

☐ Don't Know.

If you answered YES, then tell what

it moved behind:

a cloud

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

☐ Yes

☒ No

☐ Don't Know.

If you answered YES, then tell what

in front of:

17. Tell in a few words the following things about the object:

a. Sound *no sound*

b. Color *light turquoise-blue with inter-mixture of white light*
was seen from the tail.

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One)

Yes

☒ No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes

☒ No

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object?

(Circle One):

- a. Inside a building
- b. In a car
- ☒ c. Outdoors
- d. In an airplane (type) _____
- e. At sea
- f. Other _____

23. Were you (Circle One)

- a. In the business section of a city?
- ☒ b. In the residential section of a city?
- c. In open countryside?
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

- | | | | |
|--------------|--------------|--------------|--------------|
| a. North | c. East | e. South | g. West |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

Yes

☒ No

25. Did you observe the object through any of the following?

- | | | | | | |
|-----------------|-----|----|--|--------------------------------------|----|
| a. Eyeglasses | Yes | No | ☒ e. Binoculars | ☒ Yes | No |
| b. Sun glasses | Yes | No | f. Telescope | Yes | No |
| c. Windshield | Yes | No | g. Theodolite | Yes | No |
| d. Window glass | Yes | No | h. Other _____ | | |

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

Object could be compared to a jet helmet.

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

1. DATE - TIME GROUP 2 August 65 03/0450Z	2. LOCATION Albuquerque, New Mexico
3. SOURCE Civilian	10. CONCLUSION Astronomical (METEOR) ✓ Duration possible meteor. Description of brightness and trail in accord with this analysis. Blinking on and off three times does not fit. Additional witnesses did not report blinking.
4. NUMBER OF OBJECTS Two (1)	11. BRIEF SUMMARY AND ANALYSIS 1. Two objects like "comets", one behind the other. Headed South leaving trail of light. Appeared to go on and off three times for a duration of 2 seconds each. A/C West of lights. Bright white. 2. Light just like lightning going South. Second and third light just behind. Appeared to be about 300 yds wide. Estimated 30 miles away. Tail as long as yard stick at arms length with size of object as golf ball.
5. LENGTH OF OBSERVATION 6 Seconds, 12 Seconds	
6. TYPE OF OBSERVATION Ground-Visual	
7. COURSE South	
8. PHOTOS ☐ Yes ☒ No	
9. PHYSICAL EVIDENCE ☐ Yes ☒ No	

MEMO FOR THE RECORD: 3 Aug 65

Maj Factorow at Kirtland AFB, has been deluged with many many reports of unidentified flying objects. The majority of which are playing lights.

He requested permission to forward these reports as a unit on forms rather than in a TWX, as stated in accordance with AFR 200-2. TSgt David N Moody gave him a verbal okay.

He will forward these reports to our office. Also, he requested clarification on release of information to the press by the Base PIO. Informed him that UFOs as such are unclassified and that AFR200-2 provides for release of evaluations through SAFOI. Its only for him to tell the press that they are conducting an investigation and its okay to release information on identified objects, such as known a/c, etc because they are not unidentified.

Wright Patterson AFB, Ohio

Attn: Sgt Moody

1. In accordance with telephone conversation this date, attached are copies of information received on alleged UFO's. The weather at 2255 local was 7000, scattered 12,000 broken, 50 mile visibility, temperature 64, Dew point 57, winds 230 at 5 knots, altimeter setting 3011.

2. I was unable to confirm any aircraft in the area, however, I feel that the sightings are probably over-flying aircraft in the broken cloud decks. This type of sky coverage is unusual in this area and there has been heavy UFO publicity that you are quite familiar with.

III INDUSTRIAL OCCURRENCES, APEX BEE LINE REPORTS, AIRCRAFT ACCIDENTS, COMPL INT, CASUALTIES, OVERTLY DISMISSING AIRCRAFT, RECOMMENDATIONS, ETC

1. A call was received at 2203 hours on 2 Aug 65 from Mr. Allen Martiney, 2620 W. ... Albuquerque, N. Mex. He reported he saw two objects like comets, one behind the other going south leaving a trail of light at about 9:50 PM, 2 Aug 65. The lights appeared to go on and off at about two seconds duration for three times. There was an airplane just west of the lights. The light was a bright white light. He was located at the intersection of Menard and Louisiana when he saw the lights. His wife and two children and a city power company truck driver also saw the light. The info was passed to Capt Ziegler, Bona O.D., who also contacted Mr. Martiney.

