1. Follow-up investigation failed to produce any relevant information. The description of the formation sighted by Mrs. [REDACTED] resembled that of a flight of fighter aircraft engaging in night refueling operations with KC-135 tanker. Neither Cannon AFB, New Mexico nor Holloman AFB, New Mexico, flew refueling missions that night.

2. Mrs. [REDACTED] has been very zealous in reporting her sightings of various lights in the sky. Previously her statements had been somewhat confused, however, on this occasion she had prepared a set of notes to aid her in making her report. I believe that her enthusiasm may render her somewhat less reliable than a casual observer would be.

3. Mrs. [REDACTED] stated that she had devoted her evenings for most of the week to watching for these lights. I am unable to establish any well founded conclusions based on the evidence available.
