8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
b. A few
c. Many
d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight - pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

It was as bright as our brightest satellite
which is too awfully bright

12. The edges of the object were:

- (Circle One): a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember

- e. Other It was awfully
small, so it would be
hard to tell what the
edges looked like!

13. Did the object:

(Circle One for each question)

- a. Appear to stand still at any time?
- b. Suddenly speed up and rush away at any time?
- c. Break up into parts or explode?
- d. Give off smoke?
- e. Change brightness?
- f. Change shape?
- g. Flash or flicker?
- h. Disappear and reappear?

- [illegible]

14. Did the object disappear while you were watching it? If so, how?

yes. By speeding out of sight.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

Dear Sir:

My senior year in high school I wrote my senior theme in English on U.F.O.'s. In my home town, recently, there have been reports of many unidentified flying object reports which I believe many are false and have no authenticity at all!

I have observed observed many things in the sky in the past year — such as weather balloons, satellites, reflections, etc; and I reported one satellite last year to you because suddenly the light from the satellite disappeared. But it was explained and all was A-O-K.

But tonight, August 4, 1965 about 9:25 P.M. I was out looking for

some of these so-called flying
saucers that so many people have
reported!

I saw one! What a laugh! But
in serious! This object was a dim
red - it moved in a straight line
due South - straight overhead - what
seemed to be miles higher than any
plane I have ever seen. It was
visible at about a -1 magnitude.

This object moved half way across
the horizon in approximately 10 seconds!

faster than any plane I have ever
seen - to be that high up! Then
it faded away because it wasn't
bright enough to see to well.

Maybe this report sounds as crazy
as all the rest you receive - But,
I hope you will write back and
tell me what it probably was I
saw! I would appreciate it very
much.

Sincerely,

4 AUGUST 1965

Observer was out looking for unidentified flying objects when at approximately 2125 hours a dim red object appeared and was moving due south, straight overhead. The light crossed half of the sky in ten to fifteen seconds. The light, about the size of a bright star, was moving faster than any aircraft the observer had ever observed. The object just disappeared by speeding out of sight. There was no sound or trail noted. The object wasn't bright enough to be seen clearly.

COMMENTS.

The presented data is characteristic of a meteor, however, no trail or tail was reported. As for being a satellite, balloon or aircraft, the duration and degree of arc through which the object passed discounts such an explanation. Observer has reported two other sightings to the Air Force. As such, with the information available, the case is considered as unidentified by the Air Force.