2. A call was received at 2217 hours from a Mr. Wilbur Aragon, Box 322 San Fidel New Mexico on a V.F.O. He reported that about 9:50 PM 2 Aug 65 he saw a light just like lightning, white-pure lightning heading south. There was a second and third light in line close behind. The duration of the light was about 1 second. The light appeared to be about 300 feet in width. The light appeared to be about 300 miles south of San Fidel. Capt Ziegler was notified.

3. Sgt Parker, Air Police called at 2225 hours on a V.F.O. report from N. Mex. to police. I asked him to report this information to Captain Ziegler, Bona O.D.

I acknowledge receipt for classified messages listed in section I.		
DATE	PHONE	SIGNATURE AND GRADE

UFO QUESTIONNAIRE

1. Description of the Object(s):

- a. Shape three separate shafts of bright light.
- b. Size compared to a known object (Use one of the following terms: Head of a pin, pea, dime, nickel, quarter, half dollar, silver dollar, baseball, grapefruit or basketball) held in the hand at about arm's length.
"300 yards wide" { I ASSUME THIS IS THE LENGTH OF THE BRIGHT LIGHT SHAFTS, S.D.O. WAS UNCERTAIN OF INTERPRETATION. } 03
- c. Color bright white like lightning
- d. Number three
- e. Formation, if more than one in line formation, one behind the other
- f. Any discernible features or details _____
- g. Tail, trail, or exhaust, including size of same compared to size of object(s) _____
- h. Sound; if heard, describe sound _____
- i. Other pertinent or unusual features _____

2. Description of Course of Object(s):

- a. What first called the attention of observer(s) to the object(s)? _____

The O.D. received this report from
the S.D.O. and did not talk to the driver

b. Angle or elevation and azimuth of object(s) when first observed.

Object appeared to be 30 miles away
from SAN FIDEL, N.M.

c. Angle or elevation and azimuth of object(s) upon disappearance.

d. Description of flight path and maneuvers of object(s)
headed straight south

e. How did the object(s) disappear? (Instantaneously to the North, etc.)

f. How long (were) the object(s) visible? (Be specific, 5 minutes, 1 hour, etc.)

6 seconds

3. Manner of Observation:

a. Use one or any combination of the following items:
Ground-visual, air visual, ground-electronic, air-electronic.
(If electronic, specify type of radar)

b. Statement as to optical aids (telescopes, binoculars, etc.) used and description thereof.

c. If the sighting occurred while air-borne, give type of aircraft, identification number, altitude, heading, speed, and home station.

4. Time and Date of Sighting:

a. Zulu time-date group of sighting 2150 LOCAL

b. Light conditions (Use one of the following terms: Night, day, dawn, dusk)

NIGHT

5. Location of Observer(s): Give exact latitude and longitude of each observer, and/or geographical position

~~SAN FIDEL~~ SAN FIDEL, N.M.

6. Identifying Information on Observer(s):

a. Civilian - Name, age, mailing address, occupation, and estimate of reliability.

~~██████████~~ SAN FIDEL N.M.

b. Military - Name, grade, organization, duty, and estimate of reliability.

7. Weather and Winds: Observer(s) account of weather conditions.

UFO QUESTIONNAIRE

1. Description of the Object(s):

a. Shape Odd - like jungle hats - even flat

b. Size compared to a known object (Use one of the following terms: Head of a pin, pea, dime, nickel, quarter, half dollar, silver dollar, baseball, grapefruit or basketball) held in the hand at about arm's length.

Small, at first thought stars

c. Color Bluish

d. Number One at first near moon, - four later

e. Formation, if more than one 4 in trail

f. Any discernible features or details None

g. Tail, trail, or exhaust, including size of same compared to size of object(s)

Little flame at back end

h. Sound; if heard, describe sound None

i. Other pertinent or unusual features None

2. Description of Course of Object(s):

a. What first called the attention of observer(s) to the object(s)?

