1. DATE - TIME GROUP 5 August 65 05/1630Z	2. LOCATION San Antonio, Texas
3. SOURCE Civilian	10. CONCLUSION VISUAL: Insufficient Data for Evaluation ✓ PHOTO: No Image
4. NUMBER OF OBJECTS One	Screeching sound attributed to siren from nearby fire station. Description of object resembles balloon observation. Insufficient Data for Evaluation in view of conflicting data.
5. LENGTH OF OBSERVATION 30 - 40 Seconds	11. BRIEF SUMMARY AND ANALYSIS Round very bright silver object. No features. Screeching sound associated with object. Initial attention attracted by flash of light. Heard A/C sound T-38 and saw object slightly behind and above a/c. A/C estimated at 1,000 ft. Ran into house to get camera and returned. T-38 was gone but object was visible against cloud. Had jittering motion. Sound continued. Took picture and object disappeared. Initial observation at zenith moving to 60 deg elevation. Flight to NW. Clouds moving in area. Sun still out.
6. TYPE OF OBSERVATION Ground-Visual	Inconsistencies in report relating to T-38. No reports from area at this time. Estimation of duration probably in error. Would take longer to get camera and take picture and for the T-38 to disappear.

KNOWLEDGE OF USAF AIRCRAFT AND HIS REPORT OF THE T-38, I BELIEVE MOST OF HIS INFORMATION IS INACCURATE. T-38S DO NOT FLY OVER THIS PORTION OF TOWN AT ALL UNDER VFR, AND IF IFR THEY WOULD BE HIGHER THAN 1000 FT. ON THIS DAY CLOUDS WOULD OBSCURE A T-38 IN AN INSTRUMENT APPROACH PATTERN FOR THE INTERNATIONAL AIRPORT OR KELLY AFB. THE NOISE THIS CHAP HEARD WAS PROBABLY AN EMERGENCY VEHICLE TAKING PART IN A NEIGHBORHOOD FIRE STATION ALERT. DURING THE INTERVIEW THE SOUND WAS HEARD AGAIN AND I WOULD CALL IT AN AUTO HORN "OUT OF TUNE". ANOTHER POSSIBILITY FOR THE SOUND WOULD BE NOISE FROM CONSTRUCTION EQUIPMENT THAT IS WORKING ON THE NEXT STREET SOUTH OF THE OBSERVER'S HOME. COMPRESSED AIR IS RELEASED FROM TIME TO TIME FROM THIS EQUIPMENT. A LOUD SHRILL WHISTLING NOISE RESULTS. I HAVE NO EXPLANATION FOR THE "FLASH OF LIGHT" THE OBSERVER SAW, NOR THE "JITTERING" OBJECT HE SAW AGAINST THE CLOUD. POSSIBLY THIS WAS A REFLECTION FROM A NEIGHBORHOOD SWIMMING POOL OR AUTO WINDOW. WITH BROKEN CLOUDS MOVING OVERHEAD THE OBJECT

1. PURPOSE: This report answers Work Order 65-104 from Major Quintanilla Jr. (TDEW-UFO) to analyze one photo taken near San Antonio, Texas on 5 August 1965.

2. ANALYSIS: Analysis was conducted by the Photo Analysis Division, TDDPA, and the Photo Processing Division, TDDPP.

a. The print shows the roof line and partial side of a house in the lower right 4 tenths of the frame. The remaining 6 tenths of the frame shows the sky and broken cloud cover. Several light and dark spots are apparent throughout the frame.

b. Examination of the negative showed many abrasions and several holes in the emulsion. Fingerprints cover 50 percent of the frame and were placed on the negative prior to processing.

c. No object that resembles a real image can be identified except for the edge of the house.

3. CONCLUSION: The object mentioned by the observer does not appear in the photograph.

DASHED INTO HIS HOME TO GET HIS CAMERA AND CAME BACK OUT ONTO A
PORCH ROOF. HE SAID THE T-38 WAS GONE, BUT HE COULD STILL SEE THE
UFO. IT HAD STOPPED FOLLOWING THE T-38 AND WAS VISIBLE AGAINST A
CLOUD. IT HAD A BRILLIANT "JITTERING" APPEARANCE AND ITS SOUND
WAS CONTINUING. HE SNAPPED A PICTURE AND THE UFO DISAPPEARED.
