

PROJECT 10073 RECORD

1. DATE - TIME GROUP 20 August 65 21/0216Z	2. LOCATION Plattsburg, New York
3. SOURCE Military	10. CONCLUSION A/C VISUAL <i>REDACTED</i> 1. A/C W/ ECM
4. NUMBER OF OBJECTS One	Visual characteristics of an A/C. Radar returns indicate an a/c with ECM or "Jamming" equipment. Flight pattern consistent with this evaluation.
5. LENGTH OF OBSERVATION 3 Minutes	11. BRIEF SUMMARY AND ANALYSIS
6. TYPE OF OBSERVATION Grdn-Visual, Grnd-RADAR	GCA Radar experienced jamming for a period consistent with the visual sighting. Jamming confined to the position of the object under observation. Jamming ceased with the departure of the object. Object maneuvered. Described as flat 15-20 ft in diameter. Color was bright metallic with bluish reflection. Circled back and forth with high speed turns. Turns included circles with 1/2 mile radius. Turns were high speed and the distance from the observer estimated at 2-3 miles. After circling for 2 minutes the object flew away to the East at high speed. Flight near base of clouds at 4,500 ft. Flight consistent with A/C on jamming mission.
7. COURSE Maneuvered

20 AUG

TDEW

UFO Sighting, 20 August 1965

SEP 14 1965

380 SAW

Attn: 1st Lt David C Norton
Plattsburgh AFB, New York

1. Reference your message 380 DCOII01099 AUT 65. Object observed on the night of 20 August 1965 by Major Harry Hutton has all the characteristics of an aircraft sighting. Request investigation into possible aircraft in the area at time of observation.

2. At the time of the sighting the GCA radar at Plattsburgh AFB, indicated jamming. The reported disappearance of an object on GCA radar was to the West while the visual observation indicated departure to the East. It is requested that a more detailed report of the radar portion be obtained to include duration and possible causes of the jamming.