Looking at moon saw movement

UFO QUESTIONNAIRE

1. Description of the Object(s):

- a. Shape spot of light followed by comet-like tail
- b. Size compared to a known object (Use one of the following terms: Head of a pin, pea, dime, nickel, quarter, half dollar, silver dollar, baseball, grapefruit or basketball) held in the hand at about arm's length.
golf ball at arms length with tail as long as a yardstick at arms length.
- c. Color WHITE
- d. Number TWO
- e. Formation, if more than one one following the other, the second in the tail of the first.
- f. Any discernible features or details bright tail blinked on and off; on two seconds then off two seconds
- g. Tail, trail, or exhaust, including size of same compared to size of object(s)
tail as long as a yardstick at arms length
- h. Sound; if heard, describe sound NONE
- i. Other pertinent or unusual features _____

2. Description of Course of Object(s):

- a. What first called the attention of observer(s) to the object(s)?

Observer was outside watching power company trucks doing repair work when he noticed the UFO

The O.D. received details for this report
MAR 1964

b. Angle or elevation and azimuth of object(s) when first observed.

elevation 25° from vertical

c. Angle or elevation and azimuth of object(s) upon disappearance.

disappeared over Kirtland AFB

d. Description of flight path and maneuvers of object(s)

straight path south

e. How did the object(s) disappear? (Instantaneously to the North, etc.)

instantaneously

f. How long (were) the object(s) visible? (Be specific, 5 minutes, 1 hour, etc.)

Blinked on three times and were visible for total period of about 12 seconds.

3. Manner of Observation:

a. Use one or any combination of the following items: Ground-visual, air visual, ground-electronic, air-electronic. (If electronic, specify type of radar)

Ground visual

b. Statement as to optical aids (telescopes, binoculars, etc.) used and description thereof.

NONE

c. If the sighting occurred while air-borne, give type of aircraft, identification number, altitude, heading, speed, and home station.

N/A

4. Time and Date of Sighting:

2150 LOCAL

a. Zulu time-date group of sighting

b. Light conditions (Use one of the following terms: Night, day, dawn, dusk)

NIGHT

5. Location of Observer(s): Give exact latitude and longitude of each observer, and/or geographical position

Corner of LOUISIANA and MENARD in

Albuquerque

6. Identifying Information on Observer(s):

a. Civilian - Name, age, mailing address, occupation, and estimate of reliability.

~~REDACTED~~, AGE 35, ~~REDACTED~~
SAFEWAY STORES CLERK, He had both his children, his wife
and a good company. They all saw the same objects.

b. Military - Name, grade, organization, duty, and estimate of reliability.

7. Weather and Winds: Observer(s) account of weather conditions.

clear night

1. DATE - TIME GROUP 3 August 65 04/0230Z	2. LOCATION Albuquerque, New Mexico
3. SOURCE Civilian	10. CONCLUSION FLARES/FIREWORKS Description indicates flares or fireworks. Vertical motion not consistant with meteor observations and duration too brief for decay of space debris.
4. NUMBER OF OBJECTS Two	11. BRIEF SUMMARY AND ANALYSIS Two objects observed several minutes apart. One green other yellow. Glowing green object falling to Earth. Second object disappeared into sky straight up. Observation duration 3-4 seconds.
5. LENGTH OF OBSERVATION 3 - 4 Seconds	
6. TYPE OF OBSERVATION Ground-Visual	
7. COURSE Down & Up	
8. PHOTOS ☐ Yes ☒ No	
9. PHYSICAL EVIDENCE ☐ Yes ☒ No

UFO QUESTIONNAIRE

1. Description of the Object(s):

a. Shape as large as a basketball

b. Size compared to a known object (Use one of the following terms: Head of a pin, pea, dime, nickel, quarter, half dollar, silver dollar, baseball, grapefruit or basketball) held in the hand at about arm's length.

c. Color Green

d. Number Two

e. Formation, if more than one No formation, two were seen minutes apart about 2 miles from observer

f. Any discernible features or details

g. Tail, trail, or exhaust, including size of same compared to size of object(s)

None

h. Sound; if heard, describe sound

None

i. Other pertinent or unusual features One of the objects plunged to the ground, turned yellow and disappeared, other disappeared into sky.

2. Description of Course of Object(s):

a. What first called the attention of observer(s) to the object(s)?

Glowing green object falling to earth.

b. Angle or elevation and azimuth of object(s) when first observed.

1,000 feet elevation

c. Angle or elevation and azimuth of object(s) upon disappearance.

First-seen disappearing several feet above earth; second-disappeared into sky straight up.

d. Description of flight path and maneuvers of object(s)

e. How did the object(s) disappear? (Instantaneously to the North, etc.)

