FLYING SAUCER FROM MARS DISCOVERED

An on-the-spot Institute investigation recently verified the existence of a "Flying Saucer From Mars," which has accounted for many UFO sightings in the Pittsburgh area. The object is a Citabria Champion advertising plane flown by Fred Eiler, Culmerville Airport, and bears the above quoted inscription with the qualification "Pa." in small letters after "Mars." Mr. Eiler owns AAA Sky Adds, Inc.

The wingspan of the Citabria ("airbatic" spelled backwards) is 36-1/2 feet. It usually flies at an altitude of about 1,000 feet, around 70 mph, and can stay aloft over five hours. Mounted below the wings is a framework of wires to which are soldered 7 rows of 36 CMS1 bulbs, the size of a flashlight bulb. A heavy tape with holes punched in it to spell out a message, runs through a machine inside the plane which makes the bulbs light up in a certain sequence, to make the message move across the lights. An air siren mounted below the plane is sometimes used to attract attention.

In a strong headwind, at an airspeed of 30 mph, the Citabria can appear to be standing still. Seen on edge, its lights, moving from one side to another, can give the appearance of a flattish object with a row of lights around the rim. The engine of the plane is inaudible at a distance from which the moving lights can be easily seen; thus, many people report seeing a silent, disc-shaped object with a rotating rim covered by equally-spaced lights. When the plane is flying directly toward or away from the observer, especially in a misty atmosphere, its appearance can be quite eerie. It can, as several reports have stated, definitely "not resemble any conventional aircraft".

Report of UFO received from Mrs. [REDACTED] Drive, Pitcairn, Pa. 15110, (Tel. [REDACTED]). Mrs. [REDACTED] observed a white disc shaped object at 1050 hours moving across the sky. There was just one object which was round and seemed larger than commercial planes which fly over the area, about the size of a half dollar, moving very fast, SW to NE. There was no sound. Object was seen when Mrs. Moore opened her living room window to see the sky and clouds. The sky was clear, blue and there were some fluffy white clouds. Object was below the clouds. The clouds were not moving but were stationary. Mrs. [REDACTED] lives on a hill overlooking the country and the object was flying low to the horizon. Mrs. [REDACTED] can see the sky well, raising her head at about a 45 degree angle. The object was seen for about 10 seconds.

Reference sighting by Mr. [REDACTED], Tave Baugh Road, Baden, Pa. (Tel. [REDACTED]), 13 Aug 65. Dr. [REDACTED] Jenkins Arcade, Pittsburgh, Pa. (Tel. [REDACTED]) was contacted. [REDACTED] stated that to date no final evaluation on Mr. [REDACTED] eyes had been made. However, he did state that there had been some vision drop in one eye and a slight hemorrhage in the other eye which is rather hard to explain and possibly not truly a hemorrhage and does not look like radiation burn. Further studies are being made. Dr. [REDACTED] saw Mr. [REDACTED] one week after the situation happened.

30 Aug 65

Report received from Mrs. [REDACTED], Penn Hills, [REDACTED] stating she had seen a glowing man or diamond in her back yard between 0100 - 0130 hrs. When she saw it, it was lying down in some bushes at the back of her yard. She saw it for about one minute when she looked out of the window. The object was brought to her attention by two young boys. [REDACTED] who lives on [REDACTED], Penn Hills, age 14, who was visiting Tiyne Foster, age 16, who lives upstairs at Mrs. [REDACTED] residence. [REDACTED] saw the object when he was going home and went back to ask his friend [REDACTED] to walk him home. They threw objects at it and as they started to leave, it took a step toward them. The boys ran in opposite directions. [REDACTED] described it as being 8 feet tall with a bright gold glow. After [REDACTED] ran home he asked a friend to go back and when they did, with the aid of a flash light, they found nothing. [REDACTED] stated he saw the object for about 15 to 30 seconds. Mrs. [REDACTED] stated the ground and weeds in the area she saw the object were flattened down when she checked the area later.

(Possibly this could have some type of swamp fire and when I asked what type brush and if there was rotten wood in the area, Mrs. [REDACTED] didn't know.)