They both faded out, the first faded with a yellow color, the second with a green color.

f. How long (were) the object(s) visible? (Be specific, 5 minutes, 1 hour, etc.)

3 to 4 seconds

3. Manner of Observation:

a. Use one or any combination of the following items: Ground-visual, air visual, ground-electronic, air-electronic. (If electronic, specify type of radar)

Ground - visual

b. Statement of aids (telescopes, binoculars, etc.) used and description

None

c. If the sighting occurred while air-borne, give type of aircraft, identification number, altitude, heading, speed, and home station.

Not applicable

4. Time and Date of Sighting:

a. Zulu time-date group of sighting 3 Aug 65, 1930 hours.

b. Light conditions (Use one of the following terms: Night, day, dawn, dusk)

Night

5. Location of Observer(s): Give exact latitude and longitude of each observer, and/or geographical position

Albuquerque - Echo ridge mesa

6. Identifying Information on Observer(s):

a. Civilian - Name, age, mailing address, occupation, and estimate of reliability.

N.E. Albuquerque

student (teenager)

b. Military - Name, grade, organization, duty, and estimate of reliability.

Not applicable

7. Weather and Winds: Observer(s) account of weather conditions.

Calm, clear, starry sky

PROJECT 10073 RECORD

1. DATE - TIME GROUP 5 August 65 06/0330Z	2. LOCATION Albuquerque, New Mexico Near Farmington, New Mexico
3. SOURCE United Airlines Flight 8087 from Detroit to L A	10. CONCLUSION Astro (METEOR) ✓
4. NUMBER OF OBJECTS One	Investigating official regards as a meteor.
5. LENGTH OF OBSERVATION Not Reported	11. BRIEF SUMMARY AND ANALYSIS One birhgt object moving rapidly. Flight from NW to SE. General description of meteor.
6. TYPE OF OBSERVATION Air-Visual	
7. COURSE SE	
8. PHOTOS ☐ Yes ☒ No

UFO QUESTIONNAIRE

1. Description of the Object(s):

a. Shape Observed only beamless light

b. Size compared to a known object (Use one of the following terms: Head of a pin, pea, dime, nickel, quarter, half dollar, silver dollar, baseball, grapefruit or basketball) held in the hand at about arm's length.

Pea

c. Color Brilliant white light

d. Number One

e. Formation, if more than one Only one

f. Any discernible features or details None
except extreme speed

g. Tail, trail, or exhaust, including size of same compared to size of object(s)

None

h. Sound; if heard, describe sound

None

i. Other pertinent or unusual features

Light definitely flashed once

2. Description of Course of Object(s):

a. What first called the attention of observer(s) to the object(s)?

Observer caught sight of it purely by accident. It was high in his field of vision and the object's movement immediately distinguished it from the stars.

b. Angle or elevation and azimuth of object(s) when first observed.

Object was or appeared to be below the scattered cloud cover which observer estimated was 4,000 to 5,000 feet above the terrain.
Direction was south by southwest.

c. Angle or elevation and azimuth of object(s) upon disappearance.

Speed and direction remained constant

d. Description of flight path and maneuvers of object(s)
If observer's calculation of cloud cover elevation is correct, he viewed this object traveling in a straight path for approximately 10 to 12 miles in less than three seconds.

e. How did the object(s) disappear? (Instantaneously to the North, etc.)

Instantly.

f. How long (were) the object(s) visible? (Be specific, 5 minutes, 1 hour, etc.)

Probably a little less than three seconds

3. Manner of Observation:

a. Use one or any combination of the following items:
Ground-visual, air visual, ground-electronic, air-electronic.
(If electronic, specify type of radar)

Ground - visual

b. Statement as to optical aids (telescopes, binoculars, etc.) used and description thereof.

None

c. If the sighting occurred while air-borne, give type of aircraft, identification number, altitude, heading, speed, and home station.

Not applicable

4. Time and Date of Sighting:

a. Zulu time-date group of sighting 5 Aug 65, 2015 Local

b. Light conditions (Use one of the following terms: Night, day, dawn, dusk)

Night, clear, very scattered cloud layer

5. Location of Observer(s): Give exact latitude and longitude of each observer, and/or geographical position

6:00 PM, S.W. Albuquerque, New Mexico East Mesa area

6. Identifying Information on Observer(s):

a. Civilian - Name, age, mailing address, occupation, and estimate of reliability.

Pat [redacted] 27 years, [redacted], S.W. Albuquerque, New Mexico
Credit Bureau of Albuquerque Inc.

b. Military - Name, grade, organization, duty, and estimate of reliability.

7. Weather and Winds: Observer(s) account of weather conditions.

Calm, clear, widely scattered clouds, estimate cloud cover 4000
to 5000 above terrain.

PROJECT 10073 RECORD

1. DATE - TIME GROUP 6 August 65 07/0307Z	2. LOCATION Albuquerque, New Mexico
3. SOURCE Civilian	10. CONCLUSION Probably Satellite ✓
4. NUMBER OF OBJECTS One	Object has characteristics of visible satellite and duration and direction of flight consistent with this evaluation. 11. BRIEF SUMMARY AND ANALYSIS Object described as a bright star smaller than VENUS. White color. Flight to SE from NW. Observed for 30-40 seconds. Object disappeared at 45 deg elevation by fading.
5. LENGTH OF OBSERVATION 30 - 40 Seconds	
6. TYPE OF OBSERVATION Ground-Visual

UFO QUESTIONNAIRE

1. Description of the Object(s):

a. Shape Bright Star

b. Size compared to a known object (Use one of the following terms: Head of a pin, pea, dime, nickel, quarter, half dollar, silver dollar, baseball, grapefruit or basketball) held in the hand at about arm's length.

Smaller Planet Venus

c. Color White

d. Number One

e. Formation, if more than one

f. Any discernible features or details None -

Unusual speed

g. Tail, trail, or exhaust, including size of same compared to size of object(s)

None

h. Sound; if heard, describe sound

i. Other pertinent or unusual features

2. Description of Course of Object(s):

a. What first called the attention of observer(s) to the object(s)?

Saw star moving

b. Angle or elevation and azimuth of object(s) when first observed.

90 degrees

c. Angle or elevation and azimuth of object(s) upon disappearance.

45 degrees southeast

d. Description of flight path and maneuvers of object(s)

Northwest to southeast

e. How did the object(s) disappear? (Instantaneously to the North, etc.)

Rapid fade

f. How long (were) the object(s) visible? (Be specific, 5 minutes, 1 hour, etc.)

30 to 40 seconds

3. Manner of Observation:

a. Use one or any combination of the following items:
Ground-visual, air visual, ground-electronic, air-electronic.
(If electronic, specify type of radar)

Ground - visual

b. Statement as to optical aids (telescopes, binoculars, etc.) used and description thereof.

None

c. If the sighting occurred while air-borne, give type of aircraft, identification number, altitude, heading, speed, and home station.

4. Time and Date of Sighting:

a. Zulu time-date group of sighting Approx 2115 Local

b. Light conditions (Use one of the following terms: Night, day, dawn, dusk)

Night

5. Location of Observer(s): Give exact latitude and longitude of each observer, and/or geographical position

Outside house, back yard

6. Identifying Information on Observer(s):

a. Civilian - Name, age, mailing address, occupation, and estimate of reliability.

[REDACTED] N.W. Albuquerque - housewife and
boys 17 and 19.

b. Military - Name, grade, organization, duty, and estimate of reliability.

7. Weather and Winds: Observer(s) account of weather conditions.

12,000 scattered, 60 miles, SE 5

c. If the sighting occurred while air-borne, give type of aircraft, identification number, altitude, heading, speed, and home station.

4. Time and Date of Sighting:

a. Zulu time-date group of sighting 0307Z 7 Aug 65

b. Light conditions (Use one of the following terms: Night, day, dawn, dusk)

Night

5. Location of Observer(s): Give exact latitude and longitude of each observer, and/or geographical position

6. Identifying Information on Observer(s):

a. Civilian - Name, age, mailing address, occupation, and estimate of reliability.

Civilian - [REDACTED] [REDACTED] [REDACTED]

b. Military - Name, grade, organization, duty, and estimate of reliability.

7. Weather and Winds: Observer(s) account of weather conditions.

Slight breeze

UFO QUESTIONNAIRE

Brown

1. Description of the Object(s):

a. Shape Round

b. Size compared to a known object (Use one of the following terms: Head of a pin, pea, dime, nickel, quarter, half dollar, silver dollar, baseball, grapefruit or basketball) held in the hand at about arm's length.

Size of a quarter

c. Color Silver

d. Number One

e. Formation, if more than one ---

f. Any discernible features or details Perhaps something
dangling from bottom - seen by one witness.

g. Tail, trail, or exhaust, including size of same compared to size of object(s)

h. Sound; if heard, describe sound ---

i. Other pertinent or unusual features ---

2. Description of Course of Object(s):

a. What first called the attention of observer(s) to the object(s)?

Looked up and saw it

b. Angle or elevation and azimuth of object(s) when first observed.

Appeared to be above a cloud level above the local thunderheads

80 degrees

c. Angle or elevation and azimuth of object(s) upon disappearance.

Climbing at 45 degrees to west at a moderate rate

d. Description of flight path and maneuvers of object(s)

Gain altitude slowly and rapidly loose altitude several times

e. How did the object(s) disappear? (Instantaneously to the North, etc.)

Slowly climbed out of sight to the west at a 45 degree angle.

f. How long (were) the object(s) visible? (Be specific, 5 minutes, 1 hour, etc.)

Estimated at 30 minutes

3. Manner of Observation:

a. Use one or any combination of the following items:
Ground-visual, air visual, ground-electronic, air-electronic.
(If electronic, specify type of radar)

Ground - visual

b. Statement as to optical aids (telescopes, binoculars, etc.) used and description thereof.

None

c. If the sighting occurred while air-borne, give type of aircraft, identification number, altitude, heading, speed, and home station.

4. Time and Date of Sighting:

* a. Zulu time-date group of sighting 1045 to 1415 local time 16Aug65

b. Light conditions (Use one of the following terms: Night, day, dawn, dusk)

day - cloudy

5. Location of Observer(s): Give exact latitude and longitude of each observer, and/or geographical position

Eastern and Washington Street, S.E. Albuquerque, New Mexico

6. Identifying Information on Observer(s):

a. Civilian - Name, age, mailing address, occupation, and estimate of reliability.

1. [REDACTED], age 15, [REDACTED]

2. [REDACTED], age 15, [REDACTED]

b. ~~Military~~ - Name, grade, organization, duty, and estimate of reliability.

7. Weather and Winds: Observer(s) account of weather conditions.

Scattered cumulus, clear in area of observation - a few high cirrus.

*during time of observation, a B-52 departed Kirtland AFB on East-West runway in an easterly direction.

PTD (TDEW)
Wright-Patterson AFB, Ohio 45433
27 August 1965

Mrs [REDACTED]
[REDACTED], N.W.
Albuquerque, New Mexico

Dear Mrs [REDACTED]

Reference your reports of unidentified flying objects which you made to Kirtland AFB. The information which we have received is not sufficient for evaluation. Request that you fill out the attached PTD Forms 164, one for each observation, and return them in the envelope provided.

The Air Force appreciates your interest in this subject.

Sincerely,

HECTOR QUINTANILLA, Jr
Major, USAF
Chief, Project Blue Book

OFFICIAL FILE COPY

The information which has been filled out in this report pertains to only the first sighting and not the second sighting which I and three other people observed and reported to Kirtland Air Force Base the same night of our sightings.

A. First sightings - Time - 9-9:30 p.m.
In this first sighting only one object was seen. The object when first sighted was traveling from a southern direction and gradually changed to a north eastern direction. As it began to move from the south direction the object began to rise higher and increase in speed. A light turquoise blue with an inter-mixture of white light was coming from the tail portion of the object. The object stopped moving for a short ~~time~~ ^{time} once it got in an easterly position. It stayed in one position for about two-three minutes. During that time the turquoise-blue light went out and only a white light could then be seen. After two-three minutes the object then proceeded in a north eastern direction.

B. Second Sighting Time - 10-10:30 p. m.

In the second sighting we observed four objects traveling in a regular flight formation. These four objects also came from a southern direction but soon changed to a north-western direction. These objects were in sight for about a period of five-six minutes.

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

Day August Month 1965 Year

2. Time of day: 9:30
Hour Minutes

(Circle One): A.M. or P.M.

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

Nearest Postal Address _____

City or Town Albuquerque

State or County New Mexico

5. How long was object in sight? (Total Duration)

Hours 10 Minutes 00 Seconds 00

a. Certain

b. Fairly certain

c. Not very sure

d. Just a guess

5.1 How was time in sight determined? _____

5.2 Was object in sight continuously?

Yes ✓

No _____

6. What was the condition of the sky?

DAY

a. Bright

b. Cloudy

NIGHT

a. Bright

b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right

d. To your left
e. Overhead
f. Don't remember
